BAREFOOT MAN OF 189 FOUND IN IRAN VILLAGE

TEHRAN (AP)—The newspaper Ettelaat says a man aged 189 has been discovered living in Keluseh, a remote village in central Iran.

According to the report, the man, Sayed Ali never wears shoes and can walk two or three miles unaided after being helped on to his feet.

Ali is reported to have had a 120-year-old son, Hussein, who died several years ago in nearby Seireh village.

Black Orders Full Probe Of Mental Health Services

Inquiry Follows 'Economy' Charges

By PETE LOUDON

A full investigation of B.C. mental health services by a team of experts has been ordered by Provincial Secretary W. D. Black, it was learned today.

The investigation, which follows charges of unwarranted economy drives within the mental health service, will be carried out by officials appointed by the American Psychiatric Association.

A committee will be charged with examining present facilities and services and determining future requirements.

Mr. Black will attend a convention of the APA in Kansas City next week where he is expected to arrange the inquiry.

Although Mr. Black previously had resisted suggestions that there were faults in the mental health services, they were a centre of controversy during the legislative session earlier this year.

B.C. Medical Association, in convention at Kelowna last week, also heard charges by Dr. Frank Turnbull that health services in the province are deteriorating.

Mr. Black said he would announce, after the U.S. convention, what the specific objectives of the survey would be and whether findings would be made public.

In defence of the mental health services, he said, "We are trying to do the best we can with what we have got. We have made every effort to get the necessary skilled personnel, but we are suffering a shortage of trained personnel. It is an enormous problem and B.C. is not alone in it."

Dr. Turnbull bases his charges of deterioration on the lack of trained staff. He said the high turnover of staff was due to unsatisfactory working conditions.

Mr. Black's department had rejected an inquiry by a special committee of the B.C. Medical Association, he said.

Gordon Dowling, CCF MLA for Burnaby, charged Monday that Mr. Black "does not even have a clue" to what is going on in government health services.

In a CBC free-time political broadcast he said Premier Bennett Continued on Page 29

Reds Extend Cease-Fire For Two Weeks

TAIPEI (AP)—The Chinese Nationalists pushed their restocking of the Quemoy today as Red China extended its cease-fire in the Formosa Strait for two more weeks.

Quemoy's civilians relaxed. More farmers went to their peanut, sorghum and vegetable fields than at any time since the Communists started their artillery siege Aug. 23.

The main activity may now shift to diplomatic talks in Warsaw between Red China and the United States. The eighth meeting of ambassadors is Wednesday.

WASHINGTON (AP)—President Eisenhower Sunday hailed as "good news" Red China's extension of the Quemoy cease-fire for two more weeks. He pledged the United States would work for a negotiated settlement of the Formosa Strait problem.

TAIPEI (AP)—Vice-President Cheng Cheng said today the Nationalists will not reduce the strength of their garrisons on the offshore islands.

OTTAWA (CP)—The CBC today asked the Supreme Court of Canada to reverse a judgment of the Ontario courts that it must stand trial on charges of violating the Lord's Day Act by broadcasting news on Sunday.

CHICAGO (UPI)—Two bombs, exploding almost simultaneously, shattered the neighboring buildings housing two Negro families in a south-side neighborhood early today.

Mr. Thomas said last February's \$10,300,000-a-year award was disallowed by the federal government only because it was "embarrassing" before an election.

"Was there conniving between John Diefenbaker and Bell Telephone to postpone the increase until after the election?" asked Mr. Thomas.

"I don't know, but it's passing strange that three months after the election Bell should be back in there seeking an increase. And it's passing strange that Premier Duplessis of Quebec and Leslie Frost of Ontario are not opposing this application."

Part leader MacDonald added: "It will be interesting to see whether the increase is turned down this time."

BIRTHDAY SMILE

President Eisenhower wears big smile and carnation in lapel as he attends breakfast marking 68th birthday today in Washington. Party was arranged by four Republican organizations. (AP Wirephoto).

U.K. Backs Year's Ban On A-Tests

UNITED NATIONS, N.Y. (CP)—Britain appealed to the Soviet Union today to join her and the United States in a year's suspension of nuclear weapons tests starting Oct. 31.

Minister of State Allan Noble told the United Nations General Assembly's political committee: "We want the cessation of tests with real disarmament because only so will real security be achieved."

"The cessation of nuclear weapons tests is not in itself disarmament... It will leave a number of powers to go on amassing nuclear weapons as much as they please... The suspension of tests, however, may increase confidence and may help to bring about real disarmament."

Bells Toll Dirge As Pope Buried

(From Times News Services)

VATICAN CITY—Requiem services for Pope Pius XII continued today before a symbolic coffin in St. Peter's Basilica as cardinals gathered to elect his successor.

The late pontiff of the Roman Catholic Church was buried Monday in the grottoes beneath St. Peter's. An empty coffin was placed in the church for mourning masses that continued until Sunday.

The giant bells of St. Peter's Basilica tolled a dirge as the body of the Pope, encased in three coffins, was lowered into the massive stone foundations of the Basilica.

Twenty-two cardinals of the church, among them Paul-Emile Leger of Montreal, sat with bowed heads as the eulogy was read by Msgr. Nicola Metta, chosen by the cardinals for that task.

The mournful tones of the Miserere, chanted by the Vatican's Julian Choir, rose and fell through the recesses of the Basilica throughout funeral services.

Strange sounds marked the two-hour ceremony.

These included the rasp of brace and bit screwdrivers, the pounding of hammers on a leaden coffin and the hum of acetylene torches that sealed it.

Above the incense, there was the odor of melting solder, and, at the end, the squeak of rope and pulley as the heavy, thrice-sealed coffins were lowered into the grottoes.

The titular bishop of Adana, Msgr. Diego Venini, celebrated today's mass.

The cardinals already in the Vatican later received members of the diplomatic corps accredited to the Holy See. Eugene Cardinal Tisserant, dean of the College of Cardinals, is presiding over their official functions until a new Pope is chosen.

On Sunday, when the nine-day mourning period ends, the cardinals will receive special envoys of foreign governments paying their respects to the late Pope.

About a dozen cardinals were expected to arrive today to join the 28 already in the Vatican. All but two of the 35 cardinals probably will be here for the conclave beginning Oct. 25 to elect a new Pope. The two who won't make it are Alojzije Cardinal Stepinac of Yugoslavia and Josef Cardinal Mindszenty of Hungary.

SALGO GAINED LOOT, FRIENDS ON B.C. VISIT

(See also Page 21)

VANCOUVER (CP)—Mexican painter Andres Salgo, whose work was roundly criticized in Victoria last week, left the province today saying: "I like B.C. very much."

He said he was "richer in experience, friendship and money."

Salgo's exhibition in Victoria was denounced by seven artists there as junk. He replied by describing his detractors as house painters and barn painters.

The controversy is credited with attracting hundreds of people to the Victoria art gallery to see his works. He claims he sold 10 paintings.

His prices range up to \$1,000.

W. Indies Leader Urges More Trade

OTTAWA (CP)—Lord Hailes, governor-general of the West Indies federation, said today it is vital for the fledgling nation to "sustain and increase" the trading relationship that has existed for more than 300 years between the West Indies and Canada.

He expressed deep appreciation to the Canadian people for economic aid and said he is convinced from what he knows of West Indians that Canada's faith in the federation will not prove misplaced.

Lord Hailes, here on an official visit, was referring to Canada's five-year, \$10,000,000 program of aid, including two ships.

Labor Politics Backed By B.C. Civil Servants

(See also page 2)

VANCOUVER (CP)—B.C. civil servants have voted to strengthen their ties with organized labor.

They voted down a proposal not to support labor's political activities.

The decisions were made at the windup Saturday of the 15th annual convention of the B.C. Government Employees Association.

The association is affiliated with the Canadian Labor Congress which is committed to support the CCF party in forthcoming elections.

The association's actions could mean civil servants employed by the Social Credit government will be committed to the CCF in the next provincial election.

The motion approved seeks "stronger and more intelligent voice in local labor councils."

The motion voted down means the association will not retreat from the political action of affiliated labor groups, a spokesman said.

Th' old sayin', whut goes up must come down, still holds but it's takin' an awful beatin'.

Lookin' into mental health seems a mighty sane suggestion.

I kin jist imagine th' day when we'll be squabblin' over offshore planets.

Two Extra Space Shots Approved for Air Force

CLIMBER LOST

Salt Spring Area Scoured For Plane

Search for a missing light plane from Vancouver narrowed to the Salt Spring Island area today as two aircraft and a fleet of small boats resumed an air-sea patrol started in bad weather Monday.

The plane vanished Sunday evening after the pilot called Vancouver airport for landing instructions.

The RCAF search and rescue centre said the pilot was John L. Duda, North Vancouver, who is well known as a mountaineer.

Bad weather restricted the search Monday and continued overcast skies in the south coastal area today limited the air search to two planes.

Duda called the airport when only 2½ miles out, but did not reply when the airport radioed instructions.

Officials believe his radio went dead and that he lost sight of the field when making a turn and headed out toward the Gulf Islands.

Heavy clouds blanketed the Vancouver-Nanaimo area Monday.

Duda was returning alone from a logging operation at Gifford Island, 250 miles north-west of Vancouver.

Among his 30 mountaineering "firsts" in North America are ascents of Mount Princess and Mount March.

Strike Ties Up BOAC

LONDON (Reuters)—British Overseas Airways Corporation arranged for its stranded passengers to fly by other airlines today as a wildcat strike by 4,000 maintenance workers brought London service to a halt.

NEW YORK (AP)—The U.S. Air Force was reported today to have been authorized to launch two space shots in addition to the three lunar firings originally assigned it last spring.

A Los Angeles dispatch to the New York Times said informed sources disclosed this Monday.

One is likely to be an attempt to gather scientific data in the vicinity of the planet Venus, it was reported.

'Man On the Moon' Within 12 Years

(See Also, Page 3)

WASHINGTON (CP)—A prediction that man will set foot on the moon in 12 years has followed the plunge to disintegration of a lunar-bound rocket that knifed nearly 80,000 miles into space.

Maj. Gen. John B. Medaris, U.S. Army missile chief, made the prediction Monday at a press conference at the National Electronics Conference in Chicago.

After calling the U.S. Air Force moon rocket a spectacular success, Medaris said the army is right on schedule with a moon shot of its own. He said chances are about 50-to-50 the army shot will get into the area of the moon.

He added chances are not good that the rocket, using a Jupiter ballistic missile for the first stage, will orbit the moon.

Medaris said the army intends to have more ground control over its shot. This indicated the army may be able to make in-flight corrections in direction.

Failure of the air force Pioneer missile, which disintegrated unobserved over the South Pacific Monday after soaring to a record 79,120 miles, has been attributed to a three-degree error in trajectory.

Word from the Cape Canaveral, Fla., launching site of the Pioneer is that another moon rocket try will be made between Nov. 8 and Nov. 11, when the moon is closest to the earth—some 223,000 miles. Unofficial word is that the army may

make its bid in December and January. The first air force moon rocket, launched Aug. 17, exploded after 77 seconds.

MUM ON RUSSIANS

Medaris wouldn't be drawn out on what Russian efforts to get a missile to the moon have been. The Russians, he indicated, are concentrating on getting a man into space and returning him to earth. (See Page 3.)

Greatest achievement of the Pioneer, Medaris thought, was its complete penetration of the shell of radiation surrounding the earth. Early reports indicate, he said, that most intense radiation was met at 10,000 miles, with successive decreasing radiation until after 70,000 miles, when the instruments indicated Pioneer was in the clear.

Lord Hailes, here on an official visit, was referring to Canada's five-year, \$10,000,000 program of aid, including two ships.

The motion approved seeks "stronger and more intelligent voice in local labor councils."

The motion voted down means the association will not retreat from the political action of affiliated labor groups, a spokesman said.

MYNAH BIRD SINGS LIKE DRUNKEN SAILOR

LONDON (AP)—The upper crust folk of Esher Park Avenue are demanding a legal muzzle for the Cockney cage bird that wolf-whistles at girls and sings like a drunken sailor.

The bird is an Indian mynah, one of the more articulate members of the starling family. It lives in a superheated aviary at one of the biggest houses on the respectable, tree-lined avenue.

Its raucous repertoire—rendered largely in Cockney

accents picked up from a friendly garbage man—sends outraged shudders through the sedate, suburban neighborhood.

Wolf whistling seems to bore the mynah fairly quickly. But then it launches into the song All the Nice Girls Love a Sailor in a voice like that of a matelot lurching from the grog shop.

When this palls, the bird can give a passable imitation of suddenly screeching car brakes, throwing scares into many a passerby.

The mynah's owner, John Luttmer, was summoned to court Monday, accused of keeping a pet that causes "a serious nuisance."

Businessman Clifford Blackmore complained that he can hear the bird over his garden hedge from dawn till dusk. On summer evenings he has trouble to sit out in his garden.

Luttmer, a 49-year-old potato importer, stoutly maintained that his pet is "pretty and amusing."

The case was adjourned for the weekend.

ACROSS THE PROVINCE

Gunfire Marks Rescue at Sea, Medic Charged

(From CP Dispatches)

VANCOUVER—A Vancouver surgeon was charged with operating a vessel while impaired Monday after four RCMP officers took the man from his grounded yacht following a shooting affray.

Dr. C. E. Battle, aged about 50, was remanded to Oct. 22 and released on his own recognizance when he appeared in North Vancouver police court.

RCMP appeared on the scene after would-be rescuers were greeted by gunfire in the early morning incident off Gambier Island in Howe Sound, 30 miles northwest of here.

RCAF air-sea rescue officials here said they began receiving distress calls from the yacht Farmack at 9:30 p.m. Sunday. A "drunken" voice said the vessel was stuck on a reef in centre harbor at Gambier Island and was in danger of capsizing. The calls lasted for 1½ hours.

A water-taxi from Horseshoe Bay, on the mainland near the mouth of Howe Island, located the yacht but the crew said when they approached the Farmack they were greeted with shouts and curses. A man on deck told them: "We don't need rescuing."

The taxi's crew reported they were then shot at.

A Vancouver city police launch then took the RCMP officers to the grounded vessel and a man was arrested.

FIRE DESTROYS SCHOOL

PENTICTON — Fire destroyed a Pentiction elementary school early today.

Burned was an H-type army hut school on Jermain Avenue, which was attended by about 200 pupils.

The fire was discovered shortly after 2 a.m. in the western portion of the building and quickly spread through the entire structure despite efforts of firemen and four fire trucks.

HOTEL ROBBED, TRIO HELD

ALDERGROVE—Two armed men bound and gagged the manager of the Aldergrove

Hotel early today and made off with \$1,600 cash from the hotel safe.

Less than an hour later police said they recovered the money and took three suspects—two men and a woman—into custody.

RCMP said the three suspects were taken into custody after being stopped at a roadblock in nearby Surrey. Police said two guns were found in the car.

SPORTS CAR WINNERS

VANCOUVER — Driver Ron Moscrop and Navigator Rex Scofield have won the three-day Cariboo sports car rally in which 48 driver-navigator teams, members of the B.C. Sports Car Association, took part.

The first leg of the rally was from Vancouver to Lillooet; the second from Lillooet to Clinton; and the third back to Vancouver. The total distance was about 900 miles.

DRIVER CHARGED

HOPE — Gordon Ray Nicholson, 23, of Hope has been charged with failing to remain at the scene of an accident in connection with the traffic death of a pedestrian Saturday at Hope.

He was scheduled to appear in police court today. RCMP have not released the name of the dead man.

BOY STABBED

VANCOUVER — Police are investigating the possibility of a "war" between gangs of teenagers following the stabbing of a 15-year-old boy by another youth Sunday night.

In good condition in hospital is Siegmund Warner, of Vancouver, suffering from a knife wound in his abdomen.

WORLD'S TALLEST TOWER ERECTED BY JAPANESE

TOKYO (UPI)—Workmen installed an 82-foot antenna atop Tokyo's "television city" tower today, making it the tallest free-standing tower in the world.

The 1,092-foot tower stands 108 feet taller than Paris' Eiffel Tower, nearest competitor in its class of structure.

The Tokyo tower, rates third among man-made structures, trailing a 1,610-foot supporter tower in Roswell, N.M., and the 1,472-foot Empire State Building in New York City.

The tower's closest competitor in Asia is a 537-foot television tower in central Japan.

City Woman Refused Re-Entry Into Canada

SEATTLE (AP)—Mrs. Hazel Anna Wolf, 60, whom the United States has been trying to expel since 1949, will not be accepted for deportation by her native Canada, her lawyer, John Caughlan, said today.

Caughlan said he had been informed that under a Canadian law in effect up to 1932, Mrs. Wolf lost her Canadian citizenship Dec. 30, 1926, when she married Herbert Dunning Wolf, an American citizen, in Portland Ore.

The government has been trying for many years to deport Mrs. Wolf on grounds of Communist party membership. She was born in Victoria, B.C., but has lived in the United States since 1922.

Caughlan said the Canadian ruling was made in Ottawa by Laval Fortier, Canada's deputy minister of citizenship and immigration.

District director John Boyd of the immigration service said he had not been informed of the ruling.

False Teeth Often Have a Certain Odor!

Soak your plates in Polident daily to avoid "Denture Breath"

Polident is the specially designed cleanser that keeps false teeth—and breath—clean and fresh always. Follow these simple rules:

1. Never use a brush on them! Your denture plates are much softer than natural teeth. Brushing wears down fitting ridges so they get loose.
2. Never use soap or toothpaste! They can leave film which collects bacteria and food particles, a major cause of offensive "Denture Breath."
3. Use a soaking-type cleanser made for false teeth only... Polident! Polident is the denture cleanser recommended by more dentists than any other. No brushing, no handling of soapy plates that can slip and break. Polident gets where a brush can't reach. Best of all, Polident always leaves false teeth odor free. Get the world's largest selling denture cleanser, Polident, at your drug counter.

Saudi Arabia Oil Deal Threatens Whole Industry

ROME (AP)—Saudi Arabia is concluding negotiations on a concession agreement, it must be given an opportunity to meet these terms. But in doing so it could increase heavy pressures upon its own organization.

The deal now is to be placed before the board of Standard Oil Company of Indiana, an independent company. It would strike a new blow at the 50-50 concept of oil profit sharing in the Middle East. In addition, it would prescribe Saudi participation in operations and profits all the way to the consumer in an "integrated" company.

If Indiana Standard accepts the terms, now being offered on an all-or-nothing basis by Saudi Arabia, the giant Arabian American Oil Company Aramco faces a difficult decision. Under its concession agreement, it must be given an opportunity to meet these terms. But in doing so it could increase heavy pressures upon its own organization.

The deal is being negotiated by Frank C. Hendryx, an American lawyer retained by the Saudi Arabian government. If it is accepted, or if the terms are met by Aramco, it then goes before the government for final approval.

The company involved is Pan-American Petroleum Corporation. This company is owned, through another affiliate, by Indiana Standard.

Pan-American already has breached the 50-50 pattern in non-Arab Iran. It concluded a

Rocket Plunges Back From 79,000 Miles

Too Slow To Escape Gravity

WASHINGTON (AP) — The U.S. Pioneer moon missile plunged back into earth's atmosphere at about midnight, EDT (8 p.m., PST) Sunday night after knifing through space to a record-smashing altitude of 79,120 miles.

The air force said it assumed the missile burned up on re-entering the earth's atmosphere at a point estimated to be over the South Pacific.

No reports of visual observation of re-entry were received.

The air force announcement said:

"The Hawaiian tracking station lost contact with the United States Pioneer lunar probe vehicle at 12:46 a.m., EDT.

"It was the last tracking station in the lunar probe tracking and communications network to receive signals.

DEATH PLUNGE

"Analysis of the data received by the Hawaiian station indicates that the Pioneer re-entered the earth's atmosphere at approximately midnight, EDT, and is assumed to have burned up upon re-entry.

"During the last two hours of the historic flight repeated efforts were made to fire the retro rocket. No confirmation of successful firing was received.

"The final velocity was estimated at 34,425 feet per second, the same speed attained shortly after liftoff of the space exploration vehicle at Cape Canaveral at 4:42 a.m., EDT, October 11, 1958."

Scientists estimated it took the missile about 24 hours to climb to peak altitude—about one-third the distance to the moon.

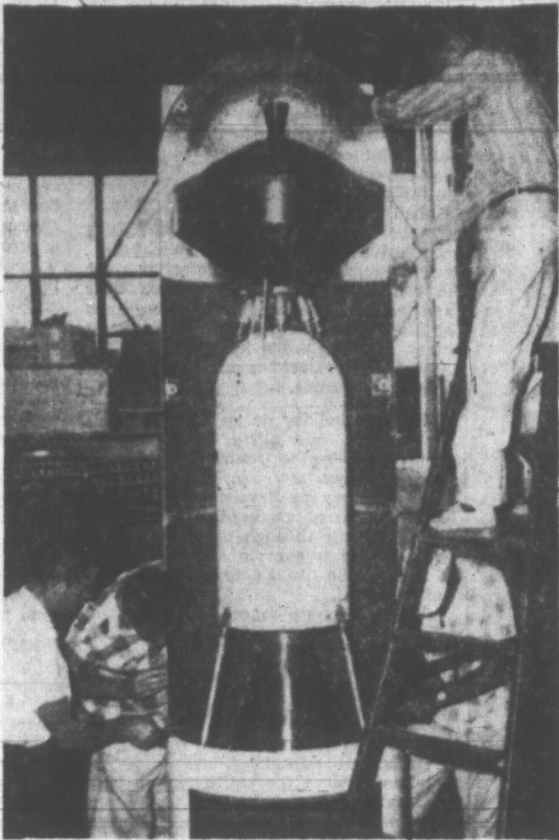

FAST DESCENT
The speed on the descent was faster than anticipated. Theoretically, the scientists said it should have taken about as long for the rocket to come down as it took to go up.

A powerful radio transmitter in the vehicle sent out a constant stream of signals which were picked up by five tracking stations around the world. As position signals were received at these points, they were relayed to the data reduction centre of Space Technology Laboratories in Los Angeles.

Mathematicians, using the individual reports, swiftly converted the various time designations to a standard figure, then passed the information on to specialists who were able to check the position of the missile in relation to the earth and the moon.

So ended in a blaze of only partly frustrated triumph mankind's most ambitious attempt thus far to explore the universe.

The U.S. scientific autopsy, given in a press conference at

FITTING of the nose covering which protected third and fourth stages of the U.S. moon missile was tested by scientists before "blast-off" at Cape Canaveral Saturday. The satellite has its own small rocket cluster, attached between it and third stage booster, which is white in this photo. Satellite itself is shape of child's toy. (AP Wirephoto.)

the National Academy of Sciences, reported two main things wrong with the effort to send the 85-pound instrument carrier within TV range of the moon:

1. Pioneer didn't have quite the enormous rocket push needed to make the journey of more than 200,000 miles to the moon. The moon missile was supposed to develop a speed of 35,250 feet a second after launching from Cape Canaveral, Fla., early Saturday. Dr. Louis G. Dunn, president of the Space Technological Laboratories, said it looked as if the space craft didn't hit more than 34,400.

2. The projectile went a bit off course. Brig. Gen. O. J. Ritland, vice commander of the air force ballistic missile division, said the "lunar probe" deviated "above the planned trajectory"—that is, didn't quite follow its flight plan. Another expert said the missile began

its bullet-like course 3½ degrees higher than expected.

There had been earlier speculation that Pioneer might orbit around the earth after failing to become the first moon satellite.

VALUABLE DATA
Nonetheless Pioneer fed back by radio a considerable amount of data vastly beyond the reach of other measuring devices. In so doing it undoubtedly brought nearer the day when man may venture into space.

In New York, President Eisenhower congratulated all those responsible for launching Pioneer into space. "Already it is clear," the president said, "that it will yield knowledge of great benefit to mankind." He added that this flight is a tremendous achievement which has "truly pioneered in deep penetration into outer space."

SCIENTISTS HOOKED BY GRAVITY

WASHINGTON (UPI) — The defence department and air force admitted today they committed what was probably a historic blunder Saturday when they announced that the "Pioneer" moon rocket had escaped the pull of earth's gravity.

About 90 minutes after the rocket was launched from Cape Canaveral, Fla., and when it was some 20,000 miles above the earth's surface, a previously prepared press release was issued proudly asserting that the lunar rocket was "the first man-made object known to escape the earth's gravitational field."

It was no such thing. And officials acknowledged today it was never intended to escape from gravity—since it was headed for the moon which itself is within the earth's gravitational influence.

Soviet Moon Shot 'Soon'

COPENHAGEN, Denmark

(UPI) — A top Russian scientist today hailed the American moon rocket project as a major achievement and predicted a Russian moon rocket would be fired "in the near future."

The scientist, Vitalij Bronstein, was quoted as saying failure to reach the moon was less important in view of the brilliant achievement of shooting a rocket to a record height.

The Russian scientist, asked whether the Russians had any plans to send rockets to the moon, answered:

"Soviet science possess rockets sufficiently powerful to reach the moon. Specialists are working on a moon rocket, and it is expected it will be fired in the near future. Its size will be about the same as Sputnik II, that is 1,000 pounds.

"We have two projects under consideration. One is to land

a rocket on the moon's surface, circle the moon before it re- turns to earth.

Balloon Rising

IN RESPECT OF PRICES, AS OF many other problems, things are not going precisely as Mr. Fleming hoped. He said in his spring budget speech that he expected no substantial rise in the cost of living during the rest of the year. But the latest index reached an all-time high of 125.6 on September 1 — up four-tenths of a point in a single month.

This is a sharp, indeed a dangerous, rate of increase. Continued for another year or so, it would produce grave economic consequences for the nation and equally grave political consequences for the Government.

Obviously the inflationary pressures remain acute, even during a time of recession, and they explain Mr. Diefenbaker's recent appeal to management and labor for co-operation in repressing the old spiral.

This sort of exhortation is commendable but it seems to have small effect. A long series of strikes and new wage agreements across Canada are steadily pushing up the cost of production. The results will appear in prices later on, though there may be fluctuations in the index, through various seasonal factors, from time to time.

The inflation marked by the latest index figure must be recognized as a process quite different from the monetary inflation of the big boom years.

Then too much money was chasing too few goods in the classic pattern and the government which tried to slow the race was dismissed for this and other reasons. Today there are plenty of goods, more in some fields than the producers can sell. Nevertheless, inflation goes on in a different form—a simple process of raising production costs and charging them to the consumer.

As the able business editor of The Christian Science Monitor wrote the other day, the old monetary brakes on inflation will not serve alone in this situation.

The Federal Reserve Board of the United States is continuing to tighten money through the banking system. The Canadian Government, too, in complete reversal of policy, has raised interest rates, at great cost to the taxpayers who carry the expanding national debt.

All these measures, though undoubtedly useful on the fiscal perimeter as it were, do not touch the core of the inflation. That core is nothing but the wage struggle between management and labor with the consumer ground between them and the Government selling bonds whose real value continues to fall.

In these circumstances Mr. Diefenbaker will have to think of something stronger than exhortation.

Invite More Visitors

SCENERY IS CANADA'S THIRD largest "export." Only our shipments of newsprint and wheat exceed in value the amount spent by visitors to our country, and most of the latter come as tourists on vacation.

But the "visitor industry" is not a net source of foreign exchange for Canada, because Canadians spend still more going abroad than visitors spend here.

Not since 1950 have receipts from non-resident spending been larger than Canadians' expenditures abroad—and in that period the latter have doubled. In 1957 the proportion was \$525 millions spent by Canadians in other countries, \$363 millions spent by visitors to Canada.

In tourist trade with the United States, 4.4 million Canadian visits were made across the border in 1957 for periods of 48 hours or more; compared with slightly less than 4.5 million American visits of two days or more. On a population basis there should have been ten times as many American visitors.

Obviously, one of two things must be done if Canada is to even up the balance of trade in the tourist department. We must curtail Canadians' expenditures abroad or increase visitor spending here. The latter is the

only reasonable choice, and as one means of achieving it the Federal Government travel bureau plans to spend \$1.4 millions this year on advertising in the United States.

One of the peculiarities noticed in the American tourist trade last year is that 85 per cent of vacation visitors said they had visited Canada at least once before. The conclusion appears to be that if you can lure American visitors here once they will return.

The great majority of U.S. tourists came from the border states. A campaign a little farther south to attract Americans for that important first visit might have good results. As trans-Atlantic travel facilities improve in speed and economy Canada will increasingly feel the competition of Europe, the Caribbean and other areas for the American tourist dollar.

Unless a major effort is made, a form of trade which, considering our assets, should produce a sizable advantageous balance will become increasingly a drain on our exchange reserves. This will be particularly the case in our relations with the United States, where our adverse balance of all imports over exports is already in the neighborhood of \$1 billion a year.

Worthy Centennial Gestures

THE VICTORIA SECTION OF the British Columbia Historical Association has chosen a pleasant and commendable means of drawing its Centennial Year observance to a close.

That worthwhile organization will provide sets of special Centennial books to the leading student in each of the first and second year history classes at Victoria College—basing the awards on the results of Christmas examination.

In addition, the section will pre-

sent a painting of The Lions to Government House; a framed and illustrated history of the Victoria Art Gallery, when it was the Spencer mansion and before, to the Gallery; and will establish a fund to acquire appropriate furniture for Craigdarroch Castle for the day when it may become a public museum.

These are good works for the local branch of the historical association—gestures which will win, for it and its projects, the good will of the community.

I LOVED THAT CAR, IT UNDERSTOOD ME

(This is the first of two articles by the famous novelist, John Steinbeck, on his experiences with a Ford car in the early days of motoring.)

IN Salinas, in Northern California, when I was very little, there was a suicidally forward-looking veterinarian, a man who was considered half-crazy and half-revolutionary. He drove the first automobile I can remember in our town.

I do not know what it was, but it had hard tires, a dashboard, a whip socket, chain drive and it steered with a bar. The doctor clattered it through the muddy streets of our town and he always looked straight ahead as though he were ashamed.

He wore the same expression on his face as the girl up the block who was going to have an illegitimate baby, and, in a way, I guess they were the same, for both sacrificed all local decencies for present experiment and a highly complicated future.

People said that in the light of his profession, the doctor seemed to have singularly little loyalty. Both the doctor and the girl interested and excited me as a child.

I came to closeness with automobiles quite late in life. I am exactly the same age as the Model T Ford, but it and I were seventeen before we became welded.

Other people in our town had automobiles, of course, and sometimes I was allowed to ride in them, in Wintons and Stutzes and Ajaxes and such. My parents did not then and never learned to accept the time-payment plan. They could not see how it was any different from any other kind of debt and they hated debt with a steady violence and managed to stay out of it, too.

Since we could never get all of the money together at one time, we didn't have a car while I was growing up. The result was, of course, that we looked down our noses at the new-fangled damned things. This was, naturally, very simple but proud envy.

I had an uncle who was a Ford dealer and he got rich at it, but he did not give free samples to his relatives. Ah, I can remember him, though, with his polished lamps and his Prestolite tank, and brass radiator shining like gold.

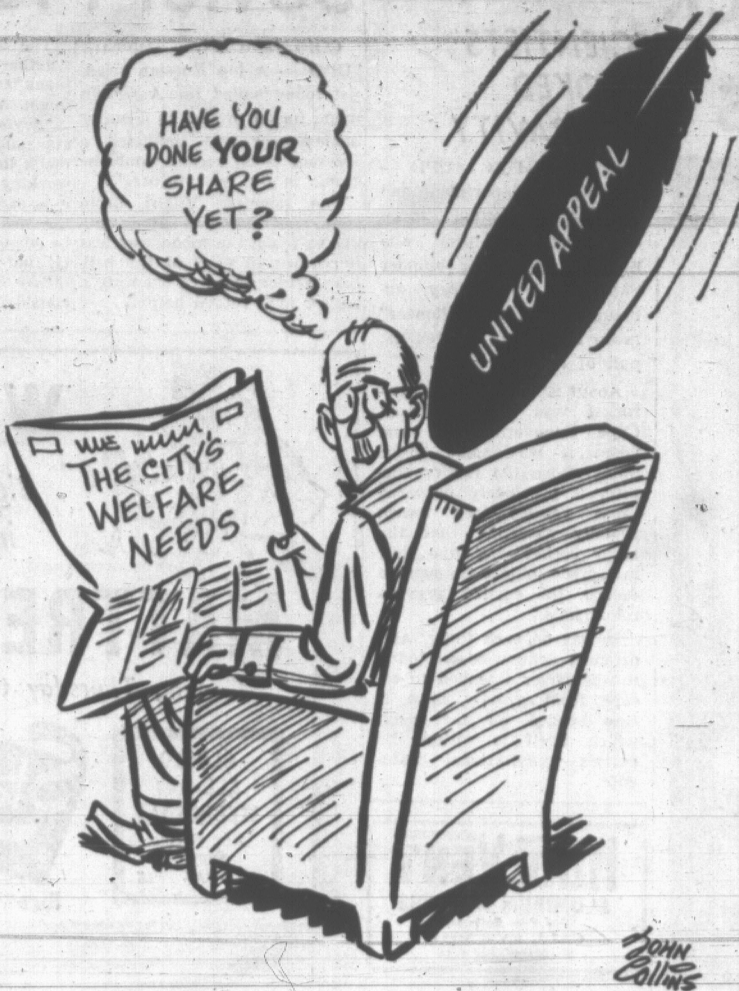

He then got so rich selling Fords that he drove only Stutz Bearcats—red ones—with sixteen valves clicking away, and a cutout that sounded like a rolling barage. All of this time I was a waif with my nose pressed against the windows of the automobile world.

I had another uncle who owned a Chalmers and he was the one who taught me to drive. He had a theory that you were safer if you kept your right hand wheels in the gravel at the side of the road—a conviction he had come by in driving fast well-shod horses.

I remember once demonstrating to him that his theory was incorrect, but even while we were being pulled out of the ditch by a pair of mules, he went on arguing in favor of his theory. He never got the idea that it was wheels pushing you along, not some spectral horses pulling you along.

I guess Model T's would run forever, if you would let them. I was well gone in adolescence before I came by one at a price I could afford to pay—fifty dollars. It was almost as old as I was, and it had been around a helluva lot more than I had and was probably smarter to begin with.

Let It Tickle Your Conscience

As Our Readers See It

Effective

One sometimes sees the phrase "painful reading" applied to a book or it may be a school report; and I do not like to apply it to your excellent paper.

However, there are times when something grates as if the gears are not meshed. An instance occurred in a recent column of Wallace Reyburn where the words access and excess were confused.

While I do not aspire to be regarded as a poet, perhaps the following may explain my point:

The effect of affect when wrongly used, is evidence that there's something wrong. It affects the sense (if any) in news, Although it may rhyme in a song, When "affect" is used instead of "excess."

It shows the proof reader is sleeping. An excess like this shows that an awful mess

Can be made of both reading and thinking. HY A. BURROWS.

24 Maquinna Road.

What Happened to It?

Mr. Douglas Hawkes, who recently subdivided some property in the Glanford district of Saanich, is reported to have said that he offered to give some of this property to the municipality for use as a park, but his offer was refused.

Several years ago the Saanich council was reported to have accepted a recommendation that one tenth of every subdivision should be dedicated a park, without cost to the taxpayers. Why was not this sound recommendation followed, especially in a district where a park or playlot appears essential?

DENIS H. BERTY, 4360 Gordon Head Road.

Church Unity

That was an outspoken statement by the B.C. Archbishop, reported recently in the Times, when he stressed the urgent need for the uniting of all the Christian churches, including the church of Rome, into one great body.

Thoughtful people may well ask whether the work of the great Reformation of five centuries or so ago including the lives and labors of such as Wycliffe, Luther, Huss and Jerome and others were in vain, and whether in the desire for unity now the principles for which they stood should be disregarded. It seems as if the only basis on which

this unity can be achieved is by a surrender to the church of Rome.

As in the past this union of the churches can only lead to dominance and persecution. That this will be the result is foretold in Revelation 13:15-17 and other references, and of those who stand firm to the principles of right till the Lord returns we read in Revelation 14:12.

About three days later another article appeared recording the forming of a new organization devoted to the cause of peace and named "A Society for Peace by Peaceful Means" which included representatives from many societies and churches. This is surely a worthwhile and timely subject. However, we are told in the Bible how futile are man's efforts to stop war and bring about peace in the world. God alone can do that and bring peace.

R. E. ROBINSON, 1143 Tolmie Avenue.

Service Station Hours

City Council within a short time will vote on the long-standing question of evening operation for service stations, other than the present 24-hour group. Most of the arguments so far for closing a number of operators are based on individual interest, individual convenience, individual preference. They do not see the problem in the light of customer convenience or traditional freedom of enterprise. Victoria is out of the small-town class now and this should be recognized.

Evening opening last year proved very satisfactory in Victoria throughout the summer and early fall. It is now the legal right of Saanich operators to practically set their own hours without the harassment of restrictive laws. Why must Victoria service stations and patrons be bound by laws that were imposed many years ago to protect employees—a job that is now more effectively done by legislation.

Obviously some operators are hiding behind this outmoded employee's protective law while seeking to curtail competition from other operators. But an operator who wishes to remain open evenings should not be hampered in this way.

The council will have an opportunity to place on a continuous basis what is only the right of any individual to work when he desires without interfering with, nor interference from others. In other words what is really at issue is the right of man to work.

A. G. BEATTIE, 308 Menzies Street.

LOOSE ENDS

Sorry for Any Inconvenience

IT is an outstanding fact that British Columbia has recently pushed a third railway through the Rockies, diverted the Nechako River westward to the sea, laid two pipelines down from the Peace River country, reared up the towering bulk of Vancouver and accomplished other prodigies but, after years of labor and expenditure, has never built a road to the prairies. I mean a road fit for modern travel. To be sure, one can drive from Vancouver across British Columbia but not in comfort and only with heavy wear and tear on any car. The yawning gaps of the highway system are likely to carry Mr. Gagliardi's kindly "Sorry for Any Inconvenience" signs for quite a long time to come.

AFTER a holiday on an Alberta ranch recently, our party split up, one group resolving to return by Calgary, Banff, Golden and the notorious Big Bend Highway to Revelstoke and Kamloops. Three of us decided to take the southern route through the Crow's Nest Pass, but to remain in Canada instead of making the usual detour through the United States.

The first group regretted its decision as soon as it hit the Big Bend. Nearly two hundred miles of road there, following the vast semi-circle of the Columbia, are so rough, my friends tell me, that the journey required seven hideous hours.

THE Federal Government, which controls this park road, does little to maintain it since the entire stretch will be abandoned, except for local use, when the new cut-off is completed directly across the Big Bend from Golden to Revelstoke. Anyway, the existing route may be largely flooded if and when the Columbia is dammed. But the local residents don't think that the cut-off, through some of the hardest terrain in America, can possibly be completed for several years, whatever the Government may say.

Meanwhile there is an equally notorious gap in the southern transprovincial highway, which includes the excellent Hope-Princeton road to the Okanagan and the spectacular Anarchist Mountain sector into the Boundary country but then encounters the two ghastly, unpaved summits east of Grand Forks. That horror, now generally avoided by an American detour, should soon disappear with a brand new route across the Cascades.

THERE is yet another way to cross southern British Columbia and we followed it, with interesting results.

The most interesting, perhaps, to a tired traveller was the discovery, on the eastern side of Kootenay Lake, of an unbelievable structure called Kniksu Lodge which we reached at nightfall, too exhausted to board the lake ferry.

An artist of wild imagination, Mr. Blair Scott, built this magnificent baronial hall with his own hands and finished its gigantic interior with log beams and short mill-ends of lumber in

By BRUCE HUTCHISON

complex parquet or mosaic, much of it embossed with carving.

His wife (a Victorian) is also an artist. She stoked up a bonfire of driftwood in a stone fireplace twenty feet wide and served us with steaks of almost equal dimensions. Kniksu is clearly the right place to stop while awaiting the Government's ferry (whose food, incidentally, should be marked by Mr. Gagliardi's sign).

THE ferry trip is one of the most beautiful in the world, I dare say, but even Kootenay Lake is inferior to Slocan, which we followed northward on a pretty bad gravel road, circling westward along Arrow Lake and then mounting the Monashee Pass.

No one in his senses travels the Monashee, a narrow, twisting trail, hard on your second gear and death to tires, but we were not in our senses after the exhilaration of the Alberta Rockies. When we dropped down into Vernon we were practically senseless.

There is noted another interesting thing. While the fruit industry of Okanagan claims to be nearly bankrupt, and may well be, considering its costs of operation, Vernon, like the other valley towns, is sprawling out in a miniature metropolis. And oddly enough, in this land of poverty, all the splendid new houses built at the edge of the orchards seem to contain a double garage.

I NEVER saw a town that looked more prosperous, painted, primed and delightful than Vernon. The fruit growers may not be making money but, the towns that serve them obviously are fattening on apples and have the healthy glow of a McIntosh Red. It is the old story, I suppose, of the entrepreneur earning far more than the original producer.

Once into the Okanagan we felt that we were almost home free, but Mr. Gagliardi awaited us in the Fraser Canyon. Road work was started there by Governor Douglas almost a century ago and has seldom ceased.

No doubt it is the hardest and most costly road work in the nation. At half a dozen points, as I remember, the familiar sign was up, bulldozers and earth-moving machines were digesting the solid stone cliffs and Boston Bar, where we stopped on a Saturday night, was a fair imitation of hell.

THE result of this huge expenditure is a modern road, wide, perfectly engineered, conducive to high speeds, and therefore dangerous; whereas the old road of thirty years ago was narrow, slow and safe.

I liked the whimsical old road better but of course it will not serve the Trans-Canada Highway. Perhaps nowhere in Canada has a more difficult and excellent engineering feat ever been attempted and the achievements of recent years are beyond belief.

But it will take many years yet. I should think, to finish the job and push the Trans-Canada Highway to the Pacific. As a tottering old man I shall still expect to meet Mr. Gagliardi's signs of regret in the dark canyon (though they may perhaps carry a different signature then).

DENNIS THE MENACE

"I GOT A BIG RANCH IN TEXAS! WITH SIXTEEN MILLION COWS N' HORSES! AN' TWO WHITE RATS."

From Our Files

Oct. 14, 1898—New Westminster: There can be very little doubt now as to the success of the 1898 exhibition. The success is apparent as after a slow start the turnout has been excellent.

Oct. 14, 1918—The total number of cases of "Spanish influenza" in the city has reached 218, and it is feared not all cases have been reported. All schools and public places are closed.

Oct. 14, 1938—Santa Monica, Cal.: E. C. Segar, 44, creator of "Popeye the Sailor," died today. He was a former house-painter who took a \$20 course in cartooning, and leaped to immediate success.

By JOHN STEINBECK

It Had an Intelligence Not Exactly Malicious, But It Did Love a Practical Joke

I can see that car now. Its gear and brake pedals were polished like silver and the oaken floorboards had deep grooves made by the heels of former owners, who, must have been legion.

There was no coil box cover on it. It was known as a touring car and it could not even remember when it had had a top. The seats were pretty well gone, but four or five gunnysacks laid down not only kept the seat springs from corkscrewing into you, but also covered up the incontrovertible evidence that generations of chickens had roosted on the steering column.

It had a lovely odor—I still remember it—a smell of oil-soaked wood and sun-baked paint, or gasoline, of exhaust gases and ozone from the coil box. The steering wheel was of oak, polished by thousands of hands. The mortices were sprung a little and stood apart so that

if you pushed down, it was likely to pinch your hand.

The teeth of the emergency brake ratchet were long worn smooth. You pulled back the brake and hooked a loop of rawhide around it to hold it back.

If you will remember, you had to pull back the brake lever to hold the car in neutral, but there was no brake-lining. I had a block of wood in the back seat to put under a rear wheel, if I wanted to leave the car on a hill.

Strange things had happened to the windshield. It was criss-crossed with cracks, so that you looked through a series of prisms, very pretty, but with very little visibility.

The car was not safe to drive at night, but we did it anyway. Having no battery and taking its lights from a generator, you had to go fast to get enough light to see by, but they you were going too

fast to avoid anything you saw, having no brakes.

I think I loved that car more than any I have ever had. It understood me. It had an intelligence not exactly malicious, but it did love a practical joke.

It knew, for instance, exactly how long it could keep me spinning the crank and cursing it before I would start kicking its radiator in. It ran perfectly when I was in blue jeans, but let me put on my best suit and a white shirt, and maybe a girl beside me, and that car invariably broke down in the greasiest possible manner.

I never gave it a name. I call it IT.

The problem of starting the motor of the Model T was complicated. I have dealt with it in another work. But once the motor was started, you came in contact with the Model T Ford Transmission,

called the planetary system. This was a strange and interesting institution.

There was always band trouble in this planetary system. The lining of the low-high band, by getting more use, wore thin first. The foot brake was the next to wear thin, and finally the reverse. When the foot brake no longer would hold, you used reverse for a brake to stop the car, and when the low would not pull up a hill, you turned around and backed up, because there was usually more lining on the reverse band than on the others.

There were always emergencies in the gear box of the planetary system. Let's say you had a date, fifty cents and three quarts of gasoline. This would be the time when the high-low band wore through to the metal. Your problem then was to move the reverse band to the low-high section and get along without a reverse for the time being.

The process of change was invariable. You removed the top plate and took off the bands. The metal was not only very oily, but very springy and the forks were held together by curious wedge-shaped bolts and nuts.

Now, just when you had the forks pinched close and were trying to get the bolt back in place, you dropped the nut. It fell into the black oil pool beneath the assembly where no hand could reach it.

So you got a piece of wire out of the back seat and bent one end of it to make a fishhook. Sometimes it took two and three hours to locate the fallen nut by the touch system, to get the hook through it and to lift it out. It was a most delicate operation and it should have developed some great safecrackers.

(First of two installments.)

Improvement Noted In Job Situation

NEW YORK (AP) — More jobs and faster pay cheques for U.S. factory workers, and a faster rate of spending in the nation's retail stores, put new zing last week in the economy's fall upturn.

Reporting a "significant improvement" in the job situation, the government announced that the number of jobless around the United States dropped by 588,000 last month.

The decline—unusually large even for September—forced total unemployment down to 4,111,000. That's a low for the year.

It was a foregone conclusion that the job picture would continue to improve in October.

START UP FURNACES

Bethlehem Steel was reported ready to restart four or five more open-hearth steel-making furnaces in the Buffalo, N.Y., area. Big United States Steel Corporation stepped up its production pace.

Things were looking up for aluminum workers. Reynolds Metals Company said it will return its aluminum reduction plant at Troutdale, Ore., to full capacity operations in three weeks. Alcoa set a faster production pace for its plants.

Cotton textiles provided one of the few soft spots. Mill men cast an anxious eye at official crop forecasts and pondered the probability of a bumper cotton yield. With prices of raw cotton likely to be lower next year, cloth producers shuddered at the prospect of being caught with big inventories of goods whose cost is based on today's high cotton prices.

Cuts were ordered right and left. Some mills will shut down completely for the weeks that include U.S. Thanksgiving Day late in November and Christmas.

CONFIDENCE UP

With the job picture in other industries getting brighter by the hour, a new upsurge in consumer confidence was evident from Dallas to Detroit.

The stock averages crashed through the roof again last week. A burst of buying on Friday sent the market to a record high with an impact that left seasoned observers holding on to their hats.

Wall Street evidently had scanned the latest business reports and found them good.

Advertising Firm Sues Federal Gov't For Heavy Damages

OTTAWA (CP) — Walsh Advertising Company Ltd. of Toronto is suing the federal government for \$160,580 for damages and loss of revenue it says resulted from a change in agencies handling the 1957 Canada savings bond campaign.

In a statement of claim filed in Exchequer Court here, Walsh, which handled previous campaigns under contract to the Liberal government, said that as is customary in the advertising business it planned and drew up an advertising campaign for the 1957 bond drive "in the absence of notice to the contrary."

After Walsh disbursed funds and submitted material to the Bank of Canada, the newly-elected Progressive Conservative government switched the bond drive advertising to McKim Advertising Company of Toronto and J. E. Huot Limited of Montreal, the agency claims.

\$1.5 Million Mill, Mining Operation Set

VANCOUVER (CP) — A Calgary company plans a \$1,500,000 mill and mining operation near Cranbrook to produce dead-burned magnesite.

Reuben Bond, president of Harbour Natural Resources Ltd., said in an interview the product—sometimes used as a lining in furnaces—would be marketed in North America and possibly overseas.

The operation will employ about 150 men.

The company has 13 claims about 19 miles north of Cranbrook. Diamond drilling is under way.

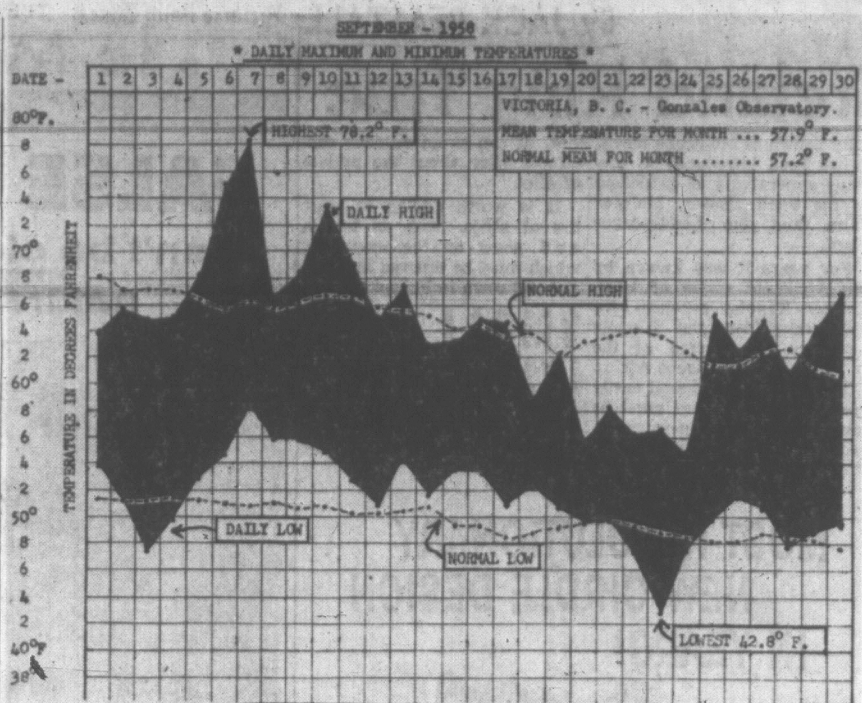

Washington Faces Salmon Closure

SEATTLE (AP) — Washington state fisheries director Milo Moore ordered a public hearing for today on proposals to impose immediate, emergency closures of all commercial salmon fishing in Puget Sound and all fresh water sports salmon fishing in Washington.

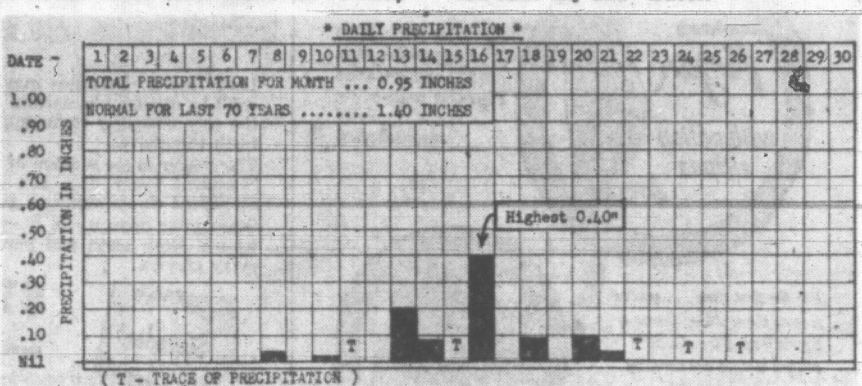

The state fisheries boss said the closures were needed because many salmon have been delayed in their upstream spawning migrations by low water and are easy prey for fishermen.

Aussie Trade Mission To Visit Coast in '59

CANBERRA, Australia (Reuters) — A government-sponsored trade mission will visit the west coast of the United States and Canada at the start of 1959, it was announced here Thursday.

GRAPHS prepared by weatherman William Mackie illustrate temperature and rainfall in city during September. Broad black band above shows daily extremes of temperature, and dotted lines mark normal lows and highs. Precipitation chart shows amount of rainfall each day and "traces."

BCE CHIEF SAYS

Price Ceiling Certain With Atomic Power

TORONTO (CP) — Nuclear power plants may give Canada only 10 per cent of its power supply in 1980, the president of British Columbia Electric Company Limited said Friday.

Dr. A. E. Grauer told the Rotary Club the proportion of nuclear plants will increase, however. By 1980 half the electric generating plants being built could be nuclear.

Nuclear plants would almost certainly set a ceiling on the cost of electricity.

"In the future no region should have to pay more for its power than the price set by a suitably-sized nuclear plant—which should be available for purchase in a wide variety of sizes almost off the shelf."

Dr. Grauer said nuclear power might constitute as much as 20 per cent of total production in 1980 if Canada does not succeed in overcoming international and inter-industry problems holding up development of some western river systems.

By 1980 the electric power industry might spend as much as 2 per cent of all capital used by industry in Canada. It now spent a dollar for every \$12 going to new construction.

Woman Wins 'Open Hunter' Horse Trial

Barbara Johnston, 1727 Felt-ham, won the "open hunter" at the hunter trials of the Garden City Horsemen Club held Monday at the Golden Rule Riding Academy of Dr. N. V. James.

There was a good turnout of riders at the trials, which featured 10 events. Capt. J. D. Prentice was judge, while Gerry Amnden acted as convener.

Events and riders and mounts in order of finish:
Barrel Race — Bob Owens, Red Wing; Barbara Johnston, Silver Star; Bob Rickert, Smokey.

Green Hunter — David Bowen, Remus; Barbara Johnston, Little Dark Troop; Bob Owens, Red Wing; Shaw, Babe, and Bob Owens, Red Wing.

Shaw, Babe, and Bob Owens, Red Wing; Ron Trickett, Ali Khan, and Bob Trickett, Smokey; Barbara Johnston, Little Dark Troop; Duke Teague, and Lois Vickers, Dufco.

Open Hunter — Barbara Johnston, Little Dark Troop; Jean Dunbar, Trader; Pat Jones, Glen to Glen.

Junior Jumping, 15 to 18 yrs — Barbara Johnston, Little Dark Troop; Frances O'Brien, Quicksilver; Lois Vickers, Dufco.

Junior Jumping, 14 years and under — Jean Hufferman, Ruby Bow; Janice Hunt, Little Blonde Lady; Daphne Grieve, Gipsy.

Seattle Men Purchase Tug and Barge Firm

VANCOUVER, Wash. (AP) — Two Seattle men disclosed they have become the sole owners of Inland Navigation Co. and eight affiliated northwest firms.

The transaction was announced by Ralph Whaley, president of Inland Navigation. Whaley said he and Howard Dent, who had owned major portions of the firms, purchased the remaining interests from Capt. A. Leppalupo of Vancouver, Wash.

Inland Navigation and the associated firms operate 25

along the Pacific Coast from Oregon to California and from Puget Sound to Alaska.

tugs and 39 barges, and have barge routes up the Columbia River from here to Pasco, Wash.

Labor Urges Ike to Lift Metals Curb

WASHINGTON (AP) — The AFL-CIO called on President Eisenhower Monday to remove curbs on imports of lead and zinc.

President George Meany said in a statement the labor organization deplored restrictive quotas on the metals.

"Such action," he said, "is especially ill-timed because it has resulted in stable unemployment and severe hardship to workers in Latin America at the very time when agreement seems to have been reached throughout the Western Hemisphere on the need for an all-out program to stimulate economic development in Latin America."

"In line with our traditional support for the reciprocal trade program, the AFL-CIO had favored an alternative solution to the problem of lead-zinc imports, involving production payments to domestic mines. This would not have resulted in the sharp cutoff of lead and zinc imports which has taken place. If the Congress had enacted the alternative proposal we supported, there would have been no need for imposition of injurious import quotas."

The restrictions affect imports from Canada as well as Latin America.

Solid Loan Field Here—Trust Chief

By HAL MALONE, Times Business Editor
Individuality in home construction makes Victoria the most satisfactory loaning field in Canada, the head of one of Canada's largest trust companies said here today.

"We couldn't have a more satisfactory loaning operation than we have in Victoria," Allyn Taylor, president and general manager of Canada Trust Company and the Huron and Erie Mortgage Corporation said today.

"There is no ribbon development here. In driving around Greater Victoria I have noticed a charm and individuality about homes that exists in very few cities in Canada."

Lack of row after row of prototype homes means property values can't help but stay at a high level, he said.

Visiting the most western of the company's 20 branches, Mr. Taylor was also enthused about the "excellent" savings picture in Victoria.

SAVINGS UP

"All across the country savings are up 11 per cent," he said. "This condition is apparent here, too. It means, among other things, that the greater the savings the greater the loans companies such as ours can make toward future residential development."

The recession hasn't hit the trust and mortgage business as drastically as other types of business, he said. The reason: theirs is a long-range business and a mild recession isn't regarded as a damper on the trust and mortgage picture.

Like most businessmen, grey-thatched, spritely Mr. Taylor would like to see a cautionary rein on the easing of credit restrictions. This is needed, he

said, to prevent further erosion of the buying power of the Canadian dollar.

He admitted that the process of money erosion "worries us just as it should when you consider that today's dollar won't buy any more than 75 cents would in 1946."

Mr. Taylor, like most trust company executives, is highly pleased over the new Estate Tax Act, which provides greater exemptions for beneficiaries and other benefits. He feels that it "is essential to have one piece of estate tax machinery applicable across the country."

He hopes that Ontario and Quebec can get together with the federal government on estate tax legislation so that beneficiaries of estates "having bonds and other holdings in those provinces will be freed from the delay and cost of handling them." (Presently those provinces have separate estate tax laws which delay processing of estates.)

All Canada, he said, benefited from the recent Conversion Loan program and "I wouldn't be surprised if they copied it."

NEW B.C. BRANCH

Indicative of the company's confidence in B.C., it plans to open its newest and 21st branch in New Westminster in the near future. At present no trust company has a branch in the Royal City.

Victoria chapter, Industrial and Cost Accountants of B.C., will see the film, "The Eighth Sea," dealing with the construction of the St. Lawrence Seaway, at their dinner meeting, Wednesday at 6 p.m., in the Pacific Club.

MARKET SUMMARIES

Macfie Most Active In Toronto Trading

The Toronto market maintained a moderate advance today but the trading pace slowed considerably in the final hour.

Hudson's Bay was up 1 1/4 at 61 1/4 to lead coppers but International Nickel and Noranda each were set back to their Friday close.

Macfie was the most active issue, trading 364,000 shares. It was up two cents at 21 cents amid speculation that its recent copper drill hole had been a success. New Mylamque traded 300,000 shares, up 5 cents at 73 cents.

Oils made gains while coppers declined in a mixed New York market today. Studebaker-Packard was active and up close to a point. Bethlehem went ahead more than 2 and Bethlehem went ahead more than 2 and then clipped nearly a point from the

The number of persons working on farms larger than five acres in Sweden declined by 21 per cent between 1952 and 1957.

Does BLADDER WEAKNESS MAKE YOU FEEL OLD

TORONTO—Special: Thanks to new, scientific laboratory formulation, thousands of men and women now escape feeling old, tired, irritable and depressed from losing sleep and worrying about "Bladder Weakness"—too frequent, burning and itching urination, bed wetting, getting up nights—or strong cloudy urine. Due to common kidney or bladder irritations, which often result in secondary backache, headache, rheumatic pains and nervousness. In such cases new improved CYSTEX usually gives quick, calming relief by combating irritating germs in acid urine; and by relaxing, analgesic pain relief. Over a billion CYSTEX tablets used—proves safety and success for young and old. Get Laboratory Tested and Certified CYSTEX at drugist today. See how much better you feel tomorrow.

A SPECIAL SERVICE at St. Andrew's Presbyterian Church Sunday dedicated the new Kirk Hall, which was opened by Lieutenant-Governor Frank Ross. Very Reverend J. Lewis W. McLean is seen presenting scissors to the governor for cutting the tape. Looking on are (from left) Hugh Reston, director of the church; Ruth MacLean, secretary to Mrs. Ross; Mrs. Frank Ross; Mrs. Lewis McLean, and Rev. D. R. MacDonald. (Times Photo by Strickland.)

Western Road Experts to Meet Here

Road experts from B.C., Alberta and the prairies will travel a route dotted with speeches and strewn with group discussions when the Western Association of Canadian Highway Officials meets in Victoria Wednesday for its annual three-day conference.

The highway men will talk about building bigger, longer and better roads, how to discourage traffic accidents, ditches and allied subjects from embankment construction to blacktop.

Specialist groups will probe soil, road maintenance and bridges. There will also be a film, banquet and "social hour."

BOWEL GAS HURTS SIDE & STOMACH

Spastic Colitis (functional irritation of the colon or large intestine), is causing thousands to suffer from dull aches or burning pains in the side, Gas, Heartburn, Bloating, Nervousness, Bad Breath, Distress, Burning of Stomach, Loss of Sleep and Peps. If you suffer from Spastic Colitis, ordinary stomach medicine won't help much. You really need KOLADE POWDERS which work three ways to relax tense intestinal muscles, soothe sore mucous membranes and check acidity. It is not a laxative but works to help nature. Don't suffer another day without trying KOLADE POWDERS. Satisfaction or money back. At all drug stores.

Court Convicts Israeli Soldiers In Arab Massacre

JERUSALEM (Reuters)—Eight officers and men of the Israeli frontier force Sunday were convicted of first-degree murder for their part in the massacre of 43 Arab villagers two years ago.

They have yet to be formally sentenced, but conviction on the charge carries a penalty of life imprisonment. Capital punishment has been abolished in Israel.

They were accused of shooting down 43 men, women and children at Kafr Kasim, an Arab village close to the Jordanian border.

Seaman Dies After Car Crash

A 24-year-old man who died Saturday when his car crashed through a guard rail near Patricia Bay airport and plunged into a field has been identified as Leading Seaman Wayne R. Roste, of the navy's VU 33 Squadron at the airport.

Roste's home was in Sturgis, Sask.

Police said the man lost his licence about two months ago in Sidney police court when he was convicted of impaired driving.

He died Saturday in Rest Haven Hospital from a fractured skull, sustained when his car failed to negotiate a sharp curve on Willingdon Road and ploughed 100 feet into a field.

Roste also suffered internal injuries, a broken leg and fractures to both arms.

He was found lying 12 feet from the smashed car by a Victoria man, C. A. Lawson, 175 Virago, on his way to a fishing trip at 5.30 a.m. Sidney RCMP believe Roste was lying in the field at least an hour before he was found.

No inquest will be held.

Horses are so scarce on the island of Formosa that a pair of them are a big attraction in the Taipei Zoo.

ADVANCE CITY TAX PAYMENTS SLOWING DOWN

Taxpayers are a little slower paying property levies ahead of the due dates this year, says city comptroller Dennis Young.

Current tax collections are up 2 per cent but payment of tax arrears is down 3 per cent compared with 1957, he said.

"It looks as if the average individual still has the money to pay his taxes but is not so anxious this year to pay ahead of time," he said.

"It also appears that a minority of people who got behind in their taxes last year are staying behind."

HOURS UNCHANGED

Esquimalt, Oak Bay Keep 5½-Day Week

The 5½-day shopping week will be retained by Oak Bay and Esquimalt despite Victoria and Saanich moves towards wide-open shopping.

Reeve Fred Norris of Oak Bay and Reeve A. C. Wurtele of Esquimalt both said they had not heard of any move among merchants in their municipalities to press for changes following city council's decision to lift closing regulations.

Shops are closed Monday afternoons in both municipalities.

NEW REPUBLIC

Madagascar Keeps Link With France

TANANARIVE, Madagascar (AP)—The local assemblies of this French island possession off Africa today proclaimed Madagascar a republic but decided that it will remain a member of the French community.

The assemblies met in congress here in the capital.

The decision means that Madagascar—to be known hereafter as the Malgache Republic—will be self-governing for internal matters.

The supervising body to be formed for the French community will control foreign relations, defence, finances and certain judicial, educational and cultural matters.

The decision was no surprise. It came in the framework of Premier de Gaulle's far-reaching plan for the French colonial empire.

Logging Train Derailed, 20 Men Injured

BUCKINGHAM, Que. (CP)—Twenty lumbermen were injured—seven seriously—in the derailment of a privately-owned logging train about 40 miles north of here early Monday.

Approximately 100 men were aboard the one-coach train when it struck a washout 17 miles north of Duhamel, Que. Duhamel is about 65 miles northwest of Ottawa.

Fire Destroys 7 Buildings

HALIFAX (CP)—A stubborn waterfront fire destroyed seven buildings in a tightly packed warehouse area Sunday.

Flames erupted from a navy supply building, crammed with food and rum. Within an hour, the storehouses collapsed. Seven warehouses—including five condemned buildings—were levelled in the three-alarm blaze.

No one was injured.

Court Backs Integration Rulings

WASHINGTON (CP)—The United States Supreme Court Monday dismissed three appeals by southern states aimed at fighting school integration.

The court:

1. Denied Arkansas Governor

Orval E. Faubus review of an injunction prohibiting use of national guardsmen to block integration at Little Rock's Central High School.

2. Denied Louisiana school officials review of a decision which banned a certificate of

eligibility for entrance to state institutions of higher learning.

3. Refused the Delaware State board of education review of an order to draw up a plan of desegregation for all school districts that have not admitted Negroes.

What has time done to your life insurance?

Everyone knows what can happen to the performance of a car that isn't serviced regularly. The same risk of "poor performance" holds true for your life insurance if you neglect to keep it up to date. Time brings changes in your life that in turn create the need for a review of your policies. Perhaps new beneficiaries should be appointed. Perhaps the method by which benefits are to be paid, either by income or by single amount, is no longer in your family's best interest. What would a careful review of your policies reveal? That you have more than enough life insurance — or that time has brought new needs for protection and saving?

By keeping in touch with the Man from Manufacturers you can be sure your life insurance is arranged to do the job you want it to do. Why not call him for a policy "check-up" today?

Putting Them in Shorts Is Tough

By PETE LOUDON
(See also page 17.)

A broadened and imaginative activity program will prove effective in keeping older boys within the Boy Scout movement, Commonwealth Chief Scout Lord Rowallan said in an interview here Monday.

But he recognizes the problem involved in requiring teenage boys to wear shorts.

"A lot of people are giving careful consideration to that at home," he said.

"In general, in the United Kingdom, there are few boys for

whom shorts are a vital cause for their going out. There will always be certain boys who have had enough," before completing the Scout program, he thought.

"We believe, if we give them Scouting as Baden-Powell gave it to us, we can do a great deal to retain them."

He said the boys of 15 in the United Kingdom are involved in canoeing, gliding, mountaineering and cave exploration.

Lord Rowallan disagreed with the theory that the large number of organizations open to teenagers would eventually mean shrinking of the Scout program to encompass the eight to 14-year-olds only.

When a boy progresses from Wolf Cub to Queen Scout or Rover, "he is far better-fitted to face life," said the Chief Scout.

The great point is to get the public to realize what Scouting has accomplished in the world today. It has been one of the greatest influences in bringing

the people of the world together "... one of the prime influences for good and stability in the world."

Men, Women! Old at 40, 50, 60! Want Pep?

Thousands around the world "pepping up" with OTC are just beginning to feel the difference. OTC is the only safe, effective, natural way to get the pep and energy you need. Try OTC today. At all drug stores.

CHIEF SCOUT for Commonwealth Lord Rowallan chats with Ted Butler, assistant scoutmaster of 1st Parkville Troop, Mt. Arrowsmith district, during visit to Victoria Monday. (Photo by Robin Clarke.)

MORE JOIN SAYS CHIEF

Post War Babies Boon for Scouts

The post-war baby boom is being reflected in the Boy Scout movement today with almost 8,500,000 youths enrolled in countries all around the world.

Commonwealth Chief Scout Lord Rowallan said here Monday: "For the first time there are more Scouts than Wolf Cubs. Queen Scouts are coming back in extraordinary numbers as leaders."

He said in the United Kingdom alone, membership totals 571,000.

The chief Scout, who is beginning a tour of Canada, hopes to visit two centres in each province before the end of November.

He said his annual travels among world Scouts take up nine to 15 weeks each winter and three to four weeks each summer. He has visited almost every country in the Commonwealth since his appointment in 1945.

Lord Rowallan said he anticipates 10,000 boys will attend the Scouts' world jamboree next summer in the Philippines.

There were 11,000 at the 1955 jamboree at Niagara-on-the-Lake and 35,000 in England last summer. Canada expects to send 100 boys to the 1959 jamboree, first ever held in Asia. The trip will cost \$290 for each English boy attending.

Mayor Scurrah greeted the chief Scout with a Scout's left-handed salute. (It's the hand nearest the heart.) The mayor isn't a Scout, but he's a high-ranking Rotarian.

He told Lord Rowallan: "You should be a Rotarian."

The two groups started within five years of each other and "their ideals are much the same," the mayor said. He said Rotary has 465,000 members in 110 countries.

"Yes, we provide you with 30 per cent of them," smiled Lord Rowallan.

There are some Scout groups functioning behind the Iron Curtain, but they are cut off from the rest of the world organization and often have to operate as an "underground movement," the chief Scout said.

"Scouting calls for duty to God first and we teach all boys to think for themselves. Neither

is compatible to a dictatorship," commented the chief Scout.

Before leaving City Hall, Lord Rowallan signed the visitors' book, thumbing through in search of a signature he left during a visit in 1956.

Mayor Scurrah presented him with a centennial dollar, sealed in a plastic mounting.

Vancouver Island district commissioners in Victoria for Lord Rowallan's visit included Dr. A. MacInnes, Cowichan Valley; D. Cree, Cowichan Lake; G. Brand, Mount Brenton; T. Tyron, Mount Arrowsmith; D. H. Jones, Alberni Valley, and T. Yaeger, Comox Valley.

Lord Rowallan became leader of Commonwealth scouting following death of Lord Somers, who succeeded Lord Robert Baden-Powell.

During the First World War, Lord Rowallan as Thomas Godfrey Polson Corbett (he did not succeed to his title until 1933) served in Gallipoli and Palestine with the Argyshire Yeomanry, and later in France with the Grenadier Guards, winning a Military Cross.

In 1939 he raised a battalion of the Royal Scots Fusiliers. He barely managed to escape with his men from France after the Dunkirk withdrawal.

It is at the wish of the late King George VI that Lord Rowallan wears a kilt with his uniform. It is the tartan of the Clan Cameron.

Tin Miners Don't Get Pimples

Because Cornish tin miners appeared to avoid skin blemishes, British chemists suggested the use of tin in treating Bolls, Acne, Pimples.

Now convenient, tasteless tablets containing 42.5% metallic tin are available under the brand name "Tinoxid". Rapid, satisfactory results are claimed for this inexpensive treatment.

Tinoxid Tablets are sold without prescription at all drug stores, \$1.00.

Stampeders Show Cats Skating Paves the Way

Cougars Slow on Defence; Drop Decision to Calgary

Calgary 5, Victoria 3
By DOUG FEEDEN

Ice hockey is specifically designed for skating. Other things are important, but mechanics of the game demand that the road to victory be carved by continuous and vigorous application of steel.

Victoria Cougars attempted to get by with a 60 per cent effort in the skating department in their first home game of the Western Hockey League season at Memorial Arena, Monday, and learned it didn't work.

Calgary Stampeders had no such revolutionary ideas. The Stamps stuck to the proven formula of "skate, skate and skate some more". When they found themselves in trouble, they merely bent their backs a bit more and pumped their legs a little faster.

The result was that the Prairie Division Cowboys gradually took the Cougar machine apart. They collected more than their rightful share of loose pucks and careless Victoria passes and too often skittered

unmolested past Cougars drifting aimlessly in front of goalie Marcel Pelletier.

They had to come from behind to do it, but the Stamps, who had managed only one goal while losing their first two starts, gleefully wrapped up an unpleasant Thanksgiving Day package for the enthusiastic opening-day crowd of 4,459 fans by clipping the Cats 5-3.

Still, it was far from a wasted afternoon for the customers. Although the Cougars—as might be expected since three of their defencemen joined the club only in time for Friday's opening game at Vancouver—lacked cohesion all the way, they showed a lot of fire as they built up a 21 first-period lead.

Most Troubles Were Behind Blue Line

Their scrappy play on attack almost made up for spasms of skating amnesia and defensive lethargy in the second period, and the session, which ended in a 3-3 deadlock, was one of the fastest and most interesting at Memorial Arena in the past couple of seasons.

Cougars appeared to tire in the third and were unable to keep up with the fast-moving Stamps. Most of their troubles were behind their own blue line and they managed to break out often enough to level 14 of their total of 27 shots at goalie Roy Edwards. And it took bad luck on three fine plays to keep them from breaking into the scoring column again.

Not all the Cougars were

travelling in second gear. Al Nicholson, a lean winger with a blistering shot, made a lot of new friends. He got the Cats out in front with two goals in 37 seconds, the second on an electrifying solo dash past three defencemen.

George Ford, who notched his third tally in two games, and linemate Murray Wilkie were willing workers. Gordie Haworth and Stan Baluk each came up with a couple of good rushes and Jim Hay made some effective moves on defence.

Pelletier was the busiest man on the ice. He blocked a total of 38 drives and his quick reflexes kept the Cougars in the battle until the dying minutes.

Eddie Worked Like Beaver for Stamps

One of Pelletier's chief tormentors was Eddie Dorohoy, shifted from Victoria to Calgary in an off-season trade, who worked like a beaver in his first appearance against his old mates and collected three assists.

After hustling Fred Hiltz, fired Calgary's first goal, Dorohoy fed scoring passes to Rino Robazzo, Bruce Lea and Ron Leopold. Fred Hucul, who always seemed to be in the right place at the right time, wrapped up the scoring with five minutes remaining.

Cougar coach Pat Egan at a

loss to explain the poor checking and shoddy passing, which often forced forwards to put on the brakes in order to gather in passes, was drilling his charges on puck-clearing methods and positional play this morning.

Egan expects to have defenceman Jean Marc Picard, injured in the opening game, back in action when the Cats tackle Vancouver Canucks at Memorial Arena Saturday.

"We might have another player or two by Saturday," Egan said, "and we'll be playing better hockey now that we have a bad game out of our system."

SPOKANE DRUBBED

Fielder Puts In Early Bid on Title

By The Canadian Press

Almost 24,000 fans cheered the Western Hockey League into full seasonal existence over the Thanksgiving weekend with a six-game, 48-goal spree that saw Guy Fielder of Seattle again take the lead in the scoring race.

New-boy of the league, the Spokane Flyers received a severe away-from-home initiation against the Seattle Totems, dropping a 10-2 decision in Seattle Sunday, after winning 5-4 against the same team Saturday in Spokane.

In other Saturday meetings, Vancouver wilted before New Westminster Royals 4-2; Edmonton Flyers took a 3-1 win over Calgary and Winnipeg Warriors lost to Saskatoon Quakers 6-3.

WHL president Al Leader's weekend statistical roundup, which did not include Calgary's 5-3 victory over Victoria Cougars on Monday, showed Fielder ahead of the goal-shooters with

seven points in two games. Fielder is the holder of the all-time professional scoring record of 122 points for one season, and is a three-time winner of the WHL scoring crown.

Second are teammates Val Fonteyne and Bill McFarlane, each with five.

The top-scoring game of the season Sunday made the scoring list look like a Seattle team lineup, and enabled Don Chupka to net the year's second hat-trick.

Seattle scored five times in a wild final period. Calgary meets Seattle and Edmonton plays Saskatoon tonight.

STEELERS WIN

Colts, Browns Stay in Front

NEW YORK (CP)—Cleveland Browns and galloping Baltimore Colts rolled past rivals Sunday to cap three-game winning streaks and retain their position as National Football League leaders.

Cleveland's Jim Brown and Bob Mitchell scored four touchdowns between them for the leading Eastern Division team's 35-28 victory over Chicago Cardinals.

Baltimore, heading the Western Conference, put on a come-from-behind effort that overcame Green Bay Packers 24-17.

In other games, Los Angeles Rams choked off a pair of bold scoring threats to down Detroit Lions 42-28. Pittsburgh Steelers regained new life after two previous defeats to upset Philadelphia Eagles 24-3. New York Giants flattened Washington Redskins 21-14 and Chicago Bears routed San Francisco 49ers 28-6.

Los Angeles scored twice in the final 55 seconds in the Lion-

Ram game. Joe Marconi and Jon Arnett nipping over the line.

Quarterback Bobby Layne breathed new life into Pittsburgh who took an early 7-0 lead on Tom Tracy's 31-yard reverse around left end. The Eagles' only score came on a 36-yard field goal by Bobby Walston.

The Steelers victory followed the controversial trade in which the Lions sent the popular Layne to Steelers for Earl Morrill.

The Browns' Bob Mitchell counted once on a 63-yard run and set up another with a 52-yard jaunt to Chicago's one-yard line. Jim Brown scored three touchdowns to run his three-game total to eight. A pass from quarterback M. C. Reynolds to halfback John Crow went for a 91-yard Cardinal touchdown.

The Colts intercepted a pass with Andy Nelson zigzagging 52-yards for a touchdown was the last-minute score Baltimore needed to nose ahead.

HE FINES 'EM

My, What Big Ears And Eyes Frick Has

NEW YORK (AP)—Ryne Duren couldn't keep his temper and Milwaukee Braves couldn't keep a secret.

The results: Duren is out \$250 and 22 members of the National League Braves are minus \$50 apiece as a result of punitive action by Baseball Commissioner Ford Frick.

Frick's wrath fell on Duren because the New York Yankee pitcher made a "choke-up" gesture to umpire Charlie Berry in the 10th inning of the sixth game of the world series after Johnny Logan walked.

Duren was annoyed when Berry called the fourth ball on Logan. He walked from the mound and said something to the umpire. That didn't bother Frick.

THE GESTURE

But Duren turned back to the mound and placed his hand on his throat, the traditional choke-up sign in baseball. The count had been 3-2 on Logan and Duren is accused of indicating Berry didn't want to call a third strike on Logan before the partisan Milwaukee crowd.

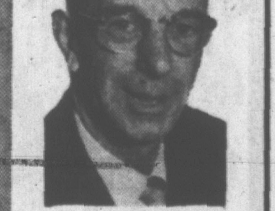

The fining of the Braves was more involved. It marked the first time in world series history that almost a whole team has been fined.

It came about because some-

one told how the Braves were going to share their series swag. The commissioner's office insists it alone can make the announcement.

Frick's men tried to track down the culprit. No one talked. So Frick fined all 22 players who attended a meeting where the series split was discussed.

Frick's men tried to track down the culprit. No one talked. So Frick fined all 22 players who attended a meeting where the series split was discussed.

We'll Take Care of This One, Roy

Hard-hitting protection from his mates helped Calgary goalie Roy Edwards close door on Victoria Cougars in third period of Western Hockey League game at Memorial Arena Monday. Edwards stopped 14 Cougar shots in final period as Stampeders scored

twice to wind up with 5-3 victory. Edwards smothered shot as Cougar Gordie Haworth (right), trying to get in for try at own rebound, finds path to goal barred by Aut Erickson (5) and Don Ward. (Times Photo by Irving Strickland.)

Lions Have Cause for Thanks With Dorow on Their Side Now

By The Canadian Press

Al Dorow, the castoff quarterback, has become the overnight hero of the upstart British Columbia Lions.

He went to Regina Monday and threw four touchdown passes against Saskatchewan Roughriders, the club that cut Dorow in mid-season. Paul Cameron caught two of them and scored another TD by intercepting one of Rider Frank Tripucka's passes.

It all went for a 34-16 win for Lions—their third straight victory after losing 10 consecutive games.

Just 48 hours earlier in Winnipeg, Lions recorded 1958's biggest upset in the Western Football Conference by beating the league-leading Blue Bombers 10-8 on Ted Hunt's 14-yard field goal in the last two minutes.

Dorow strutted his stuff in that one, too. He and Cameron caught Bombers off guard with a 61-yard sleeper play, and when that didn't pay off Dorow sent Cameron running. Trapped, Cameron whirled and passed back to Dorow who threw to Vic Chapman in the clear. Chapman went for the touchdown on a whacky play that covered 67 yards.

Now, having beaten Calgary Stampeders 14-13 a week ago in Dorow's first appearance with the Lions, coach Dan Edwards' club awaits Edmonton Eskimos in Vancouver next Saturday when they'll try for a four-game, four-team sweep.

Cowboys Fade in Late Stages

Eskimos have been making their own mark. At home Saturday night, Normie Kwong scored a third-quarter touchdown to beat Stampeders 17-10. Thirty-eight hours later in Calgary, Eskimos came from behind again with Johnny Bright bullying over at 13:43 of the fourth to give Edmonton a 19-14 victory.

The twin losses dampened Calgary's playoff hopes. Bombers still lead the league with 20 points, followed by Edmonton with 15 and Saskatchewan with

13. Stampeders have 10 and Lions, with six, are out of contention. Winnipeg and Edmonton each have three games left, Roughriders five.

Lions' victory in Regina, Monday afternoon, was protested by use of both Dorow and quarterback George Herring, who flew Saskatchewan because of the to Regina Sunday to replace fullback By Bailey, injured in Winnipeg.

Riders contend they had a deal with B.C. to the effect that if Lions decided to use Dorow, a Philadelphia Eagles castoff used as a sub for the injured Tripucka earlier, then Herring would move to Riders. Lions counter that under the deal, Herring is not scheduled to go to Regina until next year.

Saskatchewan's protest has been filed with league commissioner Sydney Harker of Winnipeg. It was not known when Harker would give his ruling.

Dorow quarterbacked the game and completed 19 of 31 passes for 167 yards. Tripucka completed 22 of 42 for 257, but five of his forwards and one thrown by Ron Adam were intercepted by Lions.

Besides Cameron's three touchdowns, the two others were scored by Ed Vereb on Dorow passes. Hunt kicked three conversions and the other Lion point came when Rider fullback Cookie Gilchrist was rouged on the opening kickoff by Jerry James. Mike Hagler scored both Rider TDs and Jack Hill converted one of them and booted a field goal.

Cub Manager Gets Reward

CHICAGO (AP)—Bob Scheffing Saturday was given a one-year contract to again manage Chicago Cubs in 1959.

Contract terms were not revealed, but Cub vice-president John Holland said "we all feel that Bob did a fine job in 1958 and our appreciation was shown in his 1959 contract."

Scheffing guided the club to a tie for fifth place, their highest finish in six years. He became manager in 1957.

FIGHT RESULTS

SAN FRANCISCO—Paulo Rossi, 153 lb., New York, knocked out Bobby Scallion, 155 lb., San Francisco, three rounds.
NEW YORK—Joe Turra, 158 lb., New York, knocked out Frankie (Kid) Anselmi, 166 lb., Philadelphia, nine rounds.
NEW ORLEANS—Charles Joseph, 156 lb., New Orleans, outpointed Morris Burns, 159 lb., Houston, 10 rounds.
TAMPA, Fla.—Claude Williams, 158 lb., Tampa, stopped Leo Bailey, 160 lb., Detroit, seven rounds.
PROVIDENCE, R.I.—Curly Menner, Worcester, Mass., outpointed George Araulo, Providence, 10 (lightweights).

ROUND TABLE TOPS . . . BUT WATCH JUVENILES!

Bank Accounts Blossom

NEW YORK (AP)—Round Table is the world's richest horse but on the basis of the frequent trips the two-year-olds of 1958 are making to the bank, the new champion's reign may be a short one.

The four-year-old from Travis M. Kerr's barns finally overhauled Nashua Saturday when he won the \$123,850 Hawthorne Gold Cup at Chicago and collected \$73,250. This boosted his earnings to \$1,336,364 compared to the \$1,288,565 won by Nashua before his retirement two years ago.

After failing in three rich races to pick up the necessary

cash to put him on top, Round Table accomplished the feat with a track record performance of 1:50 4/5 for 1 1/4 miles. Under Willie Shoemaker he finished 2 1/4 lengths in front of Swoon's Son, who ran his total earnings to \$970,605.

Round Table won only \$73,326 as a two-year-old. But First Landing from C. T. Chenery's stable already has banked \$215,979 following his triumph in Saturday's \$151,300 Champagne Stakes for juveniles at Belmont Park.

The top money winning two-year-old is Restless Wind who has won \$288,048.

Ahead of one of the finest groups of two-year-olds to match strides in recent years is the world's richest race—the Garden State Stakes Oct. 25. It'll be worth in the neighborhood of \$285,250 with the winner, if there are as many as 12 starters, picking up \$171,150.

A victory for Restless Wind in the Garden State would boost his total earnings to \$459,380. A First Landing triumph would bring his total to \$387,120. Either figure surpasses the all-time two-year-old record of \$349,642 established by Jewel's Reward last year.

BAILEY INJURED

Herring on List Of Lion Imports

VANCOUVER (CP)—General manager Herb Capozzi announced Monday night that the British Columbia Lions have declared the 12 imports they used in Monday's 34-16 victory over Saskatchewan Roughriders.

The 12 Americans who will finish out the season for the club are quarterbacks Al Dorow and George Herring; halfbacks Paul Cameron and Ed Vereb; fullback Don Vioer; ends Rick Kaser and Jerry Jones; tackles Urban Henry and Ed Enos; guards Tom Hinton and Chuck Frank; and centre Hall Whiteley.

Lions used up the last of their seven allowed import changes Monday when they brought in Herring to replace fullback By Bailey, whose leg injury in Saturday's game against Winnipeg put him out for the rest of the season.

ROUGHIES ARGUE

Capozzi said that Herring will be Roughriders' property in 1959 if the Saskatchewan club exercises its option on him. Roughriders, protesting Monday's game, claim Herring should revert to them this year under an earlier agreement.

Edmonton and Winnipeg also came down to the limit at the weekend.

Punter Bill Walker, a third-year Eskimo end from Maryland, pulled the muscles in his knee when he took a bad tumble while chasing his own punt and was knocked out for the season. Lyle was forced by the injury to name end Jim Letcavits, a rookie from Kansas University, as Walker's replacement.

TWO NEWCOMERS STAY

Lyle is going along with two newcomers from National Football League teams who saw their first action Saturday night—halfback Ralph Pfeiffer from Detroit Lions and tackle J. T. Frankberger, from New York Giants.

Dropped from the present Eskimo roster are halfback Joe Bob Smith, Houston; quarterback Fred Meyers, Michigan State, and end John Bell, Oklahoma.

Winnipeg coach Bud Grant made only one change from the 12 imports who played in the club's 13th game Saturday.

Quarterback Kenny Ploen, second-year import from Iowa University, will replace halfback Bob Stransky.

Ploen, an all-star last year, has been sidelined several weeks with a shoulder injury and was replaced by Jimmy Van Pelt, from the University of Michigan.

WILL KEEP BOTH

Grant has retained both quarterbacks, indicating he may either go with Ploen at halfback or alternate the two at quarter. Both also are considered stand-out defensive halves.

Cut along with Stransky were halfback Bob McNamara, who has been plagued with injuries since joining the Bombers from the University of Minnesota four years ago; tackle Fred Thurston, and end Bob Gunderman.

Aussies Boost Glowing Record

ST. ANDREWS, Scotland (AP)—World record miler Herb Elliott... Davis Cup... Olympic swimming champs... British Open golf championship... and now the World Amateur team championship of golf.

That's the proud sports record today of Australia, a country with a population of only about 10,000,000.

The Aussies added the amateur golf title and won the Eisenhower Trophy by defeating the United States in an 18-hole playoff over St. Andrews' Old Course Monday.

The Australians had a 222 total and the U.S. 224. The teams had tied with 918 strokes after 72 holes ending Saturday.

Twenty-nine countries competed in the championship, the first of its kind.

In the playoff, Australia's Peter Toogood shot 39-36-75, Bruce Devlin 37-35-72, Bob Stevens 40-35-75, and Doug Bachli 37-41-78.

On the American team, U.S. national amateur champion Charlie Coe of Oklahoma City had a 38-35-73, Billy Patton of Morganton, N.C., 38-37-75, Dr. Frank (Bud) Taylor of Pomona, Calif., 39-37-76, and Bill Hyndman of Philadelphia 40-38-78.

The low three scores counted towards the team aggregate.

Britain came third of the 29 countries with 919, New Zealand fourth and Argentina fifth. Canada tied for sixth with South Africa with a 945 score.

Bob Kidd of Vancouver led the Dougans with 83-82-75-74-314; Doug Bajas, also of Vancouver, had 79-80-77-81-317; Canadian amateur champ Bruce Castator of Toronto shot 79-83-76-81-320, and Toronto's Eric Hanson had 82-79-83-81-325.

Police Take Clubbing From Sailor Gridders

Flashing a well-balanced air and ground offensive despite slippery footing at Carnarvon Park Sunday, Navy came up with their second straight win in the Victoria Junior Canadian Football League, overpowering Oak Bay Police by a 43-0 count.

The scoreless first quarter produced the best action of the game. Then Navy broke loose for 18 points before the half and added 25 more after the break.

Touchdowns were scored by Cardick, with two, Shamrock, Rutland, Proulx, Glover and Porter. Only one was converted.

Access Problems Game Club Topic

Problems of controlling hunter access to logging claims will be the main topic up for discussion at the regular monthly meeting of the Victoria Fish and Game Protective Association tonight.

Following discussions, some new films will be shown by Don Keirs of the provincial game branch.

Open to members and their friends, the meeting at the Goldstream clubhouse starts at 8 p.m.

Always in front...

Each day more and more people choose 'Black & White' Scotch Whisky. There is a good reason for this popularity. You will enjoy the refreshing taste of 'Black & White'... the feeling of well-being that comforts you.

The Secret is in the Blending

Experts select the finest individual whiskies in Scotland. They blend them in the special 'Black & White' way and achieve its distinctive character and unvarying flavor.

Distilled, blended and bottled in Scotland, 'Black & White' comes in 26½ and 13¼ ounce bottles.

Surprise Party For 'Salt' of 93

By TONY DICKASON

A fine elderly—some would say, old—gentleman with humorous blue eyes was given a surprise party here Friday, marking his 93rd birthday and the 37th year of his retirement from the sea.

The impromptu affair was held under the aegis of Mrs. Thomas Bailey, wife of the rector of St. Barnabas' Church, at their home, 1601 Belmont.

The guest of honor was Cmdr. Frederic William Haigh James, RCN, former Royal Navy lieutenant commander, and—away back to 1881—a seaman with the merchant marine.

He lives just across the street from the rector at 1616 Belmont.

CAME TO RETIRE

Born in Worcestershire, the commander served with the RN until 1913, when he came to Victoria "to retire." But when the First World War broke out, he called the "admiralty," telling them, where he was.

The result: a posting to Esquimalt as a staff officer.

He didn't "break ranks" with the senior service until 1921.

"My second retirement," he called it.

'MR. MAGOO' HUNTER MISTOOK COW FOR BIRD

CHILLIWACK (CP) — The pheasant season opened in the Chilliwack area this weekend and within a few hours an irate farmer complained to police that a hunter had shot one of his cows.

Farmer John J. Friesen told RCMP the cow had to be destroyed. RCMP said the hunter must have been almost blind. Not only did he mistake a cow for a pheasant, he loaded his gun with a big shotgun slug instead of buckshot.

Chevrolet Task-Force for '59 arrives!

A GENERAL MOTORS VALUE

New might! New models! New money-saving power!

Chevrolet's '59 line rolls in with new ways to ride high costs right out of your operation. New models have been added to the famous Task-Force fleet. More brawn has been built into the '59 body-chassis design. More economy and efficiency have been engineered into Chevy's V8 and 6 engines. And these new developments are combined with the proved advantages that have made Chevrolet Canada's No. 1 truck, year after year. Never before have trucks brought such ironclad assurance of reliability and economy to your hauling job.

Ways to save in every weight class! You'll find all kinds of pickups to choose from—a big variety of Stepside models along with the sharpest pickup on the road, Chevy's Fleetside! You'll see spacious Step-Vans complete with 8, 10 and 12-foot bodies. Four-wheel drive pickups, panels, stakes, suburban carryall and cab-and-chassis models. Medium-duty jobs with a cab-to-axle dimension specially designed for trailer application. Series 50H and 60H middleweights outfitted to handle heavier loads at lower cost. Compact, easier handling L.C.F.'s. And a whole lineup of heavy-duty haulers, including tougher-than-ever big-tonnage tandems!

A new Thriftmaster 6! Standard in all Series 30 and 40 models, the new high-performance Thriftmaster steps lively on the job, and it's even more economy-minded than those famous Chevy 6's of the past!

New V8 advances! Featuring Chevy's new Workmaster Special V8 with more pulling power for Series 70 heavyweights! It's teamed with either fully automatic Powermatic, or a new close-ratio 5-speed Synchro-Mesh transmission as an extra-cost option.

New muscle in models throughout the line! Bigger brakes for safer stops in all Series 31 and 32 light-duty models! New positraction rear axle in the same Series as an extra-traction, extra-cost option! Greater structural durability has been built into Chevrolet cabs. Tandem axles feature more spring capacity, greater load support.

The best sellers are better than ever! With new advances, new Task-Force advantages beneath that bold '59 design. Chevy trucks are surer than ever of staying and saving on your job. Talk to your Chevrolet dealer. He's got a model that's bound to fill your bill!

See the best yet of the best sellers... **CHEVROLET** Chevrolet Task-Force for '59!

Prison Escapee Drowned in Bay

SAN FRANCISCO (AP) — The unrecognizable body of tough Alcatraz convict Aaron Walter Burgett was found Sunday circling The Rock, from which he escaped Sept. 29.

It was spotted by prison guard Lyndon M. Cooper, hobbling face down in San Francisco Bay, 100 yards out. A Coast Guard cutter picked it up.

Warden Paul J. Madigan said he was convinced now that Ralph Coe and Theodore Cole, the only one of 20 would-be

escapees not accounted for "drowned just as Burgett has. They just can't escape from here."

Burgett, 28, fortified himself with artificial aides for the swim. The Missouri post office robber was found still wearing a plastic bag inflated for water wings. He had a plywood fin strapped to one shin.

He still carried the sharp knife with which he threatened guard Harold Miller. He and convict Clyde Johnson, once labeled public enemy No. 1, gagged Miller and left him bound. Burgett entered the water, but Johnson didn't and was recaptured.

The tides and currents were too much for Burgett. His battered and gnawed head and body were nearly unidentifiable. But a thumb print and his numbered prison belt and his prison-issue clothing made identification positive.

You Can Depend On

When kidneys fail to remove excess acids and wastes, backache, tired feeling, disturbed rest often follow. Dodd's Kidney Pills stimulate kidneys to normal duty. You feel better—sleep better, work better. You can depend on Dodd's. Get Dodd's at any drugstore.

Times Honor Carrier

Each day this month The Times honors one of its "junior merchant" carrier boys who have demonstrated qualities of leadership and application to their endeavors. Today's candidate is:

STUART DALE

During the past 2½ years that Stuart has been delivering the Times he has paid for his bicycle, opened a savings account and bought parts for his telescope, which he constructed at home. Needless to say, his favorite hobby is astronomy, although photography and building airplane models are close runners-up.

Stuart attends Central Jr. High and is in Grade 8. His two favorite sports are soccer and basketball. Stuart has won a number of prizes, including trips to Parksville, Newcastle Island, Port Angeles and Seattle, and has built up his route tremendously during this time. His father, Hugh Dale, is a member of the Victoria detachment of the RCMP. He is proud indeed that his son has been nominated TODAY'S TIMES HONOR CARRIER.

So, congratulations, Stuart, and the best of luck for the future.

TRAFFIC FINES

In city police court Thursday: Thomas M. Chorney, 848 Old Esquimalt Road, careless driving, \$35. Shirley Gould, 114 Ontario, careless driving, \$35. Gerald G. Roy, 660 Belton, rear licence plate not properly illuminated, \$10.

CITY NEWS BRIEFS

Mrs. William R. Woolsey, 4520 West Saanich, was treated in St. Joseph's Hospital Friday night for a broken arm and abrasions suffered when the car in which she was riding was in collision with a bus on Patricia Bay Highway.

Her husband, driver of the car, was treated for minor cuts and bruises.

The smash-up occurred at the highway and West Saanich Road.

Driver of the bus was Kenneth Cummings, 3241 Wicklow. No one on the bus was hurt.

The Victoria Natural History Society will hold a general meeting in the Provincial Museum at 7:45 tonight.

Guest speaker will be A. E. Collins of the B.C. Forest Service. His subject will be "The Forests of British Columbia."

'MAY BE KILLED'

Informant Reveals Plan For Bombings

ATLANTA, Ga. (AP)—A man who says he may be killed for speaking has signed a statement that the dynamiting of a Jewish temple was planned last May at a meeting of an anti-Semitic organization in east Atlanta.

Police said the informant dictated the statement in the presence of three officers Monday night but asked that his name be withheld because his home might be bombed if the underground group learned what he had done.

Sgt. M. W. Blackwell quoted the man as saying he attended the meeting at which plans were made for the bombing but that he objected to the use of dynamite and was not invited to attend later sessions.

Between 40 and 50 sticks of dynamite were set off early Sunday against a wall of the temple. Damage was estimated at \$200,000.

Police said the man's statement might prove to be the first real break in the investigation of bombings of Jewish structures in the south.

The name of the anti-Semitic organization was not made public but police said they were told it had several members in every major southern city.

Temple Beth El in Miami, Fla., and the Nashville, Tenn., Jewish community centre were damaged by dynamite blasts on March 16. A Jacksonville, Fla., synagogue and a Negro school were dynamited on April 28 and an attempt was made to blow up a Birmingham, Ala., temple. That attempt failed when a fuse went out.

None of the bombings has been solved.

ILLINOIS JEWISH TEMPLE DAMAGED BY CRUDE BOMB

PEORIA, Ill. (AP)—A crude bomb hurled at the annex of a Jewish temple early today fell into an outside stairwell, exploded and shattered several windows in the three-story structure.

Damage to the rear annex of the Anshel Emeth Temple was termed "very small" by Rabbi Joseph Ginsberg, who serves the 700-member congregation. No one was in the temple or annex at the time.

Robert Briscoe, former Jewish Lord Mayor of Dublin, is scheduled to address a gathering at the Agudas Achim Synagogue in Peoria tonight, but Rabbi Ginsberg said he did not see any connection between the Briscoe appearance and the bombing.

However, police immediately threw a guard around the synagogue.

Boy, 16, Admits Killing Parents

OMAHA (AP)—William Leslie Arnold, 16-year-old Omaha high school junior, was charged with first degree murder Monday for the slaying of his parents.

Chief deputy county attorney John Hanley filed one charge covering the slaying of the youth's mother, Opel Arnold, 40, and another for that of his father, William J. Arnold, 42.

Hanley said young Arnold admitted he shot his parents Sept. 27 after an argument with his mother over using the family car to take his girl friend to a drive-in movie, and about his lengthy telephone conversations.

The boy said he hid the bodies

in the basement of the home until the next night, then buried them in a flower bed and for 14 days maintained the fiction that they were away on a trip. Saturday he was arrested after other members of the family went to police to report the Arnolds missing.

'Rugged Cross' Composer Dies

REED CITY, Mich. (AP)—Rev. George Bennard, 85, composer of the gospel hymn, The Old Rugged Cross, died Saturday. Son of a coal miner, he wrote The Old Rugged Cross in 1912 while conducting a revival at Albion, Mich.

Former Fisheries Minister Dies

MONTREAL (CP)—Hon. Ernest Bertrand, 69, wartime federal minister of fisheries and former postmaster-general, died here Saturday night.

He had been pursuing justice in the appeal court of Quebec from 1949 until he retired in 1955 for reasons of health.

He was first elected to the House of Commons as a Liberal member for Montreal-Laurier in the general election of 1935, and was re-elected in 1940, 1945 and 1949. In 1945 his majority was the greatest in Canada.

He entered the cabinet as minister of fisheries in 1942, and was appointed postmaster-general in 1945.

'Keep Out of Politics'---De Gaulle

ALGIERS (AP)—French army officers today reluctantly and in some cases bitterly obeyed Premier Charles de Gaulle's orders to get out of politics in Algeria.

The orders came down through the Algerian command, Gen. Raoul Salan, who was himself a leading figure in the right wing army coup of May 13 in Algeria.

Led by paratroop Maj. Gen. Jacques Massu, the 11 officers sitting on the Algerian Committee of Public Safety walked out this morning after explaining de Gaulle's orders to the civilian members.

De Gaulle's orders spread consternation among the committee which has held wide powers because of army participation. The premier's order was designed to insure impartial parliamentary elections in

Algeria without army interference.

The civilians, headed by Moslem Azam Ouali, went into a closed session after the army withdrawal. Shouts and table pounding could be heard outside. Later a committee member said:

"It is not over yet. In a few days France will see the repercussions of de Gaulle's authoritarian acts."

An army officer complained: "It is time de Gaulle started paying attention to the army. We can't be treated like little boys."

The impact of the withdrawal of officers from the committees was bound to be great. They have formed the backbone of the committees in all parts of the country.

TWICE THE WEAR IN EVERY PAIR

HOW MUCH WILL A MODERN TELEPHONE PLAN COST?

Surprisingly little, for the amount of downright easy living you get! For example, you could have phones (on a 2-party line) in the kitchen, basement, recreation room and master bedroom for only \$6.70* per month. Whatever your plan calls for, you can work out the cost very quickly from the following table:

TYPE	PER MONTH
First phone (2-party line)	\$4.30*
First phone (private line)	\$5.50*
Fixed extension (local)	\$1.20*

*Plus tax

COLOR PHONES

Probably you'll want at least one phone in color—and there are ten colors to choose from: Turquoise; Sunlight Yellow; Sand Beige; Dawn Grey; Garnet Red; Classic Ivory; Jade Green; Camellia Pink; Gardenia White; Forget-Me-Not Blue. If your telephone plan includes color, add a one-time charge of \$12 for each color phone; all other rental and installation charges remain the same.

BRITISH COLUMBIA TELEPHONE COMPANY

"Canada's Second Largest Telephone System"

BUILDING A NEW HOME OR RE-MODELLING?

Then by all means take advantage of the Telephone Company's free offer to pre-wire your home. All wiring is installed according to your telephone plan; concealed to avoid drilling holes in finished surfaces. There is no charge for this service—you pay only the regular charges when the instruments go into use.

Telephone planning is a new application of an old principle. Furniture and household appliances are purchased to make family living more comfortable, then located for maximum convenience and efficiency. Telephone planning simply recognizes that the telephone is an essential "household appliance" and should be located to satisfy specific needs. The addition of one or more extra phones, though moderate in cost, increases telephone efficiency very substantially.

How many phones do you need? Where should they be placed? With your own family living pattern as a guide, you are the best judge—but we have provided a sample telephone-planned home and a check list to help you decide. If you would like more personal assistance, don't hesitate to call us.

1 BEDROOM PHONE

Especially convenient in a two-storey house; eliminates running downstairs to answer the phone when you're working in the bedroom area. Adds the security of being able to summon help in a night-time emergency.

2 LIVINGROOM PHONE

Centrally located in the heart of the family living area. Most appreciated in the early evening, when right-after-dinner calls can be answered without getting up from the easy chair.

3 KITCHEN PHONE

The housewife spends the greater part of her working day in the kitchen. A phone here saves hundreds of steps, cuts her working time by many minutes.

4 WORKSHOP PHONE

Permits telephoning without leaving do-it-yourself projects. Handy to the laundry room next door. Also saves stair-climbing.

YOUR HOME NEEDS ONE OR MORE EXTENSION PHONES IF:

- ☐ You have to run up or downstairs to answer the phone.
- ☐ You have to walk more than twenty feet to a phone from any room in the house where members of the family spend much of their work or leisure time.
- ☐ You receive many telephone calls at night.
- ☐ You entertain frequently.
- ☐ You receive a number of business calls at home.
- ☐ You have teen-agers in the family—or small children who must be kept in sight while you answer the phone.
- ☐ The man of the house is away for long periods, leaving the housewife alone at night.

WE'LL BE GLAD TO HELP YOU

Our sales and service people are anxious to help you enjoy modern telephone living. They'll be pleased to answer your questions, or offer advice on the telephone planning of your home. Just call "General Sales", MU 3-5511, or fill out and mail this coupon:

ISLAND DIGEST

Salt Spring Legion Ladies Double Bursary

The Salt Spring Island Ladies Auxiliary to the Canadian Legion has increased its \$100 bursary to \$200. At a recent meeting held in the Legion Hall at Ganges, presided over by Mrs. E. Booth, it was also moved that the award would not be made until after school closing when students would know better what would meet their needs.

Installation ceremonies made Mrs. L. Anderson, Mrs. Max Munro and Mrs. C. Wrighton full-fledged members.

The auxiliary received \$100 from the estate of the late Harry Maxwell, which brought the treasurer's balance to \$252.03.

JUST TOO LATE

More officers and men have served in Ontario than any other ship in the RCN. With a peacetime complement of 600, she's had more than 4,000 serving in her since she was commissioned at the Harland and Wolff yards in Ireland, in April, 1945.

Headed for service in the Pacific Theatre, she arrived at Sydney, Australia, on the day after V-J Day.

She arrived in Esquimalt in Nov., 1945, and after a protracted refit started her 10-year career as a training ship in 1947.

Mrs. G. Bullock reported on the child health clinic attended by 16 mothers and their children. Mrs. Humphreys will assist at the next clinic on Nov. 6 in the Legion Hall, Ganges.

The annual Poppy Day campaign will be in charge of Mrs. G. Humphreys and will include beside the usual island canvass, a tag day at Ganges, Nov. 8.

Final plans were discussed for a fall-fashion show to be held in Mahon Hall, Oct. 25, which will be convened by Mrs. S. R. Gibbs. There will be a rummage sale, tea, contests and door prizes during the afternoon.

Irwin won the North Reef race, however, to beat out the Hanson-King combination.

David Baker won the Fox Cup, with Brook Swales second.

Richard Day won the junior skippers' series and placed second to Charles Coleman in the crew series.

Brian Price was tops in the Sears' Eliminations, with John King in the runner-up slot. King was also second in the junior skippers' series.

The Lorna Dee trophy for good sportsmanship went to Gordie Goodlad.

Family Sweeps Yachting Awards

DUNCAN—The Coleman family figured prominently when awards were distributed Saturday night to junior members of the Maple Bay Yacht Club.

The presentations were sandwiched between the dinner and dance which wound up a successful season for the juniors. Fred Price, MBYC commodore, and Tom Varty, fleet captain, made the presentations.

Rozzie Coleman was nominated to receive the coveted Roome trophy on behalf of the other members of her family. She also received the trophy for the sailing race around Salt-spring Island. Bob Sherman was the runner-up in both these events.

Little Chuckie Coleman received the first place plaque in the crew series, with Richard Day, second.

Gerald Coleman was the Lightning class champion, with George Maggs second.

Completing the Coleman quartet was John, the eldest son of Dr. and Mrs. J. U. Coleman, who are also yachting enthusiasts.

Mike Hanson and John King teamed up to win the "sail stretch" trophy, with J. Hutchinson the runner-up. Hanson and King also were the Comet class champions, with Tim Irwin in second place.

Irwin won the North Reef

Truck Death 'Accidental'

PORT ALBERNI (CP) — A verdict of accidental death was brought in by the jury at an inquest Saturday on Kenneth Gauthier, 24, victim of a logging accident.

Evidence given before coroner Dr. C. Pitts was that Gauthier had been under a heavy truck, unknown to any member of the crew, when the vehicle was moved ahead during loading operations.

QUALICUM YOUNGSTER LANDS 'FISH OF WEEK'

QUALICUM BEACH—Fishing here was excellent in the past week, with coho running well and averaging 14 to 18 pounds, four to five pounds heavier than the previous week. Biggest fish of the week was a 26-pounder spring, caught by Murray Cree Jr., aged 12, a pupil of Qualicum Beach Junior-Senior High School.

Stan Bashforth of Victoria got a 20-pound coho on a "Lucky Louie" plug, and W. Cowduroy, also of Victoria, landed four 10-pounders.

HMCS Ontario at full speed ahead.

White Ensign Up for Last Day As Career of 'Big O' Ends

By MONTE ROBERTS

The white ensign flies today at the stern of HMCS Ontario as she lies alongside her jetty in Esquimalt harbor.

But her four propellers have turned for the last time in a 750,000-mile career during which she became by far the most travelled ship in Canada's navy.

Wednesday, the white ensign will come down, never to fly again, as the climax to a paying-off ceremony at which the senior officer will be Rear-Admiral H. S. Rayner, flag officer, Pacific coast.

The 11,000-ton, British-built light cruiser is another victim of the changing concept of warfare at sea.

Conceived in wartime, she was born too late to ever fire a shot in anger.

GUNS SEALED

For the past eight years, her six-inch guns have been sealed at the breach. All secondary armament, with the exception of

a token battery of Bofors AA guns, were removed, and the ship was transformed into a floating classroom, from which about 90 junior officers were graduated each year.

Now even her training duties have been taken away. She will pay off into a future summed up by the scuttlebutt in her mess decks as "Razor blades or foreign aid."

"Razor blades" are favored over "foreign aid," as she would be of little use to any country in modern warfare.

SCRAP MOST LIKELY

Like her sister cruiser, Quebec, on the East coast, Ontario will be offered for sale on an as-is, where-is basis. Likeliest buyer: a shipbreaker who'll bid her in for scrap value.

Before being offered for sale, the Ontario is being stripped of all usable gear by dockyard mates and navy-men. Mess tables and benches, lockers, communications systems, hawesers and lines, winches, are being cannibalized for storage ashore or immediate use for refit of other ships.

A FIXTURE

She was nicknamed the "Big O" by friends, and among her best friends were the civilians of Esquimalt and Victoria, who regarded her as a fixture. When she was in port her band was always available for functions ashore. In the past eight years, crew members and canteen funds have contributed \$40,000 to civilian charities, ranging from a hospital for crippled children to Community Chest and Red Cross.

When she pays off, she will leave a legacy of \$5,000 in

Hunter Hurt In Explosion

TOFINO (CP)—A 25-year-old hunter suffered burns and shock in a dynamite explosion near here Sunday.

Kenneth Barr of Tofino took the dynamite with him on his hunting trip to dispose of it at Chesterman's Beach, four miles from here. It was not known how the explosion occurred.

Barr crawled half a mile to the nearest road for help. He was flown to Port Alberni Hospital, where his condition was satisfactory.

'Sweepers Here Join U.S. Navy For Exercises

Minesweepers of the United States Navy and the Royal Canadian Navy will leave Esquimalt harbor at 11.30 a.m. Wednesday for joint exercises off the West Coast of Vancouver Island.

The five U.S. 'sweepers' arrived at 10 a.m. today for an overnight stay before setting out with the four ships of the Second Canadian Minesweeping Squadron.

Accompanying the minesweepers will be a landing ship, tank, the USS Greer County, which will serve as depot ship.

The U.S. 'sweepers', all members of minesweeping division 73, are U.S. ships Esteem (senior ship), Conquest, Gallant, Acme and Pledge.

The Canadian squadron comprises HMC ships Fortune, James Bay, Miramichi and Cowichan.

The four Canadians recently returned from exercises off the California coast with units of the USN.

Exact length of time for the current exercises has not been announced, but the Esquimalt-based ships are expected to return "later this month."

NUCLEAR POWER, SUB FLEET STUDIED

'New Navy' Blueprint Expected Next Spring

By MONTE ROBERTS

Decision of a new shape and form for Canada's navy may be reached by next spring, Vice-Admiral H. G. deWolf, chief of naval staff, RCN, said here today.

Admiral deWolf, here from Ottawa on an annual inspection tour of the Pacific Command, said a 12-man study group has been working on reevaluation of the naval force for several months.

"We hope this winter will be productive, and the group will be ready to report by spring," he said.

Main areas of study revolve around nuclear propulsion and the possible addition of a submarine force to the RCN.

Represented on the study group, in addition to the navy, is the National Defence Research Board and Atomic Energy of Canada, Ltd.

"Scientists and engineers have also worked closely with the Royal Navy for the past year," the navy chief said. "Nuclear propulsion and ship construction are the major factors under study."

Whether or not a submarine force is added to Canada's navy, Admiral deWolf believes "on the basis of present information" there will be no change in the need for surface ships.

On other aspects of the RCN today, Admiral deWolf said: Guided missiles are under study, but their value as defensive weapons for an anti-submarine navy is doubtful.

No change is contemplated in the current personnel "ceiling" of about 21,000 officers and men.

First naval officers to graduate under the new "general list" program will be from Royal Military College next year; first cadets on this coast enrolled under the plan started training last summer.

In his personal opinion, all-out war is not inevitable.

"Rather, I would say peace is inevitable, under an armed truce, with no person willing to pull the trigger."

The Chief Scout's rally was disappointing in one respect. The grandstand held only about 300 parents. But the boys had eyes only for Lord Rowallan who had come here from Scotland to see them before going on to tour Canada.

It was the Western Area Scouts, from Belmont, Colwood, Langford, Sooke, Jordan River and Luxton, who built the rope bridge.

Cadboro Bay Sea Scouts provided side boys and piped the chief scout ashore after he had accidentally stepped aboard their imaginary ship.

Donald McPherson of Killgarry Road, attending with a slung-up broken arm, won another break when Lord Rowallan paused to ask him whether he was a "victim" in a display, or whether his injury was the real thing.

Mount Arrowmouth District Scouts made fire by friction, huffing and puffing, while more practical boys of Third Victoria watched their kettles boil and sat on their matches.

Of vital concern was the transport of 38 high school students from Quadra Island to Campbell River.

The group had threatened to boycott the existing ferry, Victoria II, operated by Thompson Tug & Barge, unless immediate steps were taken.

Mr. Harbord said Victoria doctors were "dedicated, selfless men," and teachers were "people giving freely of their warm hearts," but that there were those within both groups who refused to assume a fair share of community responsibility.

The Chest boss said if the \$300,000 campaign failed it would "be the fault of national firms and all those other people who have not yet related their giving to the new and fortunate circumstances in which they find themselves."

He urged Victorians to "stop thinking that every cent we receive after taxes belongs to us."

"VOICE OF NEED" "Listen to the voice of need crying all around us," he continued, "and let us give with a glad heart. For each penny we contribute it will be returned to us a hundredfold, and we will be buying happiness for ourselves and others."

Mr. Harbord said "some anonymous Victorian" had sent him a copy of Dale Carnegie's book, "How to Win Friends and Influence People."

"To him or her I say, 'Thank you very much. I get the point'."

Citizens Group Formed to Plan For Auditorium

The citizens' auditorium committee was formed today at a meeting of about 10 persons representing various sections of the community.

The meeting was held at the Olde England Inn to discuss the type of civic auditorium that should be built here.

The committee decided to obtain a model of an auditorium project that could be presented to subsequent committee meetings for consideration.

Plans for the building are to be drawn up by an architect when type of construction is decided.

About 25 persons were named to the committee with Times music and drama critic Mrs. Audrey St.D. Johnson and Courtney Haddock elected to spearhead the search for the best type of building.

Next meeting of the group is expected later this month when the model is ready.

CHEST BARBS STICK 'I'm Sorry It Hurt But...' Says Harbord

Community Chest campaign manager Justin Harbord said today he is sorry if his recent criticism of some "tight-fisted" Victoria groups had hurt anyone—then said he was not backing down.

"I am grievously sorry if I have wounded any good citizen," he told a Kiwanis Club lunch meeting, "but there will be no withdrawal by me of anything I said, since all the statements I made were factual and honestly intended."

"The disgusting fact remains that a large number of people and corporations consider it their right to increase the burden on the good citizens, on the generous, in accepting no responsibility or by attempting to discharge it with resentfully-given tokens."

Mr. Harbord said Victoria doctors were "dedicated, selfless men," and teachers were "people giving freely of their warm hearts," but that there were those within both groups who refused to assume a fair share of community responsibility.

The Chest boss said if the \$300,000 campaign failed it would "be the fault of national firms and all those other people who have not yet related their giving to the new and fortunate circumstances in which they find themselves."

He urged Victorians to "stop thinking that every cent we receive after taxes belongs to us."

"VOICE OF NEED" "Listen to the voice of need crying all around us," he continued, "and let us give with a glad heart. For each penny we contribute it will be returned to us a hundredfold, and we will be buying happiness for ourselves and others."

FAITH IN 'HIS BOYS'

Commonwealth Chief Scout Lord Rowallan shows faith in boys. He was first to cross "monkey bridge" they built at Royal Athletic Park rally. The chief downed his cane, scaled the ladder and threaded his way across, despite "game leg," to cheers of 1,500 boys. (Robin Clarke Photo.)

... HERE AND THERE ... With NORMAN CRIBBENS

That bushy-haired bombshell of the art world, **Andres Salgo**, will paint six full-size canvasses of Victoria when he gets to Ottawa next December.

Needless to add, they will have lots of color.

Before leaving here Monday, Mr. Salgo showed me his rough pencil sketches of the oriental rear view of the Legislative Buildings, the Inner Harbor, Fishermen's

Wharf, Beacon Hill Park, Royal Yacht Club—and a house in Uplands which took his fancy.

"These will make fine paintings," he said.

Mr. Salgo is now on the road to Calgary with his much-fought-over paintings packed away in a large aluminum container mounted on the roof of his low-slung roadster.

"I hope to be back in Victoria in 1961," he grinned.

When Archbishop Harold Sexton takes his Labrador for a walk, the dog often chooses the route.

On Cook Street Monday morning, the archbishop started off in the direction of Meares Street but the dog pulled him in the direction of Rockland.

"All right, old chap," said His Grace, "we'll go that way if you insist."

Answers to correspondents "The Land of Shining Mountains," a collection of legends of British Columbia, was written by three Victoria school teachers—Mary Carr

Wright, Margaret Steer and Myrtle Lane. It has brought them letters from all across Canada and a few from the United States as well.

Mr. Chant met a delegation of engineers this morning and reported: "They will make further representations at a date to be set. I expect to be hearing from them within a week."

The minister described the delegation as "very reasonable" and said he would take the question to the cabinet.

The engineers, a segment of the B.C. Government Employees' Association, want increases to make their wages equal to those paid similar workers in private industry.

Mayor R. Braithwaite of Hamilton, New Zealand, will be welcomed to Victoria by Mayor Percy Scourrah Wednesday in his office. Mayor— and Mrs. Braithwaite will stop over here on their return to New Zealand from a European tour.

Another "perfect" crib hand was registered in Victoria recently when Jerry Hansen, 19, of 2033 Shakespeare, scored the rare 29 points.

Playing with his father Erik and Mr. and Mrs. John Shields, Jerry drew three fives and the jack of spades completing his hand when the cut showed the five of spades.

A movie of the voyage of the second Mayflower will be shown to members of the North Kiwanis Club tonight at 6.15 in the Monterey Restaurant.

An overheated electric lamp set a drape smouldering in an Eaton's show window Monday night, next to a special fire prevention week display set up by the fire department.

The near-blaze was extinguished by firemen with a wet sack after major equipment was rushed to the store.

Remembrance Day ceremonies will be discussed at a meeting of Esquimalt Legion to be held at 8 p.m. Wednesday at the Legion Hall, 622 Admirals.

Q.—Are the latest comparative figures available for spectator attendance of such professional games as baseball, etc.? L.F.V.

A.—With the exception of baseball, the figures are not available. However, according to sports authorities, the major league games drew the highest attendance—17,460,289 for this season. Professional hockey and football are probably next in line, with wrestling a close third.

Q.—Are there any Buddhist's in Canada? K.T.U.

A.—Yes, about 9,000.

Anyone wishing a question answered is invited to send the question along to The Times, addressed to "Ask the Times" Editor. Questions and answers will be published daily.

THEY CALL HIM 'GREAT TYEE'

Scouts Salute Chief

By PETE LOUDON (See Also Page 9)

MISHAP SPARKS GULF ISLAND FERRY SHUFFLE

Gulf Islands' ferry Motor Princess was put out of action Sunday at Swartz Bay with a damaged cuplink.

The vessel is in Victoria for repairs and is expected to resume its regular run Thursday.

Meanwhile, company officials announce the motor vessel George S. Pearson will operate continuously from Vesuvius Bay to Crofton until 6 p.m. today to carry extra traffic.

Wednesday, the motor vessel Cy Peck will operate the regular schedule of the Motor Princess from Swartz Bay to Fulford. If the Motor Princess is not ready for service Thursday, today's service will again be in effect.

A monkey bridge is like a spider web swaying in the breeze; so it was with heartfelt admiration 1,500 Scouts and Cubs cheered "The Chief" as he ventured across one Monday at Royal Athletic Park.

"The Chief" is Lord Rowallan, 62-year-old chief Scout in the Commonwealth.

Duncan boys call him "The Great Tyee" and a tenderfoot in Ottawa once called him "the guy in the skirt."

Most general comment was, "He's great," as he strolled in his kilt, cane in hand, among boys gathered from most of Vancouver Island to welcome him.

It stretched about 75 feet, swaying, a man's height from the ground. It hadn't been tested when Lord Rowallan climbed and crossed it, pausing halfway to swing back and forth.

He made the rounds of exhibits staged by all Island districts, talking to tongue-tied lads, examining equipment, applauding stunts. He eyed an axe wielded by one red-faced Scout and said, "That's what the police call an unidentified blunt instrument."

He saw a welcome display by North Saanich area Cubs, a traffic control display by Mount Brenton district, a jungle dance by Victoria West, a pioneer project by Cowichan Valley. East Victoria staged a quarter stave display, Mount Brenton

Scouts set up a camp, North Saanich held a "chariot race" whose human wheels broke down.

Cadboro Bay Sea Scouts provided side boys and piped the chief scout ashore after he had accidentally stepped aboard their imaginary ship.

Donald McPherson of Killgarry Road, attending with a slung-up broken arm, won another break when Lord Rowallan paused to ask him whether he was a "victim" in a display, or whether his injury was the real thing.

Mount Arrowmouth District Scouts made fire by friction, huffing and puffing, while more practical boys of Third Victoria watched their kettles boil and sat on their matches.

Of vital concern was the transport of 38 high school students from Quadra Island to Campbell River.

Quadra Ferry Bids Called After Protest

B.C. Highways Minister P. A. Gagliardi will call tenders immediately for a new and larger passenger ferry service connecting Campbell River and Quathiaski Cove on Quadra Island.

His decision was announced following a meeting this morning with a delegation from Quadra Island Ratepayers' Association.

The group had threatened to boycott the existing ferry, Victoria II, operated by Thompson Tug & Barge, unless immediate steps were taken.

Of vital concern was the transport of 38 high school students from Quadra Island to Campbell River.

Mystery Blast Baffles Police; Search Fruitless

A mystery blast rocked downtown Victoria at 2.20 a.m. today and could not be traced by police.

Two constables heard the explosion from different points and thinking in terms of a safe-cracking, police made a search of business premises in the Fort, View, Yates, Blanshard and Herald areas.

One officer said he thought the sound came from the 700 block of Fort, but another policeman centred the noise on lower Herald.

PUBLISHER'S NOTEBOOK

Salvos at Salgo

displayed would have looked conservative in a tattoo parlor.

I heard some people clucking approvingly in front of a thing called "Sunset." Believe me, Mr. Salgo would have rejected it as a top for their chocolate boxes.

Yet J. P. E. Klaverwyden, who has been going to galleries since he was a boy of six in Amsterdam, and who was shrewd enough to spot the Goya sketch-book at a local auction, thought that Salgo was "very good."

M. Klaverwyden confessed that he liked bright colors. He found the Emily Carrs sombre and a bit depressing.

For me, the walk from the Carr exhibit to the Salgo show was like the descent from

Paradise into the fiercest confines of Hell.

And yet some patrons were saying that it was "impolite" to criticize the works of an artist from a friendly foreign nation. Just isn't done, old boy.

This strikes me as utter nonsense. When a performer lays his works on the line—whether he is artist, musician, singer, writer or speaker—he must chance the critics' verdict.

Remember Margaret Truman? When she visited Victoria she was the daughter of the president of the United States and as such, entitled to every courtesy. But she came as a professional singer, charging \$2,000 a performance. She couldn't sing. It was the simple duty of the critics to cry caveat emptor!

THE BETTER HALF

By Bob Barnes

"I don't know what it is either, lady—but they're selling like hotcakes!"

SHOPPING GUIDE

Drip-Proof Juice Mixer Flat and Easy to Store!

By PENNY SAVER

This juice mixer is different! Made of sturdy, long-wearing polyethylene, the drip-proof container is a perfect size for holding juices, milk or just any type of beverage!

It has rough grip sides; so, the container can't possibly slip out of the hands and best of all it's flat . . . so it takes up little room in the ice box.

The price for this practical item is 68 cents.

What's this? A container to hold powdered cleanser? What an idea for the thrifty housewife . . . she'll save pennies using the perforated top polyethylene jar. It sprinkles the cleanser evenly and lightly over a hard surface . . . so there is little waste. The attractive holders are 49-cents each.

Decorative and yet useful are these adorable wooden cocktail gadgets. A combination bottle opener, cork screw and knife (for cutting off bottle top labels) is just one of a few of the darling items featured.

The pieces are in the form of soldiers or little men painted gay colors. Have this wonderful item on hand in your cupboard or bar . . . it costs just \$1.49.

A \$2.49 value selling for 99 cents! Now can you beat that? It's a bargain on packages of household and building tools . . . such as screwdrivers, chisels, utility knives, rulers and nails. Hubby will be delighted with these surprise packages!

Call me at EV 2-3131 if you'd like to know where I shopped today.

LOUISE DAVIS

On Etiquette

GIFT TO FORMER HUSBAND'S BRIDE

Since our divorce ten years ago, my former husband and I have kept in touch with each other because of our daughter and because we sincerely like each other and our families. He recently married and, since we are a family of elaborate and thoughtful gift-givers, I am now confused as to the protocol of a wedding gift. I would appreciate your help.

Louise Davis Answers:

I'm afraid that your thoughtfulness as a gift-giver would be anything but thoughtful should you send a gift to your former husband and his bride. It could place the wife in

Louise Davis a very awkward and embarrassing position. Although you may be innocent in your motive, the wife and others may interpret it otherwise. Furthermore, why subject yourself to criticism? I am sure that most people wouldn't even be amused. Such gift-giving would be highly unconventional and might have unhappy and unpleasant repercussions.

WEDDING CALLED OFF

Invitations to our son's wedding were recalled as the engagement was broken one week

Ladies' Auxiliary, Britannia Branch, No. 7, Canadian Legion, BESL, Centennial Carnival, on Thursday, in auditorium, 1616 Blanshard Street. Mrs. Percy B. Scurrah to open affair at 2 p.m.

SAVE \$36.91 here's how!

... on an average, you pay 75c each time you have a sweater dry cleaned. One regular size package of thrifty ZERO washes 50 sweaters which could save you a total of \$36.91. And, ZERO, the cold water soap specially developed for washing woollens does your sweaters safely, sparkling bright and looking like new. ZERO never shrinks nor mats. You can trust ZERO with all your woollens from finest cashmere and baby things to heavy blankets—ZERO's good for Nylon, Orlon and all cool water fabrics, too. Look for the box with the Big Red "Z", at your drug, wool, department stores or supermarkets. For FREE sample, write Dept. A1, ZERO SOAP, Victoria, B.C.

DEAR ABBY . . .

To Each His Own!

By ABIGAIL VAN BUREN

DEAR ABBY: The following concerning my sister-in-law, may sound absurd but it is true. My brother earns over \$8,000 a year, but by the way my sister-in-law hangs on to every nickel, you'd think they were on welfare. When the kids take a bath she throws in socks and towels to be washed along with the kids, to take full advantage of the soap suds. You could break your neck in her house because she is too cheap to keep a light burning anywhere excepting where they are sitting. She uses a hand sweeper because it costs money to plug in the vacuum. I could go on and on. I told my brother he should talk to her, but he says to mind my own business as he's the one who has to live with her.

DEAR TOLD: When you can get such sterling advice from your brother, you don't need me.

DEAR ABBY: What is a husband supposed to do when his own wife sides with their two teen-aged boys against him? We have been eating either hamburgers or hot dogs for Sunday supper every Sunday for three years. Why? Because the boys like them. I travel and eat home only two nights a week. They will not eat steaks or chops or chicken. Although I pay the bills and never said anything was too high. But my wife won't fix it. When I complain they say, "Let's take a vote" and I'm outvoted three to one. Can you solve this? OUTVOTED.

DEAR OUT: You are out of luck unless you can't home a single steak and fix it yourself. If you hadn't given an inch at a time, you'd still be the ruler.

DEAR ABBY: There is no sense in telling a girl who is in love with a married man to have a talk with her clergyman, a psychologist or anybody else. A person who is in love is stricken with a disease and nothing can cure her except time. I ought to know. I spent 22 years of my life on a married man. I wish someone would have given me a good swift kick in the pants. It wasn't worth it. SORRY.

DEAR SORRY: TIME does not cure all diseases, but when the "sickness" is an emotional one (and love is) the only answer is to find a doctor who will help you to understand your emotions. You could have saved yourself 22 years and a kick in the pants.

DEAR ABBY: Please, don't laugh at my problem as it is very hard to figure out. For me,

at least. My girlfriend sent me her picture. She wrote across the bottom, "Yours, till eternity, Love, Doris." Only she spelled "ETERNITY" "ITERNUTY." A few people have noticed this and I am embarrassed. Should I send it back to her and ask her to correct it? Should I try to correct it myself or should I ditch the picture?

DEAR EMBARRASSED: If you can't correct it quietly yourself, send it back to her and ask her to correct it. She'd feel worse if she found out you ditched the picture. (P.S.—Buy her a dictionary for Christmas.)

DEAR ABBY: I am thirteen, almost fourteen. My best girlfriend has the most wonderful brother. He is 16 and goes to the same high school. We sometimes walk together, the three of us. I know he likes me but he is too brotherly. I don't want this. I have my own brothers. I would give anything

if he liked me like I like him. How can I get him as a boyfriend?

SINCERELY, ANN.

DEAR ANN: Be available . . . but not aggressive . . . be sweet, but not sugary. Let him know that you like him—but don't let him know how much. Good luck!

CONFIDENTIAL TO MISS SHUGA: A man who will step out on his wife (to whom he has given his sacred vow to love and cherish until death) certainly would not hesitate to lie to you. Get wise!

For a personal reply, write to ABBY in care of this paper. Enclose a self-addressed, stamped envelope.

If you want a collection of Abby's best letters and answers in one book, ask your book-dealer to get "DEAR ABBY" for you.

CLUB WOMEN'S NEWS

Clothing Given — It was reported at the recent meeting of the Robert Burns McMicking Chapter, IOOE, that \$16 worth of clothing has been sent to Italy, Greece and Korea by the group. Miss Sharon MacKay, one of the chapter's bursary winners, described her recent trip to the United Nations Assembly in New York. Plans were made for a tea to be given at the Canadian Institute for the Blind on Oct. 25. A report was made that \$2 had been given to the Alert Service.

Group Named—"Annie Alton" was the name given the evening auxiliary of the Women's Missionary Society of Centennial United Church at a meeting recently. The name honors one of the group's charter members, Miss H. Heffren, missionary, gave a talk on "Women in the Church."

Fall Tea—At the recent meeting of the ladies of James Bay guild, it was decided that a fall tea would be held on Nov. 5. Mrs. J. H. Stewart was named

convener and Mrs. J. Velacott co-convener. Mrs. R. Webster was elected entertainment chairman and Mrs. C. Gonnason is in charge of home cooking.

TODAY'S RECIPE

RAISIN CRANBERRY PIE

One and one-half cups light or dark raisins, 2 cups fresh cranberries, 1½ cups water, 1¼ cups sugar, 3 tablespoons cornstarch, ½ teaspoon salt, few drops almond extract, 1 table-spoon butter or margarine, pastry for double 9-inch crust. Rinse and drain raisins and cranberries. Add water. Blend sugar, cornstarch and salt, and stir into fruit. Heat to boiling and cook and stir 3 or 4 minutes. Blend in almond extract and butter. Cool slightly. Pour into pastry-lined pie pan. Top with pastry. Bake in hot oven (425 degrees F.) 30 to 35 minutes. Makes 1 (9-inch) pie.

AT Gibson's There's Nothing Quite As Warm And Cosy As A Fabulous

WHY GROW OLD?

By JOSEPHINE LOWMAN

Well Tested Rules Will Add Zest to Your Personality

We all know people who are unusually popular, and we all would like to be like them. The following rules are simple and well tested and will add zest to your personality.

1. Give the other person your whole attention when he or she is talking. Nothing is so flattering! Besides everyone has interesting things to say—well almost everyone! If you go "wool gathering" or plan your wardrobe for the next season, the speaker is certain to know it by your response or the expression on your face.

2. Be appreciative of the courtesies which others extend you, no matter how small they are, and show it. Some folks just do not let others know how they feel and some take such things for granted. Those who are enthusiastically thankful for what you do for them are most rewarding individuals.

3. Don't tell your friends about their faults. Let someone else do that. The idea of perfect frankness between friends is gruesome in my opinion. We should not lie to those we know but we do not have to be brutally and cruelly frank in the name of friendship.

For instance, why spoil a woman's pleasure in a hat or gown which she already has bought by telling her that the color or the style is wrong for her?

4. Develop a sense of humor by trying to see the funny side of things. People love those

who make the day seem gay. 5. We should try to be perceptive of the comfort and wishes and wants of others. Don't wait until their needs hit us on the head. This means being fully aware and all the way alive instead of only half conscious of what is going on about us—Many folks would be thoughtful if they were really wide awake.

Just these five simple rules will take you a long way toward the coveted prize of popularity. If you teen-agers would like to have the leaflet "Popularity" send a stamped, self-addressed envelope with your request for leaflet No. 58. Address Josephine Lowman in care of this newspaper.

OES Bazaar

Annual fall bazaar of Esquimalt Chapter, No. 41, Order of the Eastern Star, will be held on Saturday at Knights of Pythias Hall, Cormorant Street. Mrs. Jessie Earl, past matron, will officially open the affair. Afternoon tea will be served and there will be home cooking, novelty, apron, home produce and superfluous stalls, as well as bingo and other contests.

St. John Ambulance

Tonight—Oak Bay Nursing division No. 176, 8 p.m. Mrs. E. Humble, superintendent.
Wednesday—Victoria nursing corps officers and NCO's, 7.45 p.m. meeting, Marie Lawrence, superintendent.

Thursday—Denton Holmes nursing division, No. 148, 7.30 p.m. Mrs. L. Sinclair, superintendent; St. John Ambulance division, No. 65, 8 p.m. R. M. Barnes, superintendent.
Friday—A. J. Dallan nursing division, No. 210, 8 p.m. Mrs. B. D'Altroy, superintendent; Denton Holmes nursing cadets, No. 148, 6.30 p.m. Miss Joan Andersen, officer cadet.

Mrs. W. W. McLuhan and Mrs. A. C. Bridge met recently to discuss final plans for the annual bridge tea to be presented by the Alumnae of St. Joseph's Hospital Wednesday afternoon and evening in the Nurses' Residence. Mrs. McLuhan is co-convenor with Mrs. P. Coste, and Mrs. Bridge is in charge of tea arrangements. Other features will be an apron stall and a home-cooking stall. Bridge will be played from 2 to 5 p.m. and from 8 to 10. Mrs. E. Provost, Mrs. F. G. Stuart, Mrs. H. Borsman and Mrs. N. Lockyer have been asked to pour tea.

KNOW YOUR CLUBWOMEN

Soroptimist Club President Tells of Life in Orient

By MAUREN DUFFUS

Mrs. Margaret Dockerill, president of Victoria Soroptimist Club, is a comparative newcomer to Victoria, an American who has spent a great part of her life in the Orient.

As a young girl, she was given the opportunity of going to Shanghai to work as secretary in a business firm owned by a friend. It sounded highly adventurous, and it turned out to be just that—at first.

"It was a very good job, since businessmen then employed Chinese clerks for routine work, preferring American or British secretaries for confidential work."

Mrs. Dockerill met her husband there, and afterwards they moved to Hong Kong to a fascinating life where all the work was done by servants.

But the adventure ended in tragedy.

The Dockerills, along with thousands of other Westerners, were interned by the Japanese, and Mr. Dockerill died of starvation there.

"We were in Stanley camp in a superb of Hong Kong. There were 3,000 of us and food was brought in raw to be cooked in communal kitchens. There was barely enough to keep any of us alive at first.

"Later, Swiss Red Cross sent money and we were able to buy a few extras at a canteen. Coffee and cigarettes were luxuries, but best of all was being able to buy curry powder and other seasonings to make the food a bit more interesting."

Revists Relatives in Canada, U.S.

Mrs. Dockerill visited a step-daughter in Halifax, then came to Vancouver to visit other relatives. She also stayed with her sister in California for several years.

In 1950 she returned to Canada to visit another step-daughter in Kamloops, where she opened a gift shop. Then, when her son-in-law and daughter sold their ranch and moved to the coast, Mrs. Dockerill came with them.

Shortly afterwards she came to Victoria, where she ran the

Bazaar Nets \$654 For Nurses' Group

Bursaries for student nurses and other hospital projects will benefit from proceeds of a fall bazaar given recently by the Royal Jubilee Hospital Alumnae Association.

The affair, held in the Nurses' Residence, was opened by Mrs. Frank Mackenzie Ross, and netted \$654 for work of the Alumnae.

"Still, we were luckier than others. There was little brutality as in some other camps. We were just overlooked."

Finally, Mrs. Dockerill was repatriated through an exchange of civilian internees, after 20 months in the camp.

Mrs. Margaret Dockerill

"We sailed to Manila, Bangkok and Goa, where we transferred to the Gripsholm, exchanging with Japanese internees. Then we went around the tip of South Africa and across to Rio, where we had three glorious days—the only time we landed in the whole of the 10-week trip.

"Then we went straight to New York, and were put right on a train to Montreal. As the wife of a Canadian I was repatriated to Canada."

famous Toby Jug tea room at Elk Lake for several years.

Now, she is in an executive position with the Registrar of Companies for the British Columbia government.

She first joined Soroptimist club in Kamloops, and has kept up her membership in Victoria. Soroptimist is a classified women's club admitting only one member from each classification.

It is the youngest of the business women's clubs, and was founded by a Rotarian in 1921, when he was looking for new members and discovered that many top executive positions were held by women. Thus Soroptimist club was formed as a women's service club on the same basis. It now has members all over the world.

Main project of the local club, Mrs. Dockerill explained, is the Christmas seal campaign, which keeps members extremely busy several months a year. A secondary project is maintenance of a room at Gorge Road hospital which the group furnished several years ago.

Luncheon for Chief Scout

His Honor the Lieutenant-Governor entertained at luncheon Monday in the vice-regal suite in honor of Lord Rowallan, KBE, MC, chief scout of the British Commonwealth, who was in Victoria for the weekend. Guests included Col. R. Girard, Lloyd Jermain, T. W. Parsons, OBE; Herbert Twiss, Hon. Gordon McG. Sloan, QC, LL.D.; Stuart Keate, D. Francis Morgan, K. F. Fraser, R. D. Baker, Lawrence Dampier, Victor Wiebe, L. C. Way, R. Ken Jordan and Newton J. R. Sherwood.

Wedding Date Announced

Mr. and Mrs. William Duff of Vancouver, announce the engagement of their daughter, Eleanor Muriel, to William C. Watson, son of Mr. and Mrs. Charles R. Watson of Victoria. The wedding will take place Saturday, November 8 in St. Peter's and Paul Roman Catholic Church, Vancouver, at 10.30 a.m. For her attendants, Miss Duff has chosen Mrs. E. Read matron of honor and Miss Isabel Arriz and Miss Anne Melanson, bridesmaids. The bride-elect is a graduate of Sacred Heart Convent in Menlo Park, Calif., and attended the University of British Columbia. Mr. Watson is a graduate of commerce from UBC and is affiliated with Alpha Delta Phi Fraternity. He is now articling for his chartered accountancy in Victoria.

Six-Week Trip

Mrs. E. M. Jackson returned to her home on Crescent Road, Monday evening, after a six-week trip through the western United States. She visited friends in Seattle, Tacoma, Aberdeen, San Francisco and Vancouver.

Attending Meet

Among those Victorians attending the convention of the British Columbia Hospitals' Association to be held in Vancouver, October 29 and 30, are Mrs. J. McLellan and Mrs. C. N.

Montague, from the Women's Auxiliary of St. Joseph's Hospital; Mrs. R. G. A'tken, Gorge Road Hospital; Mrs. Keith Dixon and Mrs. K. W. L. Seace, Junior Women's Auxiliary to the Royal Jubilee Hospital; Mrs. D. B. Ascott, Cerebral Palsy Clinic, and Mrs. Eric Young and Mrs. Leslie Macdonell, of the Veterans' Hospital and the Solarium Junior League.

At B.C. House

Victorians who have registered during the past week at British Columbia House in London, England, are Mr. John P. P. Manning, Mr. and Mrs. H. J. Brown, Mrs. E. J. Harris, Mr. J. Baines Lewis, Miss Nona Rich, Mrs. C. C. Paterson, Miss C. C. Sturrock, Mr. and Mrs. Arnold Ashworth, Mr. and Mrs. Wallace G. Courtney, Mr. and Mrs. G. Campbell, Mr. D. E. Watson, Mrs. Peter Harris. Also signing the book at British Columbia House were Mr. J. B. Gibson, Maple Bay; Mr. and Mrs. Herbert Bickford and Mr. and Mrs. Morley Bickford, of Saanichton; Mr. and Mrs. A. Bickford and Linda, of Brentwood Bay; Miss Elaine Acheson, Ganges; Mr. E. J. McLoughlin and Mr. and Mrs. Alan Pendray, of Sidney.

CLUB CALENDAR

Our Lady of the Rosary Church, parish guild, bazaar, Wednesday, 3 to 5 p.m., and in evening, 7.30 p.m., parish hall, Goldstream.

Greater Victoria District, Registered Nurses' Association, tonight, St. Joseph's Hospital, 7.45 p.m., Dr. A. W. Perry, guest speaker.

King's Daughters Hold Fall Bazaar

A sum of \$240 was realized from the fall bazaar and tea presented Saturday afternoon by the Victoria branch of the International Order of the King's Daughters in K of P hall.

A harvest theme was used in decorating the rooms and the tables were centred with arrangements of apples and flowers.

Mrs. W. Phillips was general convener and Mrs. F. Dods-worth, Mrs. A. Phelps and Mrs. G. Wellburn were co-conveners. Stalls were convener by Mrs. K. Henderson, homecooking; Mrs. A. Lister, candy; Mrs. I. Wellburn, delicatessen; Mrs. C. F. Lawrence, novelties; Miss Gail Crawford, parcel post; Miss Jean Roberts, white elephant; Mrs. Phelps, Miss Roberts, contests and Mrs. Harold Cliff, tickets.

Mrs. Harold George was in charge of decorations.

Dr. and Mrs. W. G. Wilson will be honored at a reception tomorrow evening to mark their golden wedding anniversary, and at the same time celebrate Dr. Wilson's 90th birthday, and his 55th year of ordination. For the occasion, Mrs. Wilson will wear the dress her mother wore at the wedding 50 years ago, and Dr. Wilson will also be dressed in the style of the groom of 1908. Reception will be held in First United Fellowship Hall, 934 Balmoral Street, from 7.30 to 9.30 p.m. Among the many guests will be former parishioners of Dr. Wilson, who was minister of First United Church for 17 years.

Home in Vancouver For Recent Newlyweds

Planning to make their future home in Vancouver are newlyweds of Friday evening, Mr. and Mrs. C. William Gordon, who were married in Centennial United Church by Rev. Douglas B. Carr.

The bride is the former Miss Joanne Carol Pearman, daughter of Mr. and Mrs. A. Pearman of St. Andrew's Street and her groom is the son of Mr. and Mrs. A. Gordon of Parksville.

White chrysanthemums and soft candlelight set the scene for the ceremony as the dark-haired bride walked up the aisle on the arm of her father. Her gown of white taffeta swept softly into floor length. Styled along princess lines, the gown featured a lace-trimmed neckline and the bodice had lily point sleeves. A train of lace extended from the hemline. A pearl tiara held her misty chapel-length veil and she carried a bouquet of yellow roses sprinkled with feathered chrysanthemums and sprigs of ivy leaves.

Mrs. M. Wilmhurst played traditional music at the organ, for the ceremony. Maid of honor, Miss Jacqueline Fisher of Hamilton, Miss Patricia Brown and Misses Frances and Freida Pearman, bridesmaids, wore identically styled gowns in green, peach and auburn-toned taffeta. All four gowns were spun with gold thread and were styled in sheath style with gold tulle overskirts. Attendants had matching headpieces. Bouquets of bronze and gold chrysanthemums with ivy were carried.

Little flower girl Gena-Lynn Gordon, wore a frock in peach-toned taffeta trimmed with gold tulle. She carried a basket of matching flowers.

Thomas Gordon was best man and ushers were Robert Tower, William Tower and Bruce Baxter.

For the reception in the Royal Victoria Yacht Club, the toast to the bride was proposed by Orme Turner.

Women Urged To Stamp Out Delinquency

VANCOUVER (CP) — The 115,000 members of the Catholic Women's League of Canada were urged Monday to help combat juvenile delinquency in Canada by seeking foster homes for underprivileged children and by eliminating salacious literature in their communities.

Mrs. H. T. Donihee of Cornwall, Ont., social action convener, told the league's 38th annual convention the shortage of foster homes presents "real work" for the organization.

She said more than 500 foster and adoption homes were secured by the league across Canada during the last year and urged establishment of child welfare plans in every diocese in order to extend the work in the face of increasing juvenile delinquency.

More than 8,000 children under the age of 15 were found delinquent during 1957, most of them coming from broken homes, she said.

Immigration committee convener Mrs. M. A. Panaro of Winnipeg told delegates more than 25,000 newcomers were given assistance by the league during the last year, at a cost of \$250,000. More than 6,500 families were visited soon after their arrival.

League members devoted almost 40,000 hours of work to meeting immigrants at ports and attending to their needs, she said.

Colfax Rebekah Lodge, No. 1, IOOF, Odd Fellows' Hall, tonight, 7.30.

St. Mary's Women's Parish Guild, card party and games night, Wednesday, at 8 p.m., church hall, Yale Street. Refreshments.

UNEMPLOYMENT BOOST BY SHIPYARD LAYOFFS

Number of men out of work in Victoria jumped last week following layoffs from a local shipyard, according to the city branch of the National Employment Service.

There are also more women looking for jobs, many of them married women registering for Christmas season work. Service officials say there should be "a plentiful supply" of casual help available for stores as Christmas nears.

Total of unemployed persons today is 3,552, compared with 3,523 a week ago.

ask Andy

HE GIVES AWAY GRAND PRIZES

Is there something you want to know? Do you want to win a set of valuable books or other instructive prizes? Then ask Andy. Andy will answer questions submitted by child readers, and those who submit the questions he selects to answer will receive worthwhile prizes.

The youngster who asks the first question answered each day receives a 20-volume set of Compton's Pictured Encyclopedia (Canadian edition) and of the second question a Hammond Atlas or Globe.

Address your questions to "Ask Andy," Victoria Daily Times.

Andy sends a complete, 15-volume set of Compton's Pictured Encyclopedia to June Shores, aged nine, of Williamsport, Penn., for her question:

What Causes A Star to Fall?

A real star is big enough to swallow a million earths in one gulp. They are blazing monsters, scattered through the vast reaches of space, trillions of miles apart. Our sun is one of these blazing stars. Our earth is merely a little planet, one of nine children of the sun.

In the space between the planets there is a lot of debris. There are drifting pebbles, flying gravel, a few boulders and clouds of dust. These fragments are called meteors and every day countless numbers of them collide with the earth. When this happens we see a so-called shooting star. A meteor, maybe no bigger than a grain of sand, bursts forth into blazing glory and, for a moment, it rivals the stars in the heavens.

No real star could fall from its appointed place in the heavens. For the stars obey strict traffic rules. All the stars we see in the sky are part of a vast cartwheel we call the Galaxy. The big wheel turns and turns, each star turning with it. Our sun is turning around with the Galaxy at about 170 miles a second, taking all its planets along with it.

A falling star then, is not really a falling star. For each monster star is fully occupied with its own orderly routine and could not possibly fall out of the sky. What looks to us like a falling star is a blazing fragment of dust, a meteor.

Meteors, big ones and little ones, have plenty of space between the planets. Out there in the cold of empty space, they are solid bits of rock or metal. And they whiz along at great speeds. Some astronomers estimate that a slow meteor travels around the Solar System at about 100,000 miles an hour. Space is empty, even of air, and there is nothing to resist their speed and slow them down.

Air Friction Burns Meteor

When a meteor flies near the earth it feels the terrific pull of gravity. It is drawn down and down. It strikes the atmosphere with a force like hitting a brick wall. The solid meteor rubs through the air like a match scraping on a matchbox. This causes friction and friction generates heat. Like a match, the speeding meteor heats up and bursts into flame.

We see the glowing meteor fall down in a bright arc and it looks for all the world like a falling star. Thousands of little meteors strike the earth every day and night. Most are burned to ashes long before they reach the ground. If a meteor originally weighed more than ten pounds some of it may have survived the fall. It lands with a thud, after which it is called a meteorite.

No one knows for sure how the meteor dust and debris in the Solar System was formed. Some think the pieces may have been broken from a lost planet. Some could be dust left from a passing comet. At times there are meteor swarms and hundreds of them swoop down from a certain region in the sky.

Usually this follows the path of a long-tailed comet.

Andy sends a Hammond's Nature Atlas of America, to Kenny Whiteing, age 11, of Montebello, Calif., for his question:

How Big Is a Baby Kangaroo?

The giant of the family is the Great Grey Kangaroo, also known as Boomer. He may be seven feet tall and weigh 200 pounds. When cornered, no unarmed man is a match for old Boomer. Mrs. Boomer, called the Flyer, is somewhat smaller than her husband.

Junior Kangaroo is called Joey. The world does not see young Joey until he is big enough to peep out from Mama's fur-lined pouch. By this time the little fellow is six weeks to two months old.

When born, Joey looks like a naked, helpless little mouse. He is about one inch long. He goes right into Mama's cosy pouch where he clings to her fur, feeds and sleeps. As he grows he begins to take more and more interest in the big world outside. When he is about six months, he is too big for his furry cradle and ready to hop along on his own.

BOY SCOUT ACTIVITIES

By FREEMAN KING

SIDNEY GROUP: After five years service as chairman of the Scout group committee, J. Reid Hanna has retired. He will take charge of an Air Cadet squadron being formed in Sidney.

Allan Alexander, vice-chairman, has also retired. The positions have been taken over by J. H. Crossley and R. H. Turley respectively.

The interior of the Scout Hall, 3rd Street, has been redecorated. The walls have been covered with plywood, windows and doors fitted with new casings, and the whole interior painted.

The work has been done by the parents of the Cubs and Scouts, with a helpful donation by the Girl Guide Association of Sidney.

The committee is asking people not to leave papers and magazines at the hall as it is impossible to sell any of these articles.

QUAMICHAN GROUP: The toy shop that is run by the Scouts of this group is getting under way early this year.

Broken toys can be left at the Scouts' Hall near Maple Bay Road corner.

By starting early, Scouter Rod Gratten hopes to avoid a last-minute rush and prevent any undue haste in repairing of the toys that will be passed along to needy children.

Hitler's 'Jig' Propaganda Fake

LONDON (Reuter) — The famous wartime newsreel shot of Hitler doing his ridiculous "victory jig" after the fall of France was a British propaganda fake, the London Sunday Dispatch reports.

See The Butchart Gardens

The air is
warm & balmy

Relax and enjoy the rich tones of
Autumn in this sheltered valley.
Free use of umbrellas should it
shower. Coffee Bar open from 10
a.m. daily. Adm.: Adults \$1.10,
children 50c, inc. tax.

It quotes British documentary
movie pioneer Dr. John Grierson
as saying his trick cutting
of a German newsreel falsely
made the Nazi dictator look like
he was jiggling jubilantly after
seeing French leaders sign his
surrender terms at Compiègne,
France, in June, 1940.

"I was working on counter-
propaganda," Grierson is quoted
as saying. "Things looked black."
"Then I saw this German
newsreel (of the surrender cere-
mony). Hitler gave a slight
jump and lifted his right leg
and put it for a few seconds
behind his left knee."

"All I did was to freeze that
jump at its silliest point and
add a few frames of that mo-
ment to the film and there he
was doing a war jig."

TARGET of bouquets and brickbats during a two-week exhibition of his paintings here, Mexican artist Andres Salgo made his last appearance at the Art

Gallery Sunday afternoon, where hundreds of art lovers and curious citizens went to see for themselves. (Photo by Devenyi.)

Salgo: 'Adios, I'll Be Back' After 3,000 See His Show

An estimated 3,000 Victorians
thronged to Greater Victoria
Art Gallery to see the disputed
works of Mexican painter An-
dres Salgo, whose exhibition
ended Sunday.

Half of the crowd showed up
at the weekend, despite down-
pours, and on Sunday alone
1,000 people passed through
gallery doors.

They went for a final look at
a sample of work by the painter
who was branded "incompetent"
by a group of seven Victoria
painters.

Unperturbed, Salgo's final
comment on the artistic furor:
"I have great time in Victoria.
In 1961 I come back here, have
lots more fun. Adios!"

Meanwhile one of the writers
of the condemning letter, Dun-
can de Kergommeaux, said:

"I honestly think writing the
letter was a stupid thing be-
cause this man has capitalized
on it. We were crazy to write
the letter in the first place as
it did precisely what we did not
want it to do."

He said he "never saw any-
thing so disgusting" as the
publicity given to the dispute.

Salgo left the city Monday,
his paintings stacked away on
his car.

He is on the road to Calgary
where his highly-colored works
go on show Thursday. His
cross-Canada tour takes him to
Ottawa in December.

SPUN SUGAR AND SPICE

Attempted Rescue From Desert Isle

By AUDREY ST. D. JOHNSON
"The Little Hut," adapted by
Nancy Mitford from the French
of Andre Roussin. Directed by
Leslie Allen; assisted by Ger-
ald Guest.

Susan Anabel Cranston
Philip Ken Bostock
Henry Karl Wylie
The Stranger Cliff Clarke
The Monkey Deirdre Bumpus

Spun-sugar and spice are the
total ingredients of the latest
 concoction to be offered by Vi-
ctoria Theatre Guild to audi-
ences attending Langham
Court Theatre this week.

The French situation comedy
about two men and the wife of
one of them cast away on an
uninhabited island pokes whim-
sical fun at sex and in doing
so, succeeds in being disarm-
ingly and quite delightfully
funny.

After a rather hesitant start
the cast picked up confidence
and tempo on opening night

Saturday, and came so close
to achieving true sparkle
that subsequent performances
(nighly through to Saturday)
appear certain to succeed in
doing so.

Unfortunately the play itself
goes into a slipshod decline at
the end from which nothing
can rescue it.

Ken Bostock's role of the
adoring but philosophical hus-
band contributed to a large
proportion of the production's
success. He has a technical
suavity that gives polish to his
performance. He is able to
achieve the buoyancy essential
to continental comedy but does
not keep as sharp an eye as he
might for opportunities to vary
tone and pace.

A romping and vivacious
Susan was portrayed by Anabel
Cranston, who, except for oc-
casional moments of inaudibil-
ity, was attractive and con-
vincing if not quite the French
femme fatale.

EFFECTIVE MOMENT

Karl Wylie lacked a sharply
defined characterization and
showed a tendency to under-
play — in fact he failed to
score quite often when the ball
was fairly and squarely in his
hands. He is an actor, how-
ever, who shows signs of be-
coming a valuable asset to the
Guild once he learns the value
of emphasis.

Most effective moment of the
play is the entrance of "The
Stranger" and Cliff Clarke
made good use of this and, in
fact, every moment he was
on stage. As to appearance, make-
up and costume — these were
resplendent if totally inexplic-
able, being part of the play's
illogical and airy charm.

The actors had quite a task
in overcoming the general
"busy-ness" of the set which
without unity in design turned
out as something of a mish-
mash of ideas.

PUBLIC NOTICE

THE FOLLOWING RETAIL STORES WILL BE CLOSED ALL DAY WEDNESDAYS

BECAUSE

1. They feel their EMPLOYEES should get the same day off each week so they can plan their recreation.
2. They can give BETTER SERVICE to the public by having all their staff on duty five days a week rather than operate with different personnel off every day.
3. From experience they know that the EXTRA COST of being open 6½ days a week means HIGHER PRICES TO THE PUBLIC.

100 CARS FOR SALE

**ASTROLOGICAL
FORECAST**

WEDNESDAY, OCTOBER 15, 1958

ARIES (March 21 to April 19)—A.M. is apt to be
fraught with disagreements between bankers or experts
who derive their financial benefits from you. Retain
perfect equilibrium, please. Later, be off to some nice
spot with delightful companion for charming evening.

TAURUS (April 20 to May 20)—It does not behoove
you to argue with associate today or you hardly even
get a word in edgewise, let alone win out in any way.
P.M. is fine for accomplishing much at residence and enter-
taining there very successfully and happily.

GEMINI (May 21 to June 21)—Getting rid of that
mountain of work ahead of you requires that you
simply pitch in with vim and vigor, plan your labors.
See where you can install latest efficiencies, gadgets,
make the innovations that save both time and energy.

MOON CHILDREN (June 22 to July 21)—A.M. is
just fine to get together with vital persons to start that
upswing in combined enterprises. Then you are happily
aware of the fact that much harmony and assistance
of financial nature is forthcoming from family ties. Be
happy.

LEO (July 22 to Aug. 21)—Situation between a
stranger and a close tie requires you use different tactics
to bring about harmony and happiness. P.M. finds you
in a position to step out of dull routines and get
obligations met. Be happy with pals tonight.

VIRGO (Aug. 22 to Sept. 22)—The perfect day to
get all your shopping done and stock up the larder.
Then you can reflect upon all your social and intimate
relationships and know if you are headed the right way.
P.M. quiet talk with friend brings advancement.

LIBRA (Sept. 23 to Oct. 22)—A.M. is vital time
to attend to anything that has to do with finances. See
the right individuals. P.M. ideal for being with groups to
carry through some corporate venture.

SCORPIO (Oct. 23 to Nov. 21)—It behooves you
to be most tactful with others today, since they are very
opinionated. Hence, listen and do not be forceful in
any way. P.M. is fine for having most satisfying con-
ference with one in real authority.

SAGITTARIUS (Nov. 22 to Dec. 21)—It is very
probable that you can get rid of all annoying factors
in conjunction with both personal and business ties.
But be certain you have all your work caught up nicely.
P.M. be with charming pals at new locale.

CAPRICORN (Dec. 22 to Jan. 20)—Be sure to join
with those with whom you are most compatible in some
worthwhile venture today, but steer clear of any private
affairs of theirs. P.M. get good suggestions from expert
on any problematical affairs you have.

AQUARIUS (Jan. 21 to Feb. 19)—A day to be very
discreet in all your dealings with powerful persons or
you get in the middle of some unfortunate fracas. Listen
to views of intelligent associate concerning some up-to-
date ideas that benefit you greatly.

PISCES (Feb. 20 to March 20)—You are mentally
alive to the methods and intentions of others today,
plus knowing which are the better systems for you to
adopt in the future. Think out how to make them most
practical. P.M. use intuition re your job.

IF YOUR CHILD IS BORN WEDNESDAY
The interesting child born Wednesday is the inventive,
intelligent type, but one drawback is a poor sense of
timing during earliest years. Hence, your guidance in
this imperative, and since your youngster learns quickly,
the chart then becomes very good. The spiritual sense
and the practical ability will be co-ordinated nicely and
you will have a successful and happy progeny, a
charming adult.

Election 'Call to Arms' Sounded for U.K. Tories

BLACKPOOL, England (CP) — Prime Minister Macmillan Saturday issued a clear directive to his admiring Tory supporters to gird themselves for a general election.

Without giving any hint of the exact zero hour, he sounded a call to arms in almost every sentence of a fighting hour-long address before 4,000 applauding delegates at the final session of the Conservative party's four-day annual conference.

At the end, many delegates and some platform officials were predicting a spring election, with May suggested as the most probable month. This would be a year before the government's term of office expires.

Macmillan started by reminding the delegates that they were in the same Blackpool auditorium that was the site of the annual gatherings that preceded the election victories of 1951 and 1955. To a tremendous applause he continued, "Now, here we are again in 1958 getting ready to win a third."

NO TIMES FOR REST

He ended by warning that the party must guard against being "beguiled by the sweet music

of public opinion polls," which have recently shown marked improvements in the party's popularity.

"This is a time for action, not a time for rest."

Macmillan spelled out in general terms some of the policies he believes will prove election winners, including an "external" policy based on principals of "strength, unity and understanding."

He reiterated a willingness to attend a summit meeting inside or outside of the United Nations anytime. But the government must work for the maintenance of its defensive strength in NATO, SEATO and the Baghdad Alliance.

Repeatedly Macmillan referred to the necessity of maintaining unity with the United States and defended his action of not openly criticizing the Chinese offshore islands problem.

"On the strength of the United States and their continued interest in the world as a whole freedom largely depends," he said.

Opera Auditions For Local Talent In Late November

Again this fall local singers will have an opportunity to participate in the Pacific Northwest regional auditions held annually under auspices of the National Council of the Metropolitan Opera Association.

Local auditions will be held in the latter part of November at a location to be announced. Dr. Roger Manning will head a board of five auditors. It is also expected that Mrs. Raymond Locke Gardener of Seattle, chairman of candidates for the Pacific Northwest, will be present.

Those selected by the local panel as of a suitable standard may proceed to Seattle in January to take part in finals for this region. There is no limit to the number of singers who might be selected.

Those wishing to apply for audition may get forms and full particulars from the Western Music Company, Fort Street.

QUADRUPLT GIRLS BORN TO CARPENTER'S WIFE

DETROIT (AP) — Quadruplet girls were born Sunday night to Mrs. Julia Ullman, 33-year-old wife of a carpenter.

Each of the babies weighed four pounds or more. They were described as "strong and healthy" by hospital attendants.

The father, Chester Ullman, 34, said "Thank God" when notified his wife and the new arrivals were in fine condition. He said his wife's physician told them a month ago to expect the multiple birth.

The Ullmans have two other children, Charles, three, and Louise, one.

Science Now Shrinks Piles Without Pain Or Discomfort

Finds Healing Substance That Relieves Pain And Itching As It Shrinks Hemorrhoids

Toronto, Ont. (Special)—For the first time science has found a new healing substance with the ability to shrink hemorrhoids and to relieve pain and itching. Thousands have been relieved with this inexpensive substance right in the privacy of their own home without any discomfort or inconvenience.

In one hemorrhoid case after another, "very striking improvement" was reported and verified by doctors' observations.

Pain was promptly relieved. And while gently relieving pain, actual reduction or retraction (shrinking) took place.

And most amazing of all—this improvement was maintained in cases where doctors' observations were continued over a period of many months!

In fact, results were so thorough

that sufferers were able to make such statements as "Piles have ceased to be a problem!" And among these sufferers were a very wide variety of hemorrhoid conditions, some of even 10 to 20 years' standing.

All this, without the use of narcotics, anesthetics or astringents of any kind. The secret is a new healing substance (Bio-Dyne) — the discovery of a famous scientific institute. Already, Bio-Dyne is in wide use for healing injured tissue on all parts of the body.

This new healing substance is offered in suppositories or ointment form called *Preparation H*. Ask for individually sealed convenient Preparation H Suppositories or Preparation H ointment with special applicator. Preparation H is sold at all drug stores. Satisfaction guaranteed or money refunded.

Episcopal Church Elects New Bishop

MIAMI BEACH, Fla. (AP) — Rt. Rev. Arthur Carl Lichtenberger, Bishop of Missouri, has been elected presiding bishop of the Episcopal (Anglican) Church in the United States.

He becomes the spiritual leader and chief executive officer for the 3,000,000-member denomination, effective Nov. 15.

The 58-year-old Missourian was elected by fellow ranking prelates the 190-man House of Bishops, at the church's triennial general convention.

He succeeds Rt. Rev. Henry Knox Sherrill.

FAIRBANKS-MORSE

Silver Line for '59

Here, in these new F-M Television receivers, you'll find picture clarity, tonal brilliance and cabinet artistry that will convince you this is television reception at its finest. With the all-new "Silver Screen" picture frame and "Theatre Realism" sound system you can imagine yourself at the theatre while sitting at home.

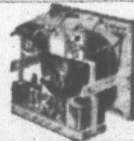

NEW SILVER SCREEN PICTURE FRAME — brushed satin silver frame and mask give added depth and dimension to picture.

NEW "CLEAR AS A BELL" SOUND SYSTEM — heavy duty P. M. speaker and multi speaker systems give full range of tonal reproduction.

NEW SLENDERLINE STYLING — 110" slim-minutized picture tube takes inches off cabinet depth, enabling set to be placed close to wall.

NEW HORIZONTAL CHASSIS — transformer powered for outstanding reception. Printed circuit eliminates trouble spots.

NEW ALL-CONTROL "UP FRONT" TUNING — with push-pull "on off" control for automatic adjustment of sound.

NEW VISUAL STATION SELECTOR — lights up automatically. Shows only channel selected.

THE MONACO — Compact table model; available with attractive matching base with grill, or with brushed silver legs. In walnut, mahogany or blonde.

THE LISBON — Luxury styled high fidelity console. Has three high fidelity speakers — separate bass and treble controls. In walnut, mahogany or blonde.

THE TRIPOLI — Beautiful, off the floor console. Sloping speaker panel has attractive silver grain grill cloth. In walnut, mahogany or blonde.

THE TYROL — Tastefully styled table model; available with gracefully tapered legs or smartly styled matching base. In walnut, mahogany or blonde.

THE CANNES — Gracefully proportioned console with sloping "V" speaker panel covered by silver bead grill cloth. In walnut, mahogany or blonde.

the surest ways to solve family problems

Most of your family problems can be traced to three sources. Dr. Norman Vincent Peale, the famous human relations expert, discovered this during his work with troubled families. Once you can recognize and understand these three basic problem areas you are equipped to overcome many family upsets. In a special article, Norman Vincent Peale tells the important things he has learned from the thousands of problems he has solved, and explains how you can easily apply this knowledge to increase your own family's happiness.

BAREFOOT MAN OF 189 FOUND IN IRAN VILLAGE

TEHRAN (AP)—The newspaper Ettelaat says a man aged 189 has been discovered living in Keluseh, a remote village in central Iran.

According to the report, the man, Sayed Ali never wears shoes and can walk two or three miles unaided after being helped on to his feet.

Ali is reported to have had a 120-year-old son, Hussein, who died several years ago in nearby Seireh village.

Black Orders Full Probe Of Mental Health Services

Inquiry Follows 'Economy' Charges

By PETE LOUDON

A full investigation of B.C. mental health services by a team of experts has been ordered by Provincial Secretary W. D. Black, it was learned today.

The investigation, which follows charges of unwarranted economy drives within the mental health service, will be carried out by officials appointed by the American Psychiatric Association.

A committee will be charged with examining present facilities and services and determining future requirements.

Mr. Black will attend a convention of the APA in Kansas City next week where he is expected to arrange the inquiry.

CENTRE OF CONTROVERSY

Although Mr. Black previously had resisted suggestions that there were faults in the mental health services, they were a centre of controversy during the legislative session earlier this year.

B.C. Medical Association, in convention at Kelowna last week, also heard charges by Dr. Frank Turnbull that health services in the province are deteriorating.

Mr. Black said he would announce, after the U.S. convention, what the specific objectives of the survey would be and whether findings would be made public.

In defence of the mental health services, he said:

"We are trying to do the best we can with what we have got. We have made every effort to get the necessary skilled persons; but we are suffering a shortage of trained personnel. It is an enormous problem and B.C. is not alone in it."

Dr. Turnbull bases his charges of deterioration on the lack of trained staff. He said the high turnover of staff was due to unsatisfactory working conditions.

Mr. Black's department had rejected an inquiry by a special committee of the B.C. Medical Association, he said.

Gordon Dowding, CCF MLA for Burnaby, charged Monday that Mr. Black "does not even have a clue" to what is going on in government health services.

In a CBC free-time political broadcast he said Premier Bennett Continued on Page 29

Reds Extend Cease-Fire For Two Weeks

TAIPEI (AP)—The Chinese Nationalists pushed their re-stocking of the Quemoy today as Red China extended its cease-fire in the Formosa Strait for two more weeks.

Quemoy's civilians relaxed. More farmers went to their peanut, sorghum and vegetable fields than at any time since the Communists started their artillery siege Aug. 23.

The main activity may now shift to diplomatic talks in Warsaw between Red China and the United States. The eighth meeting of ambassadors is Wednesday.

WASHINGTON (AP)— President Eisenhower Sunday hailed as "good news" Red China's extension of the Quemoy cease-fire for two more weeks. He pledged the United States would work for a negotiated settlement of the Formosa Strait problem.

TAIPEI (AP)— Vice-President Cheng Ching said today the Nationalists will not reduce the strength of their garrisons on the offshore islands.

CBC Appeals

OTTAWA (CP)—The CBC today asked the Supreme Court of Canada to reverse a judgment of the Ontario courts that it must stand trial on charges of violating the Lord's Day Act by broadcasting news on Sunday.

Negro Houses Bombed

CHICAGO (UPI)—Two bombs, exploding almost simultaneously, shattered the neighboring buildings housing two Negro families in a south-side neighborhood early today.

Phone 'Conniving' Charged by CCF

TORONTO (CP)—Two Ontario CCF leaders have suggested there may have been "conniving" between Prime Minister Diefenbaker and the Bell Telephone Company to permit a telephone rate increase.

Provincial leader Donald MacDonald and Thomas D. Thomas, member of the Ontario Legislature for Oshawa, made the suggestion Monday at the close of the party's three-day annual convention.

About 300 delegates unanimously approved a demand that the Ontario government take over the Bell system in the province. The resolution condemned Ontario's Progressive Conservative government for not joining eight other provinces in opposing the \$17,000,000-a-year rate increase for Ontario and Quebec, awarded to Bell last Friday by

the board of transport commissioners.

Mr. Thomas said last February's \$10,300,000-a-year award was disallowed by the federal government only because it was "embarrassing" before an election.

"Was there conniving between John Diefenbaker and Bell Telephone to postpone the increase until after the election?" asked Mr. Thomas.

"I don't know, but it's passing strange that three months after the election Bell should be back in there seeking an increase. And it's passing strange that Premier Duplessis of Quebec and Leslie Frost of Ontario are not opposing this application."

Party Leader MacDonald added: "It will be interesting to see whether the increase is turned down this time."

BIRTHDAY SMILE

U.K. Backs Year's Ban On A-Tests

UNITED NATIONS, N.Y. (CP)—Britain appealed to the Soviet Union today to join her and the United States in a year's suspension of nuclear weapons tests starting Oct. 31.

Minister of State Allan Noble told the United Nations General Assembly's political committee:

"We want the cessation of tests with real disarmament because only so will real security be achieved."

"The cessation of nuclear weapons tests is not in itself disarmament... It will leave a number of powers to go on amassing nuclear weapons as much as they please... The suspension of tests, however, may increase confidence and may help to bring about real disarmament."

Bells Toll Dirge As Pope Buried

(From Times News Services)

VATICAN CITY— Requiem services for Pope Pius XII continued today before a symbolic coffin in St. Peter's Basilica as cardinals gathered to elect his successor.

The late pontiff of the Roman Catholic Church was buried Monday in the grottoes beneath St. Peter's. An empty coffin was placed in the church for mourning masses that continued until Sunday.

The giant bells of St. Peter's Basilica tolled a dirge as the body of the Pope, encased in three coffins, was lowered into the massive stone foundations of the Basilica.

Twenty-two cardinals of the church, among them Paul-Emile Leger of Montreal, sat with bowed heads as the eulogy was read by Msgr. Nicola Metta, chosen by the cardinals for that task.

The mournful tones of the Miserere, chanted by the Vatican's Julian Choir, rose and fell through the recesses of the Basilica throughout funeral services.

STRANGE SOUNDS

Strange sounds marked the two-hour ceremony.

These included the rasp of brace and bit, screwdrivers, the pounding of hammers on a leaden coffin and the hum of acetylene torches that sealed it.

Above the incense, there was the odor of melting solder, and, at the end, the squeak of rope and pulley as the heavy, thrice-sealed coffins were lowered into the grottoes.

The titular bishop of Adana, Msgr. Diego Venini, celebrated today's mass.

CARDINALS ARRIVE

The cardinals already in the Vatican later received members of the diplomatic corps accredited to the Holy See. Eugene Cardinal Tisserant, dean of the College of Cardinals, is presiding over their official functions until a new Pope is chosen.

On Sunday, when the nine-day mourning period ends, the cardinals will receive special envoys of foreign governments paying their respects to the late Pope.

About a dozen cardinals were expected to arrive today to join the 28 already in the Vatican. All but two of the 52 cardinals probably will be here for the conclave beginning Oct. 25 to elect a new Pope. The two who won't make it are Alojzije Cardinal Stepinac of Yugoslavia and Josef Cardinal Mindszenty of Hungary.

SALGO GAINED LOOT, FRIENDS ON B.C. VISIT

(See also Page 21)

VANCOUVER (CP)—Mexican painter Andres Salgo, whose work was roundly criticized in Victoria last week, left the province today saying: "I like B.C. very much."

He said he was "richer in experience, friendship and money."

Salgo's exhibition in Victoria was denounced by seven artists there as junk. He replied by describing his detractors as house painters and barn painters.

The controversy is credited with attracting hundreds of people to the Victoria art gallery to see his works. He claims he sold 10 paintings.

His prices range up to \$1,000.

W. Indies Leader Urges More Trade

OTTAWA (CP)—Lord Hailes, governor-general of the West Indies federation, said today it is vital for the fledgling nation to "sustain and increase" the trading relationship that has existed for more than 300 years between the West Indies and Canada.

He expressed deep appreciation to the Canadian people for economic aid and said he is convinced from what he knows of West Indians that Canada's faith in the federation will not prove misplaced.

Lord Hailes, here on an official visit, was referring to Canada's five-year, \$10,000,000 program of aid, including two ships.

Labor Politics Backed By B.C. Civil Servants

(See also page 2)

VANCOUVER (CP)—B.C. civil servants have voted to strengthen their ties with organized labor.

They voted down a proposal not to support labor's political activities.

The decisions were made at the windup Saturday of the 15th annual convention of the B.C. Government Employees Association.

The association is affiliated with the Canadian Labor Congress which is committed to support the CCF party in forthcoming elections.

The association's actions could mean civil servants employed by the Social Credit government will be committed to the CCF in the next provincial election.

"Th' old sayin', whut goes up must come down, still holds but it's takin' an awful beatin'."

Lookin' into mental health seems a mighty sane suggestion.

I kin jist imagine th' day when we'll be 'squabblin' over offshore planets.

Two Extra Space Shots Approved for Air Force

CLIMBER LOST

Salt Spring Area Scoured For Plane

Search for a missing light plane from Vancouver narrowed to the Salt Spring Island area today as two aircraft and a fleet of small boats resumed an air-sea patrol started in bad weather Monday.

The plane vanished Sunday evening after the pilot called Vancouver airport for landing instructions.

The RCAF search and rescue centre said the pilot was John L. Duda, North Vancouver, who is well known as a mountaineer.

Bad weather restricted the search Monday and continued overcast skies in the south coastal area today limited the air search to two planes.

Duda called the airport when only 2 1/2 miles out, but did not reply when the airport radioed instructions.

Officials believe his radio went dead and that he lost sight of the field when making a turn and headed out toward the Gulf Islands.

Heavy clouds blanketed the Vancouver-Nanaimo area Monday.

Duda was returning alone from a logging operation at Gifford Island, 250 miles north-west of Vancouver.

Among his 30 mountaineering "firsts" in North America are ascents of Mount Princess and Mount Monarch.

Strike Ties Up BOAC

LONDON (Reuters)—British Overseas Airways Corporation arranged for its stranded passengers to fly by other airlines today as a wildcat strike by 4,000 maintenance workers brought London service to a halt.

NEW YORK (AP)—The U.S. Air Force was reported today to have been authorized to launch two space shots in addition to the three lunar firings originally assigned it last spring.

A Los Angeles dispatch to the New York Times said informed sources disclosed this Monday.

One is likely to be an attempt to gather scientific data in the vicinity of the planet Venus, it was reported.

'Man On Moon' Within 12 Years

(See Also, Page 3)

WASHINGTON (CP)—A prediction that man will set foot on the moon in 12 years has followed the plunge to disintegration of a lunar-bound rocket that knifed nearly 80,000 miles into space.

Maj.-Gen. John B. Medaris, U.S. Army missile chief, made the prediction Monday at a press conference at the National Electronics Conference in Chicago.

After calling the U.S. Air Force moon rocket a spectacular success, Medaris said the army is right on schedule with a moon shot of its own. He said chances are about 50-to-50 the army shot will get into the area of the moon.

He added chances are not good that the rocket, using a Jupiter ballistic missile for the first stage, will orbit the moon.

Medaris said the army intends to have more ground control over its shot. This indicated the army may be able to make in-flight corrections in the direction.

Failure of the air force Pioneer missile, which disintegrated unobserved over the South Pacific Monday after soaring to a record 79,120 miles, has been attributed to a three-degree error in trajectory.

Word from the Cape Canaveral, Fla., launching site of the Pioneer is that another moon rocket try will be made between Nov. 8 and Nov. 11, when the moon is closest to the earth—some 223,000 miles. Unofficial word is that the army may

make its bid in December and January. The first air force moon rocket, launched Aug. 17, exploded after 77 seconds.

He said he was "richer in experience, friendship and money."

Salgo's exhibition in Victoria was denounced by seven artists there as junk. He replied by describing his detractors as house painters and barn painters.

The controversy is credited with attracting hundreds of people to the Victoria art gallery to see his works. He claims he sold 10 paintings.

His prices range up to \$1,000.

W. Indies leader urged more trade.

ACROSS THE PROVINCE

Gunfire Marks Rescue at Sea, Medic Charged

(From CP Dispatches)

VANCOUVER—A Vancouver surgeon was charged with operating a vessel while impaired Monday after four RCMP officers took the man from his grounded yacht following a shooting affray.

Dr. C. E. Battle, aged about 50, was remanded to Oct. 22 and released on his own recognizance when he appeared in North Vancouver police court.

RCMP appeared on the scene after would-be rescuers were greeted by gunfire in the early morning incident off Gambier Island in Howe Sound, 30 miles northwest of here.

RCMP air-sea rescue officials here said they began receiving distress calls from the yacht Farnack at 9:30 p.m. Sunday. A "drunken" voice said the vessel was stuck on a reef in centre harbor at Gambier Island and was in danger of capsizing. The calls lasted for 1½ hours.

A water-taxi from Horseshoe Bay, on the mainland near the mouth of Howe Sound, located the yacht but the crew said when they approached the Farnack they were greeted with shouts and curses. A man on deck told them: "We don't need rescuing."

The taxi's crew reported they were then shot at.

A Vancouver city police launch then took the RCMP officers to the grounded vessel and a man was arrested.

FIRE DESTROYS SCHOOL

PENTICTON — Fire destroyed a Penticton elementary school early today.

Burned was an H-type army hut school on Jermain Avenue, which was attended by about 200 pupils.

The fire was discovered shortly after 2 a.m. in the western portion of the building and quickly spread through the entire structure despite efforts of firemen and four fire trucks.

HOTEL ROBBED, TRIO HELD

ALDERGROVE—Two armed men bound and gagged the manager of the Aldergrove

Hotel early today and made off with \$1,600 cash from the hotel safe.

Less than an hour later police said they recovered the money and took three suspects—two men and a woman—into custody.

RCMP said the three suspects were taken into custody after being stopped at a roadblock in nearby Surrey. Police said two guns were found in the car.

SPORTS CAR WINNERS

VANCOUVER — Driver Ron Moscrop and Navigator Rex Scofield have won the three-day Cariboo sports car rally in which 48 driver-navigator teams, members of the B.C. Sports Car Association, took part.

The first leg of the rally was from Vancouver to Lillooet; the second from Lillooet to Clinton; and the third back to Vancouver. The total distance was about 900 miles.

DRIVER CHARGED

HOPE — Gordon Ray Nicholson, 23, of Hope has been charged with failing to remain at the scene of an accident in connection with the traffic death of a pedestrian Saturday at Hope.

He was scheduled to appear in police court today. RCMP have not released the name of the dead man.

BOY STABBED

VANCOUVER — Police are investigating the possibility of a "war" between gangs of teenagers following the stabbing of a 15-year-old boy by another youth Sunday night.

In good condition in hospital is Siegmund Warner, of Vancouver, suffering from a knife wound in his abdomen.

PENSION ACT SOUGHT

Vancouver Man Heads B.C. Staff

B.C. Government Employees' Association wound up its annual convention at Vancouver Saturday with election of Walter Ellis as 1958-59 president.

Victorian Larry Huck of the attorney-general's office was elected second vice-president. First vice-president is Dave Block of Nanaimo.

The new president is chief clerk of the lands registry office in Vancouver. He is 33. He succeeds Larry McPhail of Nelson, who served for only two weeks after Joan Gower of Victoria left to take up a teaching post before her term of office expired.

Treasurer is F. H. Howarth, department of labor, Vancouver and New Westminster.

Re-elected members of the executive were: Gas Devitt, Motor Carrier Branch, Vancouver; J. E. Hay, department of highways, Maple Ridge; Carl Hawcks, Woodlands School; L. A. McPhail, attorney-general's department, Nelson; J. G. (Jerry) Ritchie, department of finance, Duncan; J. D. Sutherland, department of highways, Prince George; Miss Roberta

Wagner, department of health and welfare, Duncan.

Newly-elected members were G. A. Broomfield, department of finance, Vernon; A. L. B. Clark, department of labor, Kamloops; D. J. Kidd, department of labor, Kelowna; Mrs. Jean Sias, department of health and welfare, Vancouver; D. M. Smith, department of provincial secretary, Essondale.

The association's final sessions decided to ask for a new superannuation act and to ask that Liquor Control Board employees be allowed to meet department heads.

Members felt the present superannuation act is a "patch work" of amendments. Studies will continue toward formulating improved standards on which a new act could be based.

The question of LCB employees' rights arose when it was reported all requests for meetings have been turned down by personnel authorities. The BCGEA will work "through the attorney-general if necessary" for the right of any group to meet department heads on request.

WORLD'S TALLEST TOWER ERECTED BY JAPANESE

TOKYO (UPI)—Workmen installed an 82-foot antenna atop Tokyo's "television city" tower today, making it the tallest free-standing tower in the world.

The 1,092-foot tower stands 108 feet taller than Paris' Eiffel Tower, nearest competitor in its class of structure.

The Tokyo tower rates third among man-made structures, trailing a 1,610-foot supporter tower in Roswell, N.M., and the 1,472-foot Empire State Building in New York City.

The tower's closest competitor in Asia is a 557-foot television tower in central Japan.

City Woman Refused Re-Entry Into Canada

SEATTLE (AP)—Mrs. Hazel Anna Wolf, 60, whom the United States has been trying to expel since 1949, will not be accepted for deportation by her native Canada, her lawyer, John Caughlan, said today.

Caughlan said he had been informed that under a Canadian law in effect up to 1932, Mrs. Wolf lost her Canadian citizenship Dec. 30, 1926, when she married Herbert Dunning Wolf, an American citizen, in Portland Ore.

The government has been trying for many years to deport Mrs. Wolf on grounds of Communist party membership. She was born in Victoria, B.C., but has lived in the United States since 1922.

False Teeth Often Have a Certain Odor!

Soak your plates in Polident daily to avoid "Denture Breath"

Polident is the specially designed cleanser that keeps false teeth—and breath—clean and fresh always. Follow these simple rules:

1. Never use a brush on them! Your dental plates are much softer than natural teeth. Brushing wears down fitting ridges so they get loose.

2. Never use soap or toothpaste! They can leave film which collects bacteria and food particles, a major cause of offensive "Denture Breath."

3. Use a soaking-type cleanser made for false teeth only... Polident! Polident is the denture cleanser recommended by more dentists than any other. No brushing, no handling of soapy plates that can slip and break. Polident gets where a brush can't reach. Best of all, Polident always leaves false teeth odor free. Get the world's largest selling denture cleanser, Polident, at your drug counter.

Caughlan said the Canadian ruling was made in Ottawa by Laval Fortier, Canada's deputy minister of citizenship and immigration.

District director John Boyd of the immigration service said he had not been informed of the ruling.

Saudi Arabia Oil Deal Threatens Whole Industry

ROME (AP)—Saudi Arabia is a difficult decision. Under its concession agreement, it must be given an opportunity to meet these terms. But in doing so it could increase heavy pressures upon its own organization.

The deal now is to be placed before the board of Standard Oil Company of Indiana, an independent company. It would strike a new blow at the 50-50 concept of oil profit sharing in the Middle East. In addition, it would prescribe Saudi participation in operations and profits all the way to the consumer in an "integrated" company.

If Indiana Standard accepts the terms, now being offered on an all-or-nothing basis by Saudi Arabia, the giant Arabian American Oil Company Aramco faces

a difficult decision. Under its concession agreement, it must be given an opportunity to meet these terms. But in doing so it could increase heavy pressures upon its own organization.

The deal is being negotiated by Frank C. Hendryx, an American lawyer retained by the Saudi Arabian government. If it is accepted, or if the terms are met by Aramco, it then goes before the government for final approval.

The company involved is Pan-American Petroleum Corporation. This company is owned, through another affiliate, by Indiana Standard.

Pan-American already has breached the 50-50 pattern in non-Arab Iran. It concluded a

deal with the National Iranian Oil Company giving the government a half interest in a joint producing company. Thus, Iran gets half the profits as host government and half the producing company profits. This became known as a 75-25 deal.

ASTHMA MUCUS LOOSENED WHILE YOU SLEEP with New Wonder-Worker
TORONTO—Special: Thanks to new scientific laboratory formulations, thousands of children as well as adults now avoid much severe wheezing, sneezing, rattling, difficult breathing, coughing and stuffiness during recurring attacks of Bronchial Asthma, Hay Fever and Bronchitis by taking New Wonder-Worker Working MENDAGO. The first dose starts combating allergy, helps relax bronchial tubes and remove thick, sticky mucus from bronchial and nasal passages. When you can breathe freer, you sleep sounder, feel stronger, work easier. Get Laboratory Tested and Certified MENDAGO from druggist today without prescription. See how fast you improve.

'A Fine Night for Singing'

THIRTY-ONE years ago I tried to lead the boys in a little Rombert. There was nothing fancy or formal about it. We were just standing around the piano in the Blue Room at Craigdarroch and had belted out the drinking song from "The Student Prince."

That was our popular number. It was one of the few pieces Don Watson could play by ear and as the piano went, so went we. Leading the boys involved the simplest of techniques. You merely yelled out the first line of the next song sooner than somebody else could dredge up another. The guy with the loudest voice usually led.

So while the boys were catching their breaths after the last "Drink! Drink! Drink!" I quavered forth with "The fragrance of springtime is round us tonight, Enchantment is borne on the breeze."

And right there I discovered the weakness of our system of leading. If nobody else knew the words and weren't ready to mumble, a guy found himself giving a solo.

It's a little embarrassing when you're shooting up and down octaves you can't quite handle and the others are standing around with feigned politeness waiting for you to crack wide open.

Enchantment died right there on the breeze. Then Reg MacKay boomed out "Here's to the good old Bass" and personal confusion was drowned in vocal chaos.

With a few rare and inspired exceptions, when I've tried to carry the crowd in the "Wiffenpoof Song," I have never attempted to lead since that time.

Around the piano in the Blue Room at college I was content to follow easily behind John Shaw in the soulful rendition of "Tiddy-aye-ay to the One-Eyed Riley"—a subjective little number that showed up most unexpectedly years later in T. S. Eliot's "Cocktail Party."

Oh sure, I'd reach for the tenor in "Down

YOUR HEALTH

Emeritus Consultant in Medicine, Mayo Clinic and Emeritus Professor of Medicine, Mayo Foundation

In the report of a fine study made of 350 cases of acne by Dr. F. L. Backer, of Duluth, he points out there are two main types of acne: one milder than the other and less likely to produce deep pitting; and the treatment for the two types is not quite the same. The treatment of acne in girls and young women often has to be different from that for boys and young men.

Because acne usually comes with puberty, and often quits by itself when the person is over 20, and because acne appears in some middle-aged persons when they get a tumor of the adrenal glands, it seems obvious that a big factor in the production of the pimples must be some abnormality in the youngsters' internal secretions.

Just what this abnormality is is not yet clear because measurements of the amount of male and female sex hormones in the patient's blood have not always shown a decided abnormality in the glandular functions. Bacteriological studies have not helped much because so often they have shown in the pimples only the bacteria that are found commonly in the normal skin.

Some children appear to have been born with a tendency to get an overly greasy skin, in which the fat-forming glands—which make the black-heads—are too active. To quiet these glands, many skin specialists use a small dose of X-rays. This helps many patients. Today many are helped by the taking for considerable periods of time of small doses of an antibiotic. This tends to hold down the infection.

Some patients, both boys and girls, are helped when given small doses of female sex hormone. This may be particularly helpful to girls who tend to get a bad flare-up of their acne with each period. They must be given the "estrogen" only in the second half of their inter-menstrual period. Some youngsters are much better when their blackheads are squeezed out each evening (with a "comedone extractor," purchasable in a drug store) before they become infected and turned into pustules.

Some skin specialists believe that in some cases acne flares up when the teen-ager eats too many chocolate malted milks or other rich foods. What is sad is that many youngsters haven't the money to pay for a long course of treatment by a skin specialist.

Dr. John L. Reichert, assistant professor of pediatrics in Northwestern Medical School, Chicago, recently wrote an interesting article. He said that during the last 20 years the incidence of many of the formerly-serious diseases of children has decreased by about 90 per cent. For instance, in Illinois there has not been a case of smallpox reported since 1947; diphtheria is so close to the vanishing point that there were only 15 cases reported in 1952.

There were only 31 cases of lock-jaw reported. In 1942 there were 11,759 cases of whooping-cough reported, whereas in 1952 there were 700. Anyone who thinks whooping-cough is a mild disease should take care of a small child who suffers with it day and night for six weeks or more.

Dr. Reichert says what I have often said in this column, which is that although these tremendous improvements, which are due to the early vaccination of all children, are inspiring, we must worry about the future. This is true because when people no longer see a disease, they lose their fear of it, and the next thing they do is to refuse to let their health officers carry out the regulations which are still so essential if the children are to remain protected.

Dr. Reichert points out that often, when our people travel abroad in countries in which preventive medicine is not carried out as carefully as it is in this country, they can easily get into trouble. For instance, when soldiers in the Second World War went abroad, many of them contracted diphtheria due to the variety of the germ, not common here, and from which they are not adequately protected. Recently, in a foreign country, there was an epidemic of diphtheria among adults. As Dr. Reichert says, we physicians see much less diphtheria today than we used to, but what we see is very severe, and commonly it attacks adults. Unfortunately, it is easy for an adult to die of an atypical diphtheria before someone recognizes what he has.

People ask, What is hydrocephalus? It is a disease in which fluid accumulates inside of the brain and causes the head to get bigger and bigger. In the worst cases so much fluid forms inside the brain that the brain tissue is compressed, and the child is left mentally retarded.

Doctors can attempt several types of treatment, but none are very hopeful. Fortunately, in some cases the process stops and the child grows up into manhood or womanhood.

WEATHER SYNOPSIS

CITY'S WEATHER RECORD
Sunshine, 1958 2,174.4 hrs.
Last year 1,999.9 hrs.

PTAs Discussing Education Survey Questionnaires
PTA groups in Greater Victoria continue a fall series of meetings this week when discussions on the questionnaire for government education survey and social activity plans. Oakland, Quadra and James Bay PTA groups will discuss the survey plan at meetings tonight at 8 in their respective schools except James Bay which meets at South Park School. George Jay Home and School Club meets tonight at 8 in the school auditorium to discuss plans for a fall fair.

Bells of Ireland Ring True

Bells of Ireland is the catchy name of a plant which has intrigued gardeners who visited the local flower show this year. It has also been featured in most gardening periodicals for the past 18 months.

Some 12 years ago we included Bells of Ireland in a seed order as something new and unusual to try for that season. Without doubt it proved a novelty although I would hesitate to describe it with the superlatives used by some catalog and advertisement writers.

The whole plant is pale green in color, with tiny white flowers spaced the length of the stems. The unusual feature is that the flower is set in a large pale, green, bell-shaped calyx which persists after the flower has faded. Hence the name Bells of Ireland.

It is not so new as some would have us believe. A native of Western Asia botani-

cally known as *Moluccella laevis*, it has been introduced to previous generations of gardeners as the Shell Flower, *Molucca Balm*, and the Loudspeaker Plant.

For years it was known by the Afrikaans name of Voortrekker Kappies because the bells resembled the bonnets worn by the women of the Dutch pioneers in South Africa.

The plant is an annual easily grown from seed, but must be sown indoors early in spring in order to flower during our summer.

It can stand outdoor conditions after about the middle of May.

It is worth adding to your list of seeds, such as lobelia and snow-on-the-mountain, which must be ordered in January and sown in February.

FALSE TEETH

can't be cleaned like natural teeth

Let's face it. Dentures may look natural but they just can't be cleaned like natural teeth. You may have noticed the way unsightly stains appear on the plate and on the teeth themselves.

The answer to the problem of cleaning false teeth is to use Steradent every day. It's specially made for the job. Steradent cleans dentures gently, thoroughly and safely. Steep your dentures in Steradent every day. Stains will vanish. Both teeth and plate will be clean and pure in every crevice.

STERADENT
Reg'd.
specially made to clean dentures properly

You can prove Steradent's superiority without risking a penny. For free sample, fill out this coupon and mail to: Reckitt & Colman (Canada) Limited, Dept. A, 1000 Amherst St., Montreal, P.Q.

new Toni discovery!

a new wave result—
HIDDEN BODY

The secret is
new
conditioning
liquids

RUN YOUR FINGERS THROUGH YOUR HAIR!

Feel something new? It's Toni's HIDDEN BODY!

A remarkable new wave result... you can reveal or conceal. With HIDDEN BODY in your hair you can fluff it up to as much curl as you want. It stays up. Or you can smooth it down to the sleekest style. It stays smooth... never goes limp. You get the most manageable wave ever!

Curly styles... softer, lovelier!

With HIDDEN BODY your hair is softer, more manageable than ever before! And when you fluff it up it won't come down... even in dampest weather.

Smooth styles... never droop!

Even when Toni's HIDDEN BODY doesn't show... you know it's there! It keeps your hair from drooping... won't let it go limp. Makes smooth hairstyles look alive.

Put HIDDEN BODY in your hair!

No matter how you wear your hair—curly or smooth—Toni's HIDDEN BODY will hold any style... any set... like no other permanent can! Try it!

Putting Them in Shorts Is Tough

By PETE LOUDON
(See also page 17.)
A broadened and imaginative activity program will prove effective in keeping older boys within the Boy Scout movement, Commonwealth Chief Scout Lord Rowallan said in an interview here Monday.

But he recognizes the problem involved in requiring teenage boys to wear shorts.

"A lot of people are giving careful consideration to that at home," he said.

"In general, in the United Kingdom, there are few boys for

whom shorts are a vital cause for their going out. There will always be certain boys who have had enough," before completing the Scout program, he thought.

"We believe, if we give them Scouting as Baden-Powell gave it to us, we can do a great deal to retain them."

He said the boys of 15 in the

United Kingdom are involved in canoeing, gliding, mountaineering and cave exploration.

Lord Rowallan disagreed with the theory that the large number of organizations open to teenagers would eventually mean shrinking of the Scout program to encompass the eight to 14-year-olds only.

When a boy progresses from Wolf Cub to Queen Scout or Rover, "he is far better fitted to face life," said the Chief Scout.

The great point is to get the public to realize what Scouting has accomplished in the world today. It has been one of the greatest influences in bringing

the people of the world together "... one of the prime influences for good and stability in the world."

Men, Women! Old at 40, 50, 60! Want Pep?

Want to Feel Younger? Thousands around the world are taking Pep. For body that stays 40, 50, 60, 70, 80, 90, 100, 110, 120, 130, 140, 150, 160, 170, 180, 190, 200, 210, 220, 230, 240, 250, 260, 270, 280, 290, 300, 310, 320, 330, 340, 350, 360, 370, 380, 390, 400, We'll Take Care of This One, Roy

Hard-hitting protection from his mates helped Calgary goalie Roy Edwards close door on Victoria Cougars in third period of Western Hockey League game at Memorial Arena Monday. Edwards stopped 14 Cougar shots in final period as Stampeders scored

twice to wind up with 5-3 victory. Edwards smothered shot as Cougar Gordie Haworth (right), trying to get in for try at own rebound, finds path to goal barred by Aut Erickson (5) and Don Ward. (Times Photo by Irving Strickland.)

Lions Have Cause for Thanks With Dorow on Their Side Now

By The Canadian Press

Al Dorow, the castoff quarterback, has become the overnight hero of the upstart British Columbia Lions.

He went to Regina Monday and threw four touchdowns passes against Saskatchewan Roughriders, the club that cut Dorow in mid-season. Paul Cameron caught two of them and scored another TD by intercepting one of Rider Frank Tripucka's passes.

It all went for a 34-16 win for Lions—their third straight victory after losing 10 consecutive games.

Just 48 hours earlier in Winnipeg, Lions recorded 1938's biggest upset in the Western Football Conference by beating the league-leading Blue Bombers 10-8 on Ted Hunt's 14-yard field goal in the last two minutes.

Dorow strutted his stuff in that one, too. He and Cameron caught Bombers off guard with a 61-yard sleeper play, and when that didn't pay off Dorow sent Cameron running. Trapped, Cameron whirled and passed back to Dorow who threw to Vic Chapman in the clear. Chapman went for the touch-down on a whacky play that covered 67 yards.

Now, having beaten Calgary Stampeders 14-13 a week ago in Dorow's first appearance with the Lions, coach Dan Edwards' club awaits Edmonton Eskimos in Vancouver next Saturday when they'll try for a four-game, four-team sweep.

Cowboys Fade in Late Stages

Eskimos have been making their own mark. At home Saturday night, Normie Kwong scored a third-quarter touch-down to beat Stampeders 17-10. Thirty-eight hours later in Calgary, Eskimos came from behind again with Johnny Bright bulling over at 13:43 of the fourth to give Edmonton a 19-14 victory.

The twin losses dampened Calgary's playoff hopes. Bombers still lead the league with 20 points, followed by Edmonton with 15 and Saskatchewan with 13.

Cub Manager Gets Reward

CHICAGO (AP)—Bob Scheffing Saturday was given a one-year contract to again manage Chicago Cubs in 1959.

Contract terms were not revealed, but Cub vice-president John Holland said "we all feel that Bob did a fine job in 1958 and our appreciation was shown in his 1959 contract."

Scheffing guided the club to a tie for fifth place, their highest finish in six years. He became manager in 1957.

FIGHT RESULTS

SAN FRANCISCO—Paulo Rossi, 133½, New York, knocked out Bobby Scatlon, 125½, San Francisco, three.
NEW YORK—Joe Torres, 158½, New York, knocked out Frankie (Kiki) Annunzio, Philadelphia, nine.
NEW ORLEANS—Charles Joseph, 158, New Orleans, outpointed Norris Burze, 159, Houston, 10.
TAMPA, Fla.—Claude Williams, 158½, Tampa, stopped Lee Bailey, 160½, Detroit, seven.
PROVIDENCE, R.I.—Curly Monroe, Worcester, Mass., outpointed George Araujo, Providence, 10 (lightweights).

ROUND TABLE TOPS . . . BUT WATCH JUVENILES!

Bank Accounts Blossom

NEW YORK (AP)—Round Table is the world's richest horse but on the basis of the frequent trips the two-year-olds of 1958 are making to the bank, the new champion's reign may be a short one.

The four-year-old from Travis M. Kerr's barns finally overhauled Nashua Saturday when he won the \$123,850 Hawthorne Gold Cup at Chicago and collected \$73,250. This boosted his earnings to \$1,336,364 compared to the \$1,288,565 won by Nashua before his retirement two years ago.

After failing in three rich races to pick up the necessary

cash to put him on top, Round Table accomplished the feat with a track record performance of 1:59 4/5 for 1¼ miles. Under Willie Shoemaker he finished 2¼ lengths in front of Swoon's Son, who ran his total earnings to \$970,605.

Round Table won only \$73,326 as a two-year-old. But First Landing from C. T. Chenery's stable already has banked \$215,970 following his triumph in Saturday's \$151,300 Champagne Stakes for juveniles at Belmont Park.

The top money winning two-year-old is Restless Wind who has won \$288,048.

Ahead of one of the finest groups of two-year-olds to match strides in recent years is the world's richest race—the Garden State Stakes Oct. 25. It'll be worth in the neighborhood of \$285,250 with the winner, if there are as many as 12 starters, picking up \$171,150.

A victory for Restless Wind in the Garden State would boost his total earnings to \$459,380. A First Landing triumph would bring his total to \$387,120. Either figure surpasses the all-time two-year-old record of \$349,642 established by Jewel's Reward last year.

WILL KEEP BOTH

Grant has retained both quarterbacks, indicating he may either go with Ploen at halfback or alternate the two at quarter. Both also are considered standard defensive halves.

Cut along with Stransky were halfback Bob McNamara, who has been plagued with injuries since joining the Bombers from the University of Minnesota four years ago; tackle Fred Thurston, and end Bob Guderaman.

Stampeders Show Cats Skating Paves the Way

Cougars Slow on Defence; Drop Decision to Calgary

Calgary 5, Victoria 3
By DOUG PEDEN

Ice hockey is specifically designed for skating. Other things are important, but mechanics of the game demand that the road to victory be carved by continuous and vigorous application of steel.

Victoria Cougars attempted to get by with a 60 per cent effort in the skating department in their first home game of the Western Hockey League season at Memorial Arena, Monday, and learned it didn't work.

Calgary Stampeders had no such revolutionary ideas. The Stamps stuck to the proven formula of "skate, skate and skate some more." When they found themselves in trouble, they merely bent their backs a bit more and pumped their legs a little faster.

The result was that the Prairie Division Cowboys gradually took the Cougar machine apart. They collected more than their rightful share of loose pucks and careless Victoria passes and, too often skittered

unmolested past Cougars drifting aimlessly in front of goalie Marcel Pelletier.

They had to come from behind to do it, but the Stamps, who had managed only one goal while losing their first two starts, gleefully wrapped up an unpleasant Thanksgiving Day package for the enthusiastic opening-day crowd of 4,459 fans by clipping the Cats 5-3.

Still, it was far from a wasted afternoon for the customers. Although the Cougars—as might be expected since three of their defencemen joined the club only in time for Friday's opening game at Vancouver—lacked cohesion all the way, they showed a lot of fire as they built up a 2-1 first-period lead.

Most Troubles Were Behind Blue Line

Their scrappy play on attack almost made up for spasms of skating amnesia and defensive lethargy in the second period, and the session, which ended in a 3-3 deadlock, was one of the fastest and most interesting at Memorial Arena in the past couple of seasons.

Cougars appeared to tire in the third and were unable to keep up with the fast-moving Stamps. Most of their troubles were behind their own blue line and they managed to break out often enough to level 14 of their total of 27 shots at goalie Roy Edwards. And it took bad luck on three fine plays to keep them from breaking into the scoring column again.

Not all the Cougars were

travelling in second gear. Al Nicholson, a lean winger with a blistering shot, made a lot of new friends. He got the Cats out in front with two goals in 37 seconds, the second on an electrifying solo dash past three defencemen.

George Ford, who notched his third tally in two games, and linemate Murray Wilkie were willing workers. Gordie Haworth and Stan Balluk each came up with a couple of good rushes and Jim Hay made some effective moves on defence.

Pelletier was the busiest man on the ice. He blocked a total of 38 drives and his quick reflexes kept the Cougars in the battle until the dying minutes.

Eddie Worked Like Beaver for Stamps

One of Pelletier's chief tormentors was Eddie Dorohoy, shifted from Victoria to Calgary in an off-season trade, who worked like a beaver in his first appearance against his old mates and collected three assists.

After hustling Fred Hiltz fired Calgary's first goal. Dorohoy led scoring passes to Rino Robazzo, Bruce Lea and Ron Leopold. Fred Hucul, who always seemed to be in the right place at the right time, wrapped up the scoring with five minutes remaining.

SPOKANE DRUBBED

Fielder Puts In Early Bid on Title

By The Canadian Press

Almost 24,000 fans cheered the Western Hockey League into full seasonal existence over the Thanksgiving weekend with a six-game, 48-goal spree that saw Guyle Fielder of Seattle again take the lead in the scoring race.

New boy of the league, the Spokane Flyers received a severe away-from-home initiation against the Seattle Totems, dropping a 10-2 decision in Seattle Sunday, after winning 5-4 against the same team Saturday in Spokane.

In other Saturday meetings, Vancouver wilted before New Westminster Royals 4-2; Edmonton Flyers took a 3-1 win over Calgary and Winnipeg Warriors lost to Saskatoon Quakers 6-3.

WHL president Al Leader's weekend statistical roundup, which did not include Calgary's 5-3 victory over Victoria Cougars on Monday, showed Fielder ahead of the goal-shooters with

seven points in two games. Fielder is the holder of the all-time professional scoring record of 122 points for one season, and is a three-time winner of the WHL scoring crown.

Second are teammates Val Fonteyne and Bill McFarland, each with five.

The top-scoring game of the season Sunday made the scoring list look like a Seattle team lineup, and enabled Don Chipuka to net the year's second hat-trick.

Seattle scored five times in a wild final period.

Calgary meets Seattle and Edmonton plays Saskatoon tonight.

STEELERS WIN

Colts, Browns Stay in Front

NEW YORK (CP)—Cleveland Browns and galloping Baltimore Colts rolled past rivals Sunday to cap three-game winning streaks and retain their position as National Football League leaders.

Cleveland's Jim Brown and Bob Mitchell scored four touchdowns between them for the leading Eastern Division team's 35-28 victory over Chicago Cardinals.

Baltimore, heading the Western Conference, put on a come-from-behind effort that overcame Green Bay Packers 24-17. In other games, Los Angeles Rams choked off a pair of bold scoring threats to down Detroit Lions 42-28. Pittsburgh Steelers regained new life after two previous defeats to upset Philadelphia Eagles 24-3. New York Giants flattened Washington Redskins 21-14 and Chicago Bears routed San Francisco 49ers 28-6.

Los Angeles scored twice in the final 55 seconds in the Lions-Rams game. Joe Marconi and Jon Arnett nipping over the line.

Quarterback Bobby Layne breathed new life into Pittsburgh who took an early 7-0 lead on Tom Tracy's 31-yard reverse around left end. The Eagles' only score came on a 36-yard field goal by Bobby Walston.

The Steelers victory followed the controversial trade in which the Lions sent the popular Layne to Steelers for Earl Morrall.

The Browns' Bob Mitchell counted once on a 63-yard run and set up another with a 52-yard punt to Chicago's one-yard line. Jim Brown scored three touchdowns to run his three-game total to eight. A pass from quarterback M. C. Reynolds to halfback John Crow went for a 91-yard Cardinal touch-down.

The Colts intercepted a pass with Andy Nelson zigzagging 52-yards for a touchdown was the last-minute score Baltimore needed to nose ahead.

HE FINES 'EM

My, What Big Ears And Eyes Frick Has

NEW YORK (AP)—Ryne Duren couldn't keep his temper and Milwaukee Braves couldn't keep a secret.

The result: Duren is out \$250 and 22 members of the National League Braves are minus \$50 apiece as a result of punitive action by Baseball Commissioner Ford Frick.

Frick's wrath fell on Duren because the New York Yankee pitcher made a "choke-up" gesture at umpire Charlie Berry in the 10th inning of the sixth game of the world series after Johnny Logan walked.

Duren was annoyed when Berry called the fourth ball on Logan. He walked from the mound and said something to the umpire. That didn't bother Frick.

But Duren turned back to the mound and placed his hand on his throat, the traditional choke-up sign in baseball. The count had been 3-2 on Logan and Duren was accused of indicating Berry didn't want to call a third strike on Logan before the partisan Milwaukee crowd.

The fining of the Braves was more involved. It marked the first time in world series history that almost a whole team has been fined.

It came about because some

one told how the Braves were going to share their series swag. The commissioner's office insists it alone can make the announcement.

Frick's men tried to track down the culprit. No one talked. So Frick fined all 22 players who attended a meeting where the series split was discussed.

Mustangs Tamed

KAMLOOPS (CP)—Kamloops Kougars downed Chilliwack Mustangs 18-6 Sunday in the last home game of the year for Kougars of the B.C. Intermediate Football League. It was the second victory in five starts for Kamloops.

SYDNEY, Australia — Johnny Van Rensburg, 145½, South Africa, outpointed George Barnes, 147½, Australia, 12.

HUBBY HAD GOOD CAUSE TO LAUNCH A COMPLAINT

LONDON (AP)—Peter Ender was perfectly happy until he became a golf widower. He told a divorce court Monday his wife, Freda, started playing eight or nine rounds a week and neglected their home.

Mrs. Ender, 45, said she took up the game at her husband's suggestion and it was only two or three rounds a week anyway. And, she complained, he tried to stop her golf by dousing her in a cold bath and throwing her clubs on top of her.

Judge John Flowers dismissed a divorce suit brought by Mrs. Ender charging cruelty.

"The husband was justified in making some complaint," he said.

Aussies Boost Glowing Record

ST. ANDREWS, Scotland (AP)—World record miler Herb Elliott... Davis Cup... Olympic swimming champs... British Open golf championship... and now the World Amateur team championship of golf.

That's the proud sports record today of Australia, a country with a population of only about 10,000,000.

The Aussies added the amateur golf title and won the Eisenhower Trophy by defeating the United States in an 18-hole playoff over St. Andrews' Old Course Monday.

The Australians had a 222 total and the U.S. 224. The teams had tied with 918 strokes after 72 holes ending Saturday.

Twenty-nine countries competed in the championship, the first of its kind.

In the playoff, Australia's Peter Toogood shot 39-36-75, Bruce Devlin 37-35-72, Bob Stevens 40-35-75, and Doug Bachli 37-41-78.

On the American team, U.S.

national amateur champion Charlie Coe of Oklahoma City had a 38-35-73, Billy Patton of Morganton, N.C., 38-37-75, Dr. Frank (Bud) Taylor of Pomona, Calif., 39-37-76, and Bill Hyndman of Philadelphia 40-38-78. The low three scores counted towards the team aggregate.

Britain came third of the 29 countries with 919, New Zealand fourth and Argentina fifth. Canada tied for sixth with South Africa with a 945 score.

Bob Kidd of Vancouver led the Canadians with 83-82-75-74-314; Doug Bajus, also of Vancouver, had 79-80-77-81-317; Canadian amateur champ Bruce Castor of Toronto shot 79-83-76-81-320, and Toronto's Eric Hanson had 82-79-83-81-325.

Access Problems Game Club Topic

Problems of controlling hunter access to logging claims will be the main topic up for discussion at the regular monthly meeting of the Victoria Fish and Game Protective Association tonight.

Following discussions, some new films will be shown by Don Keirs of the provincial game branch.

Open to members and their friends, the meeting at the Goldstream clubhouse starts at 8 p.m.

Rec Continues Fivepiv Skein

For the third straight week the winner of Capital City Bowling Alleys' championship fivepiv bowling tournament is C McRae.

Saturday he rolled up a 77 to best Wallis (752), Reg Waggoner (723) and Bob Hodge (678).

Hodges won the elimination with an 815 series ahead of Waggoner at 779 and Wallis with 741.

FAITH IN 'HIS BOYS'

Commonwealth Chief Scout Lord Rowallan shows faith in boys. He was first to cross "monkey bridge" they built at Royal Athletic Park rally. The chief downed his cane, scaled the ladder and threaded his way across, despite "game leg," to cheers of 1,500 boys. (Robin Clarke Photo.)

'Sweepers Here Join U.S. Navy For Exercises

Minesweepers of the United States Navy and the Royal Canadian Navy will leave Esquimalt harbor at 11.30 a.m. Wednesday for joint exercises off the West Coast of Vancouver Island.

The five U.S. sweepers arrived at 10 a.m. today for an overnight stay before setting out with the four ships of the Second Canadian Minesweeping Squadron.

Accompanying the minesweepers will be a landing ship, tank, the USS Greer County, which will serve as depot ship.

The U.S. sweepers, all members of minesweeping division 73, are USS Estem (senior ship), Conquest, Gallant, Acme and Pledge.

The Canadian squadron comprises HMC ships Fortune, James Bay, Miramichi and Cowichan.

The four Canadians recently returned from exercises off the California coast with units of the USN.

Exact length of time for the current exercises has not been announced, but the Esquimalt-based ships are expected to return "later this month."

NUCLEAR POWER, SUB FLEET STUDIED

'New Navy' Blueprint Expected Next Spring

By MONTE ROBERTS

Decision of a new shape and form for Canada's navy may be reached by next spring, Vice-Admiral H. G. deWolf, chief of naval staff, RCN, said here today.

Admiral deWolf, here from Ottawa on an annual inspection tour of the Pacific Command, said a 12-man study group has been working on revaluation of the naval force for several months.

"We hope this winter will be productive, and the group will be ready to report by spring," he said.

Main areas of study revolve around nuclear propulsion and the possible addition of a sub-

marine force to the RCN.

Represented on the study group, in addition to the navy, is the National Defence Research Board and Atomic Energy of Canada, Ltd.

"Scientists and engineers have also worked closely with the Royal Navy for the past year," the navy chief said. "Nuclear propulsion and ship construction are the major factors under study."

Depends on U.S. Co-Operation

Admiral deWolf pointed out the importance of information which might be obtained from the United States, which has recently carried out spectacular exercises—including an under-the-pole voyage and a record

time for submergence—with nuclear powered subs.

"To get all the knowledge required depends on the U.S. Navy. We hope they'll be allowed to provide the information, and will be willing to do so."

Whether or not a submarine force is added to Canada's navy, Admiral deWolf believes "on the basis of present information" there will be no change in the need for surface ships.

On other aspects of the RCN, today, Admiral deWolf said:

Guided missiles are under study, but their value as defensive weapons for an anti-submarine navy is doubtful.

No change is contemplated in the current personnel "ceiling" of about 21,000 officers and men.

First naval officers to graduate under the new "general list" program will be from Royal Military College next year; first cadets on this coast enrolled under the plan started training last summer.

In his personal opinion, all-out war is not inevitable. "Rather, I would say peace is inevitable, under an armed truce, with no person willing to pull the trigger."

Quadra Ferry Bids Called After Protest

B.C. Highways Minister P. A. Gagliardi will call tenders immediately for a new and larger passenger ferry service connecting Campbell River and Quathiaski Cove on Quadra Island.

His decision was announced following a meeting this morning with a delegation from Quadra Island Ratepayers' Association.

The group had threatened to boycott the existing ferry, Victory II, operated by Thompson Tug & Barge, unless immediate steps were taken.

Of vital concern was the transport of 38 high school students from Quadra Island to Campbell River.

Mystery Blast Baffles Police; Search Fruitless

A mystery blast rocked downtown Victoria at 2.20 a.m. today and could not be traced by police.

Two constables heard the explosion from different points and thinking in terms of a safe-cracking, police made a search of business premises in the Fort, View, Yates, Blanshard and Herald areas.

One officer said he thought the sound came from the 700 block of Fort, but another policeman centred the noise on lower Herald.

Citizens Group Formed to Plan For Auditorium

The citizens' auditorium committee was formed today at a meeting of about 10 persons representing various sections of the community.

The meeting was held at the Olde England Inn to discuss the type of civic auditorium that should be built here.

The committee decided to obtain a model of an auditorium project that could be presented to subsequent committee meetings for consideration.

Plans for the building are to be drawn up by an architect when type of construction is decided.

About 25 persons were named to the committee with Times music and drama critic Mrs. Audrey STED. Johnson and Courtney Haddock elected to

spearhead the search for the best type of building.

MODEL PREPARED

Mr. Haddock was chairman of a Chamber of Commerce committee that studied the auditorium proposal about a year ago.

Mrs. Johnson said it was agreed that the auditorium should be a multi-purpose building that could be used by numerous sections of the community.

Next meeting of the group is expected later this month when the model is ready.

CHEST BARBS STICK

'I'm Sorry It Hurt But...' Says Harbord

Community Chest campaign manager Justin Harbord said today he is sorry if his recent criticism of some "light-fisted" Victoria groups had hurt anyone—then said he was not backing down.

"I am grievously sorry if I have wounded any good citizen," he told a Kiwanis Club lunch meeting, "but there will be no withdrawal by me of anything I said, since all the statements I made were factual and honestly intended."

"The disgusting fact remains that a large number of people and corporations consider it their right to increase the burden on the good citizens, on the generous, in accepting no responsibility or by attempting to discharge it with resentfully given tokens."

"THOSE WITHIN" Mr. Harbord said Victoria doctors were "dedicated, selfless men," and teachers were "people giving freely of their warm hearts," but that there were those within both groups who refused to assume a fair share of community responsibility.

The Chest boss said if the \$300,000 campaign failed it would "be the fault of national firms and all those other people who have not yet related their giving to the new and fortunate circumstances in which they find themselves."

He urged Victorians to "stop thinking that every cent we receive after taxes belongs to us."

"VOICE OF NEED" "Listen to the voice of need crying all around us," he continued, "and let us give with a glad heart. For each penny we contribute it will be returned to us a hundredfold, and we will be buying happiness for ourselves and others."

Mr. Harbord said "some anonymous Victorian" had sent him a copy of Dale Carnegie's book, "How to Win Friends and Influence People."

"To him or her I say, Thank you very much. I get the point displayed would have looked conservative in a tattoo parlor."

Salvos at Salgo

Parade into the fiercest confines of Hell.

And yet some patrons were saying that it was "impolite" to criticize the works of an artist from a friendly foreign nation. Just isn't done, old boy.

This strikes me as utter nonsense. When a performer lays his works on the line—whether he is artist, musician, singer, writer or speaker—he must chance the critics' verdict.

Remember Margaret Truman? When she visited Victoria she was the daughter of the president of the United States and as such, entitled to every courtesy. But she came as a professional singer, charging \$2,000 a performance. She couldn't sing. It was the simple duty of the critics to cry caveat emptor!

THEY CALL HIM 'GREAT TYEE'

Scouts Salute Chief

By PETE LOUDON (See Also Page 9)

MISHAP SPARKS GULF ISLAND FERRY SHUFFLE

Gulf Islands' ferry Motor Princess was put out of action Sunday at Swartz Bay with a damaged cuplink.

The vessel is in Victoria for repairs and is expected to resume its regular run Thursday.

Meanwhile, company officials announce the motor vessel George S. Pearson will operate continuously from Vesuvius Bay to Crofton until 6 p.m. today to carry extra traffic.

Wednesday, the motor vessel Cy Peck will operate the regular schedule of the Motor Princess from Swartz Bay to Fulford. If the Motor Princess is not ready for service Thursday, today's service will again be in effect.

A monkey bridge is like a spider web swaying in the breeze; so it was with heartfelt admiration 1,500 Scouts and Cubs cheered "The Chief" as he ventured across one Monday at Royal Athletic Park.

"The Chief" is Lord Rowallan, 62-year-old chief Scout in the Commonwealth.

Duncan boys call him "The Great Tyee" and a tenderfoot in Ottawa once called him "the guy in the skirt."

Most general comment was, "He's great," as he strolled in his kilt, cane in hand, among boys gathered from most of Vancouver Island to welcome him.

The Chief Scout's rally was disappointing in one respect. The grandstand held only about 300 parents. But the boys had eyes only for Lord Rowallan who had come here from Scotland to see them before going on to tour Canada.

It was the Western Area Scouts, from Belmont, Coiwod, Langford, Sooke, Jordan River and Luxton, who built the rope bridge.

Scouts set up a camp, North Saanich held a "chariot race" whose human wheels broke down.

Cadboro Bay Seat Scouts provided side boys and piped the chief scout ashore after he had accidentally stepped aboard their imaginary ship.

Donald McPherson of Kilgarry Road, attending with a slung-up broken arm, won another break when Lord Rowallan paused to ask him whether he was a "victim" in a display, or whether his injury was the real thing.

Mount Arrowsmith District Scouts made fire by friction, huffing and puffing, while more practical boys of Third Victoria watched their kettles boil and sat on their matches.

Log-Slicer's Skill Stopped Him Cold

The chief scout stood amazed as a patrol from Alberni district sliced a three-foot log into flapjacks with chain saws—to demonstrate the technological age of scouting.

A soggy sing-song, making up in volume what it lacked in togetherness, ended the event. The scouts went back to Courtenay, Qualicum, Sooke and Somenos, Parksville and Alberni, Chemainus and Langford, and every other island town with their chiefs' words in their ears:

"You've got over 8,000,000 brothers. I've met them all over the world. They haven't all got white faces and they wear

all sorts of different uniforms, but they are keeping the same promise and law as you."

"Whether you wonder whether it really matters about doing that good turn today, remember all those brothers... you'll decide you're never going to let them down."

"If you go abroad, you can go into any village and if you give the Scout salute, it won't be long before someone holds out his left hand to you."

There was a banquet later at the Empress Hotel. The Chief Scout, wearing Canada's international Scouting award, the silver fox, from a red and green ribbon, spoke to the leaders and local Scout organizers:

They'll Preach In Pantomime At City Church

A deaf-mute couple Rev. and Mrs. Les Hunt will present their evangelistic message Wednesday through unique pantomime routines.

The former entertainers, who turned their talents to this way of presenting the Gospel after their conversion, will appear at 7.45 p.m. in the Missionary Tabernacle, 1039 Yates Street.

ASK The TIMES

Q.—Are the latest comparative figures available for spectator attendance of such professional games as baseball, etc.? L.F.V.

A.—With the exception of baseball, the figures are not available. However, according to sports authorities, the major baseball leagues drew the highest attendance—17,460,289 for this season. Professional hockey and football are probably next in line, with wrestling a close third.

Q.—Are there any Buddhist's in Canada? K.T.U.

A.—Yes, about 9,000.

Anyone wishing a question answered is invited to send the question along to The Times, addressed to "Ask the Times" Editor. Question and answers will be published daily. An question should deal with matters of fact and be of general interest. The Times does not undertake to solve conundrums or legal problems. Nor will it attempt to put a value on old coins, stamps or antiques. These should be submitted to dealers.

Engineers Stall Strike for Talks

Provincial government heating engineers, who indicated they were ready to strike unless wage increases were granted, have withheld further action pending talks with Works Minister W. N. Chant.

Mr. Chant met a delegation of engineers this morning and reported: "They will make further representations at a date to be set. I expect to be hearing from them within a week." The minister described the delegation as "very reasonable"

and said he would take the question to the cabinet.

The engineers, a segment of the B.C. Government Employees' Association, want increases to make their wages equal to those paid similar workers in private industry.

TOPICS OF THE DAY

Orville Maxwell, Cobble Hill, who was badly injured in a truck-car collision near Duncan Thursday, today was reported to be in a "fair" condition at King's Daughters' Hospital in Duncan.

He suffered two broken legs and chest injuries, but no head injuries, according to a hospital spokesman.

Paul Parizeau will speak on "Living Fish Foods" at a meeting of the Victoria Aquarium Society, Wednesday at 8 p.m. at Norway House.

A movie of the voyage of the second Mayflower will be shown to members of the North Kiwanis Club tonight at 6.15 in the Monterey Restaurant.

Mayor R. Braithwaite of Hamilton, New Zealand, will be welcomed to Victoria by Mayor Percy Scourrah Wednesday in his office. Mayor and Mrs. Braithwaite will stop over here on their return to New Zealand from a European tour.

Another "perfect" crib hand was registered in Victoria recently when Jerry Hansen, 19, of 2003 Shakespeare, scored the rare 29 points.

Playing with his father Erik and Mr. and Mrs. John Shields, Jerry drew three fives and the jack of spades completing his hand when the cut showed the five of spades.

An overheated electric lamp set a "drapery smouldering" in an Eaton's show window Monday night, next to a special fire prevention week display set up by the fire department.

The near-blaze was extinguished by firemen with a wet sack after major equipment was rushed to the store.

Remembrance Day ceremonies will be discussed at a meeting of Esquimalt Legion to be held at 8 p.m. Wednesday at the Legion Hall, 622 Admirals.

THE BETTER HALF

"I don't know what it is either, lady—but they're selling like hotcakes!"

SHOPPING GUIDE

Drip-Proof Juice Mixer Flat and Easy to Store!

By PENNY SAVER

This juice mixer is different! Made of sturdy, long-wearing polyethylene, the drip-proof container is a perfect size for holding juices, milk or just any type of beverage! It has rough grip sides, so the container can't possibly slip out of the hands and best of all it's flat . . . so it takes up little room in the ice box.

The price for this practical item is 68 cents.

What's this? A container to hold powdered cleanser? What an idea for the thrifty housewife . . . she'll save pennies using the perforated top polyethylene jar. It sprinkles the cleanser evenly and lightly over a hard surface . . . so there is little waste. The attractive holders are 49 cents each.

Decorative and yet useful are these adorable wooden cocktail gadgets. A combination bottle opener, cork screw and knife (for cutting off bottle top labels) is just one of a few of the darling items featured.

The pieces are in the form of soldiers or little men painted gay colors. Have this wonderful item on hand in your cupboard or bar . . . it costs just \$1.49.

A \$2.49 value selling for 99 cents! Now can you beat that? It's a bargain on packages of household and building tools . . . such as screwdrivers, chisels, utility knives, rulers and nails. Hubby will be delighted with these surprise packages! Call me at EV 2-3131 if you'd like to know where I shopped today.

LOUISE DAVIS

On Etiquette

GIFT TO FORMER HUSBAND'S BRIDE

Since our divorce ten years ago, my former husband and I have kept in touch with each other because of our daughter and because we sincerely like each other and our families. He recently married and, since we are a family of elaborate and thoughtful gift-givers, I am now confused as to the protocol of a wedding gift. I would appreciate your help.

Louise Davis Answers:

I'm afraid that your thoughtfulness as a gift-giver would be anything but thoughtful should you send a gift to your former husband and his bride. It could place the wife in

before the wedding day. I have just learned that the wedding gifts were sent to charitable institutions and wonder if this is correct. It embarrasses us, as there were many handsome and expensive gifts sent by our friends who might wonder why they aren't being returned.

Louise Davis Answers:

Your son's fiancée should have returned the gifts to the givers or at least should have given friends and relatives the opportunity of taking them back. It is strange that the gifts were sent to philanthropic institutions without some previous effort to return them. Although custom decrees that wedding gifts are sent to the bride, a bridegroom has an equity in them, too. Disposing of the gifts should be as much "by mutual consent" as the broken engagement.

DEAR ABBY . . .

To Each His Own!

By ABIGAIL VAN BUREN

DEAR ABBY: The following concerning my sister-in-law, may sound absurd but it is true. My brother earns over \$8,000 a year, but by the way my sister-in-law hangs on to every nickel, you'd think they were on welfare. When the kids take a bath she throws in socks and towels to be washed along with the kids, to take full advantage of the soap suds. You could break your neck in her house because she is too cheap to keep a light burning anywhere excepting where they are sitting. She uses a hand sweeper because it costs money to plug in the vacuum. I could go on and on. I told my brother he should talk to her, but he says to mind my own business as he's the one who has to live with her.

TOLD OFF: DEAR TOLD: When you can get such sterling advice from your brother, you don't need me.

DEAR ABBY: What is a husband supposed to do when his own wife sides with their two teen-aged boys against him? We have been eating either hamburgers or hot dogs for Sunday supper every Sunday for three years. Why? Because the boys like them. I travel and eat home only two nights a week. They will not eat steaks or chops or chicken, although I pay the bills and never said anything was too high. But my wife won't fix it. When I complain they say, "Let's take a vote" and I'm outvoted three to one. Can you solve this? OUTVOTED.

DEAR OUT: You are out of luck unless you cart home a single steak and fix it yourself. If you hadn't given an inch at a time, you'd still be the ruler.

DEAR ABBY: There is no sense in telling a girl who is in love with a married man to have a talk with her clergyman, a psychologist or anybody else. A person who is in love is stricken with a disease and nothing can cure her except time. I ought to know. I spent 22 years of my life on a married man. I wish someone would have given me a good swift kick in the pants. It wasn't worth it. SORRY.

DEAR SORRY: TIME does not cure all diseases, but when the "sickness" is an emotional one (and love is) the only answer is to find a doctor who will help you to understand your emotions. You could have saved yourself 22 years and a kick in the pants.

DEAR ABBY: Please don't laugh at my problem as it is very hard to figure out. For me,

at least. My girlfriend sent me her picture. She wrote across the bottom, "Yours, till eternity. Love, Doris." Only she spelled "ETERNITY" "ITERNITY." A few people have noticed this and I am embarrassed. Should I send it back to her and ask her to correct it? Should I try to correct it myself or should I ditch the picture?

EMBARRASSED: DEAR EMBARRASSED: If you can't correct it quietly yourself, send it back to her and ask her to correct it. She'd feel worse if she found out you ditched the picture. (P.S.—Buy her a dictionary for Christmas.)

DEAR ABBY: I am thirteen, almost fourteen. My best girlfriend has the most wonderful brother. He is 16 and goes to the same high school. We sometimes walk together, the three of us. I know he likes me but he is too brotherly. I don't want this. I have my own brothers. I would give anything

If he liked me like I like him. How can I get him as a boyfriend?

SINCERELY, ANN.

DEAR ANN: Be available . . . but not aggressive . . . be sweet, but not sugary. Let him know that you like him—but don't let him know how much. Good luck!

For a personal reply, write to ABBY in care of this paper. Enclose a self-addressed, stamped envelope.

If you want a collection of Abby's best letters and answers in one book, ask your book dealer to get "DEAR ABBY" for you.

WHY GROW OLD?

By JOSEPHINE LOWMAN

Well Tested Rules Will Add Zest to Your Personality

We all know people who are unusually popular, and we all would like to be like them. The following rules are simple and well tested and will add zest to your personality.

1. Give the other person your whole attention when he or she is talking. Nothing is so flattering! Besides everyone has interesting things to say—well almost everyone. If you go "wool gathering" or plan your wardrobe for the next season, the speaker is certain to know it by your response or the expression on your face.

2. Be appreciative of the courtesies which others extend you, no matter how small they are, and show it. Some folks just do not let others know how they feel and some take such things for granted. Those who are enthusiastically thankful for what you do for them are most rewarding individuals.

3. Don't tell your friends about their faults. Let someone else do that. The idea of perfect frankness between friends is gruesome in my opinion. We should not lie to those we know but we do not have to be brutally and cruelly frank in the name of friendship. For instance, why spoil a woman's pleasure in a hat or gown which she already has bought by telling her that the color or the style is wrong for her?

4. Develop a sense of humor by trying to see the funny side of things. People love those

who make the day seem gay. We should try to be perceptive of the comfort and wishes and wants of others. Don't wait until their needs hit us on the head. This means being fully aware and all the way alive instead of only half conscious of what is going on about us. Many folks would be thoughtful if they were really wide awake.

Just these five simple rules will take you a long way toward the coveted prize of popularity. If you teen-agers would like to have the leaflet "Popularity" send a stamped, self-addressed envelope with your request for leaflet No. 58. Address Josephine Lowman in care of this newspaper.

OES Bazaar

Annual fall bazaar of Esquimalt Chapter, No. 41, Order of the Eastern Star, will be held on Saturday at Knights of Pythias Hall, Cormorant Street. Mrs. Jessie Earl, past matron, will officially open the affair. Afternoon tea will be served and there will be home cooking, novelty, apron, home produce and superfluous stalls, as well as bingo and other contests.

St. John Ambulance

Tonight—Oak Bay Nursing division No. 176, 8 p.m., Mrs. E. Humble, superintendent.
Wednesday—Victoria nursing corps officers and NCO's, 7:45 p.m. meeting, Marie Lawrence, superintendent.
Thursday—Denton Holmes nursing division, No. 148, 7:30 p.m. Mrs. L. Sinclair, superintendent; St. John Ambulance division, No. 65, 8 p.m., R. M. Barnes, superintendent.
Friday—A. J. Dallain nursing division, No. 210, 8 p.m., Mrs. B. D'Altroy, superintendent; Denton Holmes nursing cadets, No. 148, 6:30 p.m., Miss Joan Andersen, officer cadet.

CLUB WOMEN'S NEWS

Clothing Given—It was reported at the recent meeting of the Robert Burns McMicking Chapter, IOOE, that \$16 worth of clothing has been sent to Italy, Greece and Korea by the group. Miss Sharon MacKay, one of the chapter's bursary winners, described her recent trip to the United Nations' Assembly in New York. Plans were made for a tea to be given at the Canadian Institute for the Blind on Oct. 25. A report was made that \$2 had been given to the Alert Service.

Group Named—"Annie Alton" was the name given the evening auxiliary of the Women's Missionary Society of Centennial United Church at a meeting recently. The name honors one of the group's charter members. Miss H. Heffren, missionary, gave a talk on "Women in the Church."

Fall Tea—At the recent meeting of the ladies of James Bay guild, it was decided that a fall tea would be held on Nov. 5. Mrs. J. H. Stewart was named

convener and Mrs. J. Velacott co-convener. Mrs. R. Webster was elected entertainment chairman and Mrs. C. Gonnason is in charge of home cooking.

TODAY'S RECIPE

RAISIN CRANBERRY PIE

One and one-half cups light or dark raisins, 2 cups fresh cranberries, 1 1/2 cups water, 1 1/2 cups sugar, 3 tablespoons cornstarch, 1/2 teaspoon salt, few drops almond extract, 1 tablespoon butter or margarine, pastry for double 9-inch crust.
Rinse and drain raisins and cranberries. Add water. Blend sugar, cornstarch and salt, and stir into fruit. Heat to boiling and cook and stir 3 or 4 minutes. Blend in almond extract and butter. Cool slightly. Pour into pastry-lined pie pan. Top with pastry. Bake in hot oven (425 degrees F.), 30 to 35 minutes.
Makes 1 (9-inch) pie.

Agreement Reached on Penal Pact

OTTAWA (CP)—Federal and provincial law enforcement authorities today reached conditional agreement on a change in responsibility for the some 21,000 prisoners in Canadian jails and penitentiaries.

N.Y. Market Skids In Last Hour

NEW YORK (AP)—A late selling wave knocked many stocks down \$1 to \$4 in heavy trading today. The selling mounted in the last hour and at the finish the ticker tape lagged 13 minutes behind floor transactions.

New State Pension Plan for Britain

LONDON (Reuters)—The government announced today a new state pension plan by which contributors would be able to increase their present state pension on retirement by making extra contributions, graduated according to earnings. Two-thirds of Britain's working population now uses the state pension plan.

Wildcat Strike Kills BOAC Flights

LONDON (Reuters)—British Overseas Airways Corporation arranged for its stranded passengers to fly by other airlines today as a wildcat strike by 4,000 maintenance workers brought London service to a halt.

Two Negro Homes Bombed in Chicago

CHICAGO (UPI)—Two bombs, exploding almost simultaneously, shattered the neighboring buildings housing two Negro families in a southside neighborhood early today.

Merger of Oil Companies Blocked

VANCOUVER (CP)—A last-minute failure to agree on terms blocked a projected merger of Brasco Oil Co. and Kroy Oil and Gas, H. W. Purcell, Brasco president, said here today.

A meeting at Calgary of Kroy shareholders to consider the merger was called off when Kroy officials were served with an injunction restraining them from holding the meeting, Mr. Purcell said. The injunction was obtained by a group of Kroy shareholders headed by former president F. G. Fulton.

Bells Toll Dirge
As Pope Buried

(From Times News Services)

VATICAN CITY—Requiem services for Pope Pius XII continued today before a symbolic coffin in St. Peter's Basilica as cardinals gathered to elect his successor.

The late pontiff of the Roman Catholic Church was buried Monday in the grottoes beneath St. Peter's. An empty coffin was placed in the church for mourning masses that continued until Sunday.

The giant bells of St. Peter's Basilica tolled a dirge as the body of the Pope, encased in three coffins, was lowered into the massive stone foundations of the Basilica.

Twenty-two cardinals of the church, among them Paul-Emile Leger of Montreal, sat with bowed heads as the eulogy was read by Msgr. Nicola Motte, chosen by the cardinals for that task.

The mournful tones of the Miserere, chanted by the Vatican's Julian Choir, rose and fell through the recesses of the Basilica throughout funeral services.

Strange sounds marked the two-hour ceremony.

These included the rasp of brace and bit, screwdrivers, the pounding of hammers on a leaden coffin and the hum of acetylene torches that sealed it.

Above the incense, there was the odor of melting solder, and, at the end, the squeak of rope and pulley as the heavy, thrice-sealed coffins were lowered into the grottoes.

The titular bishop of Adana, Msgr. Diego Venini, celebrated today's mass.

Continued on Page 29

SPECIAL MASS
AT ST. ANDREW'S
ON WEDNESDAY

Solemn Pontifical Mass of requiem will be offered for the late Pope Pius XII Wednesday at 10 a.m. in St. Andrew's Cathedral.

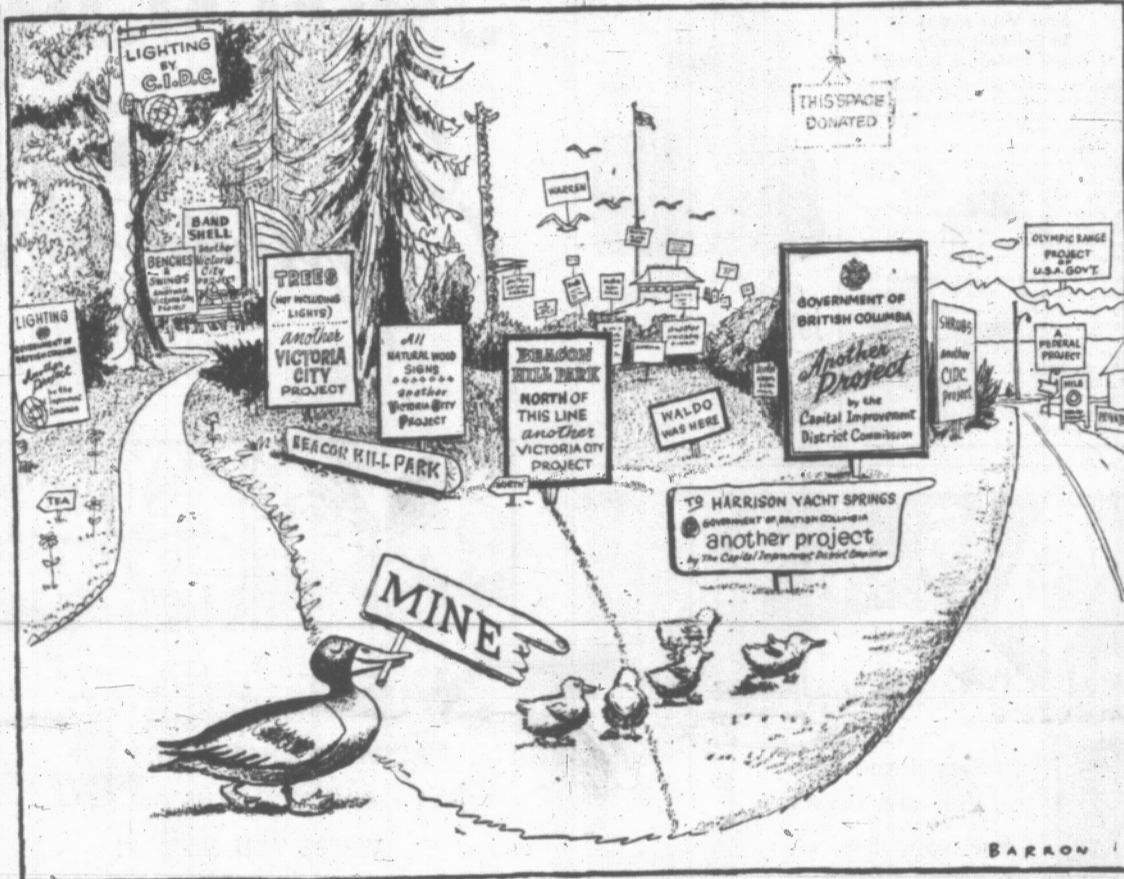

A special sermon will be delivered by Bishop James M. Hill immediately following the service.

W. Indies Leader
Urges More Trade

OTTAWA (CP)—Lord Hailes, governor-general of the West Indies federation, said today it is vital for the fledgling nation to "sustain and increase" the trading relationship that has existed for more than 300 years between the West Indies and Canada.

He expressed deep appreciation to the Canadian people for economic aid and said he is convinced from what he knows of West Indians that Canada's faith in the federation will not prove misplaced.

Lord Hailes, here on an official visit, was referring to Canada's five-year, \$10,000,000 program of aid, including two ships.

Planet Venus New Target
For U.S. Space Rockets

CLIMBER LOST

Salt Spring
Area Scoured
For Plane

Search for a missing light plane from Vancouver narrowed to the Salt Spring Island area today as two aircraft and a fleet of small boats resumed an air-sea patrol started in bad weather Monday.

The plane vanished Sunday evening after the pilot called Vancouver airport for landing instructions. The RCAF search and rescue centre said the pilot was John L. Duda, North Vancouver, who is well known as a mountaineer.

Bad weather restricted the search Monday and continued overcast skies in the south coastal area today limited the air search to two planes.

Duda called the airport when only 2 1/2 miles out, but did not reply when the airport radioed instructions.

Officials believe his radio went dead and that he lost sight of the field when making a turn and headed out toward the Gulf Islands.

Heavy clouds blanketed the Vancouver-Nanaimo area Monday.

Duda was returning alone from a logging operation at Gifford Island, 250 miles north-west of Vancouver.

Among his 30 mountaineering "firsts" in North America are ascents of Mount Princess and Mount Monarch.

Vancouver Stocks

VANCOUVER—Closing sales: New Hamil 1,000 at 25, National Explorations 1,000 at 10, Blue Chip 5,000 at 25, Canam-Copper 1,000 at 25, Inland Gas (pf) 20 at \$16.25, Vananda 7,500 at 2 1/2, Trojan 1,000 at 16 1/2, Sheep Creek 1,000 at 83, Basco 1,000 at 39.

NEW YORK (AP)—The U.S. Air Force was reported today to have been authorized to launch two space shots in addition to the three lunar firings originally assigned it last spring.

A Los Angeles dispatch to the New York Times said informed sources disclosed this Monday.

One is likely to be an attempt to gather scientific data in the vicinity of the planet Venus, it was reported.

'Man On Moon'
Within 12 Years

(See Also, Page 3)

WASHINGTON (CP)—A prediction that man will set foot on the moon in 12 years has followed the plunge to disintegration of a lunar-bound rocket that knifed nearly 80,000 miles into space.

Maj.-Gen. John B. Medaris, U.S. Army missile chief, made the prediction Monday at a press conference at the National Electronics Conference in Chicago.

After calling the U.S. Air Force moon rocket a spectacular success, Medaris said the army is right on schedule with a moon shot of its own. He said chances are about 50-to-50 the army shot will get into the area of the moon.

He added chances are not good that the rocket, using a Jupiter ballistic missile for the first stage, will orbit the moon.

Medaris said the army intends to have more ground control over its shot. This indicated the army may be able to make in-flight corrections in direction.

Failure of the air force Pioneer missile, which disintegrated

Death Threat

HAVANA (AP)—Rebel leader Fidel Castro threatened Monday to kill all candidates in Cuba's Nov. 3 general election unless they withdraw by Oct. 30.

BIRTHDAY SMILE

President Eisenhower wears big smile and carnation in lapel as he attends breakfast marking 68th birthday today in Washington. Party was arranged by four Republican organizations. (AP Wirephoto).

U.K. Backs
Year's Ban
On A-Tests

UNITED NATIONS, N.Y.

(CP)—Britain appealed to the Soviet Union today to join her and the United States in a year's suspension of nuclear weapons tests starting Oct. 31.

Minister of State Allan Noble told the United Nations General Assembly's political committee:

"We want the cessation of tests with real disarmament because only so will real security be achieved."

"The cessation of nuclear weapons tests is not in itself disarmament. . . . It will leave a number of powers to go on amassing nuclear weapons as much as they please. . . . The suspension of tests, however, may help to bring about real disarmament."

Inquiry Follows
'Economy' Charges

By PETE LOUDON

A full investigation of B.C. mental health services by a team of experts has been ordered by Provincial Secretary W. D. Black, it was learned today.

The investigation, which follows charges of unwarranted economy drives within the mental health service, will be carried out by officials appointed by the American Psychiatric Association.

A committee will be charged with examining present facilities and services, and determining future requirements.

Mr. Black will attend a convention of the APA in Kansas City next week where he is expected to arrange the inquiry.

CENTRE OF CONTROVERSY

Although Mr. Black previously had resisted suggestions that there were faults in the mental health services, they were a centre of controversy during the legislative session earlier this year.

B.C. Medical Association, in convention at Kelowna last week, also heard charges by Dr. Frank Turnbull that health services in the province are deteriorating.

Mr. Black said he would announce, after the U.S. convention, what the specific objectives of the survey would be and whether findings would be made public.

In defence of the mental health services, he said:

"We are trying to do the best we can with what we have got. We have made every effort to get the necessary skilled persons, but we are suffering a shortage of trained personnel. It is an enormous problem and B.C. is not alone in it."

Dr. Turnbull bases his charges of deterioration on the lack of trained staff. He said the high turnover of staff was due to unsatisfactory working conditions.

Mr. Black's department had rejected an inquiry by a special committee of the B.C. Medical Association, he said.

Gordon Dowding, CCF MLA for Burnaby, charged Monday that Mr. Black "does not even have a clue" to what is going on in government health services.

In a CBC free-time political broadcast he said Premier Bennett Continued on Page 29

CBC Appeals

OTTAWA (CP)—The CBC today asked the Supreme Court of Canada to reverse a judgment of the Ontario courts that it must stand trial on charges of violating the Lord's Day Act by broadcasting news on Sunday.

Phone 'Conniving'
Charged by CCF

TORONTO (CP)—Two Ont.

tario CCF leaders have suggested there may have been "conniving" between Prime Minister Diefenbaker and the Bell Telephone Company to permit a telephone rate increase.

Provincial leader Donald MacDonald and Thomas D. Thomas, member of the Ontario Legislature for Oshawa, made the suggestion Monday at the close of the party's three-day annual convention.

About 300 delegates unanimously approved a demand that the Ontario government take over the Bell system in the province. The resolution condemned Ontario's Progressive Conservative government for not joining eight other provinces in opposing the \$17,000,000-a-year rate increase for Ontario and Quebec, awarded to Bell last Friday by

Reds Extend
Cease-Fire
For Two Weeks

TAIPEI (AP)—The Chinese

Nationalists pushed their re-stocking of the Quemoy's today as Red China extended its cease-fire in the Formosa Strait for two more weeks.

Quemoy's civilians relaxed. More farmers went to their peanut, sorghum and vegetable fields than at any time since the Communists started their artillery siege Aug. 23.

The main activity may now shift to diplomatic talks in Warsaw between Red China and the United States. The eighth meeting of ambassadors is Wednesday.

WASHINGTON (AP)—

President Eisenhower Sunday hailed as "good news" Red China's extension of the Quemoy cease-fire for two more weeks. He pledged the United States would work for a negotiated settlement of the Formosa Strait problem.

TAIPEI (AP)—Vice-President Cheng Cheng said today the Nationalists will not reduce the strength of their garrisons on the offshore islands.

SALGO GAINED
LOOT, FRIENDS
ON B.C. VISIT

(See also Page 21)

VANCOUVER (CP)—Mexican painter Andres Salgo, whose work was roundly criticized in Victoria last week, left the province today saying: "I like B.C. very much."

He said he was "richer in experience, friendship and money."

Salgo's exhibition in Victoria was denounced by seven artists there as junk. He replied by describing his detractors as house painters and barn painters. His prices range up to \$1,000.

ACROSS THE PROVINCE

Gunfire Marks Rescue at Sea, Medic Charged

(From CP Dispatches)
VANCOUVER—A Vancouver surgeon was charged with operating a vessel while impaired Monday after four RCMP officers took the man from his grounded yacht following a shooting affray.

Dr. C. E. Battle, aged about 50, was remanded to Oct. 22 and released on his own recognizance when he appeared in North Vancouver police court.

RCMP appeared on the scene after would-be rescuers were greeted by gunfire in the early morning incident off Gambier Island in Howe Sound, 30 miles northwest of here.

RCAF air-sea rescue officials here said they began receiving distress calls from the yacht Farmack at 9:30 p.m. Sunday. A "drunken" voice said the vessel was stuck on a reef in centre harbor at Gambier Island and was in danger of capsizing. The calls lasted for 1½ hours.

A water-taxi from Horseshoe Bay, on the mainland near the mouth of Howe Sound, located the yacht but the crew said when they approached the Farmack they were greeted with shouts and curses. A man on deck told them: "We don't need rescuing."

The taxi's crew reported they were then shot at.

A Vancouver city police launch then took the RCMP officers to the grounded vessel and a man was arrested.

FIRE DESTROYS SCHOOL
PENTICTON—Fire destroyed a Penticton elementary school early today.

Burned was an H-type army hut school on Jermain Avenue, which was attended by about 200 pupils.

The fire was discovered shortly after 2 a.m. in the western portion of the building and quickly spread through the entire structure despite efforts of firemen and four fire trucks.

HOTEL ROBBER, THIO HELD
ALDERGROVE—Two armed men bound and gagged the manager of the Aldergrove

Hotel early today and made off with \$1,600 cash from the hotel safe.

Less than an hour later police said they recovered the money and took three suspects—two men and a woman—into custody.

RCMP said the three suspects were taken into custody after being stopped at a roadblock in nearby Surrey. Police said two guns were found in the car.

SPORTS CAR WINNERS
VANCOUVER—Driver Ron Moscrop and Navigator Rex Scofield have won the three-day Canbros sports car rally in which 48 driver-navigators teams, members of the B.C. Sports Car Association, took part.

The first leg of the rally was from Vancouver to Lillooet; the second from Lillooet to Clinton; and the third back to Vancouver. The total distance was about 900 miles.

DRIVER CHARGED
HOPE—Gordon Ray Nicholson, 23, of Hope has been charged with failing to remain at the scene of an accident in connection with the traffic death of a pedestrian Saturday at Hope.

He was scheduled to appear in police court today. RCMP have not released the name of the dead man.

BOY STABBED
VANCOUVER—Police are investigating the possibility of a "war" between gangs of teenagers following the stabbing of a 15-year-old boy by another youth Sunday night.

In good condition in hospital is Siegmund Warner, of Vancouver, suffering from a knife wound in his abdomen.

PENSION ACT SOUGHT
VANCOUVER Man Heads B.C. Staff

B.C. Government Employees' Association wound up its annual convention at Vancouver Saturday with election of Walter Ellis as 1958-59 president.

Victorian Larry Huck of the attorney-general's office was elected second vice-president. First vice-president is Dave Block of Nanaimo.

The new president is chief clerk of the lands registry office in Vancouver. He is 33. He succeeds Larry McPhail of Nelson, who served for only two weeks after Joan Gower of Victoria left to take up a teaching post before her term of office expired.

Treasurer is F. H. Howarth, department of labor, Vancouver and New Westminster.

Re-elected members of the executive were: Gas Devitt, Motor Carrier Branch, Vancouver; J. E. Hay, department of highways, Maple Ridge; Carl Hawcks, Woodlands School; L. A. McPhail, attorney-general's department, Nelson; J. G. (Jerry) Ritchie, department of finance, Duncan; J. D. Sutherland, department of highways, Prince George; Miss Roberta

Wagner, department of health and welfare, Duncan.

Newly-elected members were G. A. Broomfield, department of finance, Vernon; A. L. B. Clark, department of labor, Kamloops; D. J. Kidd, department of labor, Kelowna; Mrs. Jean Slass, department of health and welfare, Vancouver; D. M. Smith, department of provincial secretary, Essondale.

The association's final sessions decided to ask for a new superannuation act and to ask that Liquor Control Board employees be allowed to meet department heads.

Members felt the present superannuation act is a "patch work" of amendments. Studies will continue toward formulating improved standards on which a new act could be based.

The question of LCB employees' rights arose when it was reported all requests for meetings have been turned down by personnel authorities. The BCGEA will work "through the attorney-general if necessary" for the right of any group to meet department heads on request.

WORLD'S TALLEST TOWER ERECTED BY JAPANESE

TOKYO (UPI)—Workmen installed an 82-foot antenna atop Tokyo's "television city" tower today, making it the tallest free-standing tower in the world.

The 1,092-foot tower stands 108 feet taller than Paris' Eiffel Tower, nearest competitor in its class of structure.

The Tokyo tower rates third among man-made structures, trailing a 1,610-foot supporter tower in Roswell, N.M., and the 1,472-foot Empire State Building in New York City.

The tower's closest competitor in Asia is a 537-foot television tower in central Japan.

City Woman Refused Re-Entry Into Canada

SEATTLE (AP)—Mrs. Hazel Anna Wolf, 60, whom the United States has been trying to expel since 1949, will not be accepted for deportation by her native Canada, her lawyer, John Caughlan, said today.

Caughlan said he had been informed that under a Canadian law in effect up to 1932, Mrs. Wolf lost her Canadian citizenship Dec. 30, 1926, when she married Herbert Dunning Wolf, an American citizen, in Portland Ore.

The government has been trying for many years to deport Mrs. Wolf on grounds of Communist party membership. She was born in Victoria, B.C., but has lived in the United States since 1922.

Caughlan said the Canadian ruling was made in Ottawa by Laval Fortier, Canada's deputy minister of citizenship and immigration.

District director John Boyd of the immigration service said he had not been informed of the ruling.

False Teeth Often Have a Certain Odor!

Soak your plates in Polident daily to avoid "Denture Breath"

Polident is the specially designed cleanser that keeps false teeth—and breath—clean and fresh always. Follow these simple rules:

1. Never use a brush on them! Your dental plates are much softer than natural teeth. Brushing wears down fitting ridges so they get loose.

2. Never use soap or toothpaste! They can leave film which collects bacteria and food particles, a major cause of offensive "Denture Breath."

3. Use a soaking-type cleanser made for false teeth only... Polident! Polident is the denture cleanser recommended by more dentists than any other. No brushing, no handling of soapy plates that can slip and break. Polident gets where a brush can't reach. Best of all, Polident always leaves false teeth odor free. Get the world's largest selling denture cleanser, Polident, at your drug counter.

Saudi Arabia Oil Deal Threatens Whole Industry

ROME (AP)—Saudi Arabia is a difficult decision. Under its concluding negotiations on a concession agreement, it must be given an opportunity to meet these terms. But in doing so it could increase heavy pressures upon its own organization.

The deal now is to be placed before the board of Standard Oil Company of Indiana, an independent company. It would strike a new blow at the 50-50 concept of oil profit sharing in the Middle East. In addition, it would prescribe Saudi participation in operations and profits all the way to the consumer in an "integrated" company.

If Indiana Standard accepts the terms, now being offered on an all-or-nothing basis by Saudi Arabia, the giant Arabian American Oil Company Aramco faces

deal with the National Iranian Oil Company giving the government a half interest in a joint producing company. Thus, Iran gets half the profits as host government and half the producing company profits. This became known as a 75-25 deal.

The company involved is Pan-American Petroleum Corporation. This company is owned, through another affiliate, by Indiana Standard.

Pan-American already has breached the 50-50 pattern in non-Arab Iran. It concluded a

ASTHMA MUCUS LOOSENED WHILE YOU SLEEP

with New Wonder-Worker
TORONTO—Special: Thanks to new scientific laboratory formulation, Shonol, a new wonder-worker, loosens mucus of children as well as adults now avoid such severe wheezing, coughing, rattling, difficult breathing, coughing and stiffness during recurring attacks of bronchial asthma. Election 'Call to Arms' Sounded for U.K. Tories

BLACKPOOL, England (CP) — Prime Minister Macmillan Saturday issued a clear directive to his admiring Tory supporters to gird themselves for a general election.

Without giving any hint of the exact zero hour, he sounded a call to arms in almost every sentence of a fighting hour-long address before 4,000 applauding delegates at the final session of the Conservative

party's four-day annual conference.

At the end, many delegates and some platform officials were predicting a spring election, with May suggested as the most probable month. This would be a year before the government's term of office expires.

Macmillan started by reminding the delegates that they were in the same Blackpool auditorium that was the site of the annual gatherings that preceded the election victories of 1951 and 1955. To a tremendous applause he continued, "Now, here we are again in 1958 getting ready to win a third."

NO TIMES FOR REST.

He ended by warning that the party must guard against being "beguiled by the sweet music

of public opinion polls," which have recently shown marked improvements in the party's popularity.

"This is a time for action, not a time for rest."

Macmillan spelled out in general terms some of the policies he believes will prove election winners, including an "external" policy based on principals of "strength, unity and understanding."

He reiterated a willingness to attend a summit meeting inside or outside of the United Nations anytime. But the government must work for the maintenance of its defensive strength in NATO, SEATO and the Baghdad Alliance.

Repeatedly Macmillan referred to the necessity of maintaining unity with the United States and defended his action of not openly criticizing the Chinese offshore islands problem.

"On the strength of the United States and their continued interest in the world as a whole, freedom largely depends," he said.

Opera Auditions For Local Talent In Late November

Again this fall local singers will have an opportunity to participate in the Pacific Northwest regional auditions held annually under auspices of the National Council of the Metropolitan Opera Association.

Local auditions will be held in the latter part of November at a location to be announced. Dr. Roger Manning will head a board of five auditioners. It is also expected that Mrs. Raymond Locke Gardener of Seattle, chairman of candidates for the Pacific Northwest, will be present.

Those selected by the local panel as of a suitable standard may proceed to Seattle in January to take part in finals for this region. There is no limit to the number of singers who might be selected.

Those wishing to apply for audition may get forms and full particulars from the Western Music Company, Fort Street.

QUADRUPLET GIRLS BORN TO CARPENTER'S WIFE

DETROIT (AP) — Quadruplet girls were born Sunday night to Mrs. Julia Ullman, 33-year-old wife of a carpenter.

Each of the babies weighed four pounds or more. They were described as "strong and healthy" by hospital attendants.

The father, Chester Ullman, 34, said "Thank God" when notified his wife and the new arrivals were in fine condition. He said his wife's physician told them a month ago to expect the multiple birth.

The Ullmans have two other children, Charles, three, and Louise, one.

Science Now Shrinks Piles Without Pain Or Discomfort

Finds Healing Substance That Relieves Pain And Itching As It Shrinks Hemorrhoids

Toronto, Ont. (Special)—For the first time science has found a new healing substance with the ability to shrink hemorrhoids and to relieve pain and itching. Thousands have been relieved with this inexpensive substance right in the privacy of their own home without any discomfort or inconvenience.

In one hemorrhoid case after another, "very striking improvement" was reported and verified by doctors' observations.

Pain was promptly relieved. And while gently relieving pain, actual reduction or retraction (shrinking) took place.

And most amazing of all—this improvement was maintained in cases where doctors' observations were continued over a period of many months!

In fact, results were so thorough

that sufferers were able to make such statements as "Piles have ceased to be a problem!" And among these sufferers were a very wide variety of hemorrhoid conditions, some of even 10 to 20 years' standing.

All this, without the use of narcotics, anesthetics or astringents of any kind. The secret is a new healing substance (Bio-Dyne) — the discovery of a famous scientific institute. Already, Bio-Dyne is in wide use for healing injured tissue on all parts of the body.

This new healing substance is offered in suppository or ointment form called Preparation H. Ask for individually sealed convenient Preparation H Suppositories or Preparation H ointment with special applicator. Preparation H is sold at all drug stores. Satisfaction guaranteed or money refunded.

Episcopal Church Elects New Bishop

MIAMI BEACH, Fla. (AP) — Rt. Rev. Arthur Carl Lichtenberger, Bishop of Missouri, has been elected, presiding bishop of the Episcopal (Anglican) Church in the United States.

He becomes the spiritual leader and chief executive officer for the 3,000,000-member denomination, effective Nov. 15.

The 58-year-old Missourian was elected by fellow ranking prelates the 190-man House of Bishops, at the church's triennial general convention.

He succeeds Rt. Rev. Henry Knox Sherrill.
